BLOOMSBURG, PA. FRIDAY MORNING, APRIL 14, 1871.

San Domingo.

On the first page of the Columbian the reader will find the report of the San Domingo Commissioners and also the message of the President communicating the same to Congress. Both documents are plain and to the point and do not call for special comment.

The subject of the annexation, it is stated, will not be further pressed at present, and unless some unexpected change should occur will be dropped altogether. The old anti-annexationists have become intermixed, on other issues, with both the present parties, and happen just now to be at the head of both. SUMNER, with all the yankee Senators, thoroughly schooled in antiannexation ideas on the Texas issue, of course oppose San Domingo now, and they are a sufficient power in the Radical party to divide it and nullify its strength on the subject in question.

It is singular, nevertheless true, that the leading Democratic dailies of the cities are all in the hands of old Whigs, anti-annexationists of Texas days, Col BIDDLE controls and edits the Philadelphia Age, WM. B. REED the New York World, J. E. HARVEY the Washington Patriot, B. F. MYERS the Harrisburg Putriot, &c.-all old Whigs and of course deeply imbued with anti-annexation These have led the Democracy (ever ready to oppose a Republican administration in any pet project) into an opposition that is antagonistic to the history, instincts and traditions (if not principles) of that great party which has much more than doubled the powe and prosperity, and glory and strength of the Nation by annexations. Right or wrong the facts exist as we state, and through this means and because of bad can.

paternity, the Democratic members of Congress have quite generally been led to oppose San Domingo annexation. These, with the Federal ideas that control so large a portion of the Radical party, are sufficient to kill the project, at least until an instinctive Democrat is elected President.

The documents referred to are worth reading for the information they contain.

Auditor General. We last week copied from the Lan-caster Intelligencer an able article on the subject of the next Democratic nomina tion for Auditor General, which, we observe, is copied and approved by the Democratic papers generally. That article demanded the nomination of a candidate of unspotted character, of ac knowledged integrity and undoubted ability-one who would confer honor upon the office and upon the party that elected him. Such a candidate would

tion have sense and patriotism it will nominate just such a candidate. The fact that at such a time any man would press his own nomination ought to be sufficient to set him aside. Such conduct at once establishes that selfglorification is held by such individual as paramount to party success, and a man who proffers himself in such an emergen cy thereby proves his unworthiness and general unfitness. Let all such be thrown aside, and that man selected who can give greatest strength to the party. There need be no inquiry whether such a man will accept-a proper man nominated under such circum stances will of course not decline.

The Intelligencer well says that such a candidate would add ten thousand votes to the party, and of that fact we
