FANCY FURS FOR LADIES' AND GENTLEMENS WEAR FOR LADIES' AND GENTLEMEN'S WEAR.
Having enlarged, remodeled and improved my
old and favorably knewn FUREMPORIUM, and
baving imported a very large and splendid assortment of all the different kinds of Fure from
first bands in Europe, and had them made up by
the most skillful workmen, I would vespectfully
invite my friends of Columbia and adjacent counties, to call and examine my very large and beautiful assortment of Fancy Furs, for ladies and
children. I am determined to sell at as low
prices as any other respectable House in the city.
All Furs warranties, No misrepresentations to

THE KIDNEYS.

The Kidneys are two in number, situated he upper part of the loin, surrounded by fat, and consisting of three parts, viz., the Anterior be Interior, and the Exterior,

The anterior absorbs, Interior consists of tistes or voins, which serve as a deposit for the urine and convey it to the exterior. The exterfor is a conductor also, terminating in a single tube, and called the Ureter. The ureters are onnected with the bladder. The bladder is composed of various covering

or tissues, divided into parts, vis.; the Upper the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their carlous functions. If they are neglected, Grave or Dropsy may ensue, The reader must also be made aware, that

our flesh and blood are supported from these

TREATMENT.-Helmbold's highly concentrated ompound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rhenmatism of the kidneys, without any change in quantity, but increase in color,or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digeion, and excites the absorbents into healthy exercise by which the watery or calcareous depsitions, and all unnatural enlargements, as well as pain and inflammation are reduced, and it is taken by men, women, and children.
