A PRIZE FIGHT,-On Monday morn ing, the 19th inst., a prize fight took place near Drum's, in Conyngham township, between BRYAN CAMPBELL of Wilkesbarre, and DAVID LEWIS o Mahanoy City. Ninety-eight round were fought, when LEWIS dealt a fou blow, and the referee declared in favo of CAMPBELL. The stakes were for

FIRE.-About ten o'clock on Tuesda evening last, our citizens observed large fire eastward from Bloomsburg and upon starting for the scene of th conflagration, it was discovered to b in or near Espy. Several of our cit zens were up and report the following: The burning building was the Planing and Lumber Mill, now or lately belonging to THOMAS W. EDGAR; which, with large quantities of lumber, was entirely consumed. We did not hear the loss, but with the machinery, &c., in the mill, the loss must be very large. Doubtless it was insured, but we are not informed as to amount. Several stables were also burned, and some dwelling houses fired, but, happily, extinguished before much damage was done. We did not learn the names of the owners. The cause of the fire is unknown.

Ir was feared that on account of the evere cold on Saturday of last week Delegate Elections might not be held iu a majority of the Districts, in which case the Convention on Monday would have failed. It turned out however that interest enough was fell among the people in favor of reform to secure a reasonable attendance of delegates and a satisfactory Convention. Hereafter a full Convention will consist of 67 members instead of 54.

Pulmour Syru, calence a scawed font and Schenck's Manerace Pills and go to Forda. I recommend these particular modelness because I am thoroughly acquainted with their action. I know that where they are used in atric accordance with my directions they will do the work that weight for the properties of the real, the preschan who presertes for cold, cough or high-tessals, and then alwing cold, cough or night-sweats, and then advises the patient to walk or rice out every day, will be sure to have a corpse on his hands before

cold, cough or hight-sweats, and then advises the patient to walk or rice out every day, will be sure to have a corpse on his hands before hong.

My plan is to give my three medicines, in accordance with the printed directions, except in some cases where a freer use of the Mandrake Filis is necessary. My object is to give tone to the stomach—to get up a good appetite. It is atways a good sign when a patient begins to grow hungry. I have hopes of such with a relian for tood and the gratification of that relian for tood and the gratification of that relian comes good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough loosens and abates, the creeping chilis and clammy night-sweats no longer prostrats and annoy, and the patient gets well, provided he avoids taking cold.

Now there are many consumptives who have not the means to go to Florida. The question may be asked, is there no hope for such? Certainly there is. My advise to such is, and come winter, with a temperature of about several manual by means of a barronnestr. Let auch a patient listo his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cared thousands by this system, and can do so again, consumption is as easily cared as any other discesse if it is taken in time, and the proper kind of freatment is pursued. The fact stands undispited on record that Schenck's Pulmonie Syrup, Mandrake Filis, and Scawced Tonic lave cured very many of what a seemed to be hopeless cas a of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pilis are concerned, everybody should keep a supply of them on hand. They set on the liver better than calomel, and leave none of the surface, it you have partially and you may then drake and each by them. They are excellent in all cases where a pursuitation
