Capt. COOPER also won distinction in the in behind it. We had one thing of the war as the Commander of "Cooper's greatest importance in our favor-there battery." We are not aware that he was no furnace in the mine, and the air has held civil office. He is very highly was furnished in the pit by a large fan spoken of by those who know him. Any man of good sense and integrity may make a good Surveyor General.

The resolutions, excepting the 9th, embrace the usual platitudes and do not require special comment at this time. We are not of those who have respect for platforms set up by conventions un- gether closely in a stout wall. When less the principles they enunicate have it was completed we knew that it was been previously fully discussed and decided by the people in the selection of delegates. Otherwise they are only the tion by listening to what was going on expressed opinion of the dapper gentlemen who vote for them. These words are peculiarly applicable to the 9th resolution adopted by the Convention. It means, in plain terms, that the Democracy yield acquiescence in the 15th Amendment, and will not in future oppose negro suffrage or the interference in State elections by the Federal government !! This resolution, we mean to say, in no wise binds or compromises the Democratic party, and is only the pretended opinion of 76 gentlemen who happened to be able to find their way into a Democratic Convention as delegates. But the discussion of this platform may well be postponed to some future period, so far as the Democracy are concerned. It seems to afford a very large fund of amusement to the Radical editors and orators, and may effect some good in the way of keeping them in pleasant humor.

Hon. W. A. WALLACE was re-elected Chairman of the State Executive Com- ible and no time be lost in search of mittee. Although he has several times before held the position he has completely failed to show marked ability in it, and we would much rather have seen the honor conferred upon some of the east gangway that we had barricaded active spirits west of the mountains. who would have at least infused the greatest amount of energy into the campaign.

egarding the main points, however, the Convention has done well-has given us good candidates, which is the greatest favor the Democracy asked. The business now is to elect the candidates, and to this end every Democrat for the culpable carelessness that pershould devote all his powers from this mitted friction to cause it. Last winter hour until the election closes on the second Tuesday of October. Let all differences be adjourned until after that where less than 20 men were employed.

The reason of this change of feeling was that so many of us began to feel drowsy which we knew must be the effect of impure right citizen. 3. Resolved, That the action of the nir. I am too weak, but a soon as I recover my strength I will be glad to recall and describe in full detail everything that occurred in the mines." The excuse is that friction caused the fire, but we have seen no excuse offered

for a passing emergency. It is time that the American people open their eyes to the dangerous character of this ten-dency, and that neither a great name nor an object appealing to our sympa-thies should be permitted to disguise it. As for me, I have seen the working of irresponsible power and personal gov-ernment in other countries, and I may assure my constituents that while I am actitizen of this Republic I shall strug-gle to the last gasp against its introduc-tion here," was but the utterance of a well-known and frequently announced Democratic doctrine. Fourth. All vacancies in the said State Executive Committee shall be filled by the Chairman and the remain-ing members of the said Committee. After some struggling, WM. A. WAL LACE, of Clearfield, was elected Chairman of the State Committee, by a vote of 88 to 30 for WM, M. RANDALL, of

Schuylkill. The nominees were then introduced to the Convention, who poke as follows : Capt. Cooper, the nomince for Sur-

veyor General, said that he had always recognized the orders of his superior officer ; and as Gen. McCandless had asked him to speak first he would do bama. the best he could. He was no speech-

maker, and therefore, would content himself with the grateful duty of returning his sincere thanks to the Concention for the honor conferred upon him, and he was now ready to go to

work and achieve a victory at the polls which he had no doubt would be the result in October next.

General McCandless said he joined his omrade, Capt. Cooper, with all his heart in returning his sincere and heartfelt thanks for the honor the Convention had conferred upon them both, by making them the standard bearers of the great Democratic party in this Comnonwealth during the campaign just naugurated-a contest for the supre-

nacy of the great party to which he was proud to belong. It is true that Capt. Cooper and himself had gone through campaigns on quite another field of warfare, where they had poured out their blood like water in defense of the supremacy of the laws and Constitution of their common country, but, even in those trying times, those cam-Cameron's corrupt "ring." paigns were not as important, or so vital to the liberties of the people as the

contest now opened before them, when by Federal encroachments, through a profligate Congress, they were threatenng the very citadel of our liberties. He said : I see before me the repre-

sentatives of at least a quarter of a million of freemen of this State. I see before me an army of white freemen who are advancing to grapple with those living issues that, like principles, are eternal.

It is but a week since I stood in those alls and heard the annunciation, from the lips of my opponent, Dr Stanton, of a charge which was a slauder upor the pure and patriotic men who had perilled everything to defend their country in her hour of need. But such statements need no other refutation than the fact that both his colleague. Captain Cooper, and himself were here against whose characters no tongue of slander dare wag, for their record is spotless in all the relations of citizens or soldiers. He commended the action of Governor Geary in his rebuke to the administration and to the Radical party, when he, the Governor, took ground against the Federal interference of the General Government in the elections of

the peaceful citizens of Philadelphia last Fall, and said that these usurpations had become so glaring that even a time, and let us move on in solid, in-vulnerable, invincible mass to a sure victory upon which the welfare of the inspector a chance to permit the viola-vola contry a deeply depend. JACKSON TOWN

THE last Weekly Gazette and Bulletin gives the particulars of a series of fires, in Williamsport. The first was an old house occupied by two families, known as the Ross property, which was entirely consumed. It belonged to the widow of the late Judge GRIER, and was highly reverenced by her because it was the house in which she was born. The next fire destroyed three buildings on Mulberry street, north of the P. & E. Railroad. One of the buildings was used as a chair factory and a considerable amount of work was lost. The other two were occupied by families, The next and last fire reported was a frame building on Washington street, owned by S. Ulman. The flames, however, were extinguished before much damage was done. Muncy, Williamsport, Jersey Shore and Lock Haven have all suffered more or less by fires during the last ten days .- Muncy Luminary, 30th ult.

THE present executive was the first in the history of the country to furnish the shameless example of accepting gifts or bribes. Prior to his inauguration a \$60,000 house and lot was purchased and donated to him ; and, when he came to make up his cabinet, the principal donator and originator of the "gift enterprise" was nominated for head of the treasury department. Pub-lic patronage has become an article of commerce and is under the manage.

German Independence

The sturdy character of the Teuto has at all times been a subject of interest and to most people of other blood an enigma. Often denounced as stubborn, of all people they are furthest from it. but they are as firm as the very foundations of the universe. Bad government, bad leadership, and bad fortune, well nigh crushed them during the 18th century, but their achievements in the 19th have vindicated them and they are to day the most powerful people on the face of the earth. Their recent triumph over France has no parallel in magnitude and completeness in history. As conquerors their wisdom and moderation has been as perfect in all its parts as it was unexceptionable, irresistible and overwhelming in the field. But German character has had another great trial, in the calm councils of the great Prussian empire, as illustrative of their merits as their achievements in the field. Taking advantage of the great popularity of the Emperor and himself at the close of the war, which they had just closed in such a brilliant blaze of glory, BISMARCK proposed to the Par-liament to confer dictatorial powers upon the Emperor and give him complete control of the National Treasury. The immediate excuse was the condition of the newly captured provinces of Alsace and Lorraine, and the necessity for prompt action to meet any contingency that might arise there. But their liberty and their perfect control of the officers of the realm is the last thing Germans will surrender. With almost unanimity they refused the demand, though BISMARCK threatened resignation, but with equal wisdom and practical good sense they conferred the desired power so far as the provinces in question were concerned. In other words, what is necessary to preserve order and peace they willingly yield to the Emperor, but further than that they will be neither coaxed, flattered, bribed or driven. And such is German Independence of character.

That the Democratic party is opposed to the existing system of federal taxation and finance, ruin-ous as it is in its effects upon the labor-ing, producing, mining, manufacturing interests of the people and the fruitful source of "hard times," personal indebt-edness and individual bankruptey. 8. Resolved, That labor and capital have no just cause of antagonism, that we deprecate strife between these two great forces and earnestly seek to place the laborer and the capitalist on such a platform as will enable both to amica-bly adjust their differences; and we are unalterably opposed to the importation of a servile race for the purpose of de-grading the standard and lowering the position of the laboring men of the na-tion. neglects to perform his duty, deserves to be held as responsible for the lives of the men as though he had deliberately caused the fire. In any case prompt neasures should be taken to enforce the law. If it is not done there will be more such disasters, and they will continue until the law is enforced.

-A Huge Monopoly !

It is stated that under the modes name of the Laurel Run Improvemen Company, the late Legislature chartered

 Resolved, That we recognize the binding obligation of all the provisions of the Constitution of the United States company of most inordinate dimensions and powers, by which the Reading Railroad company obtains control as they now exist, and we deprecate the discussion of issues which have been settled in the manner and by the authoriof 60,000 to 70,000 acres of the most valuable coal lands in Schuylkill, Columsettical in the manner and by the authori-ty constitutionally appointed. 10. Resolved, That we are for a gov-ernment rigorously frugal and simple, applying all the possible saving of the public revenue to the discharge of the National debt and opposed to a multi-plication of officers and salaries, merely to make place for partisans and for in-creasing by every device the public debt. bla and Northumberland counties. As the same company already owns all the railroads traversing these localities with the exception of a single branch, their power over the entire region in future seems to be complete. This is the most calamitous of all the results of the late strike, as its influence will be perpetual. debt.

debt. 11. Resolved, That the continuance by a Republican Congress of the income tax, when the same is at least of doubt-ful constitutionality, and the necessity therefor has long since ceased to exist, power oppressive to the people, and a is an exercise of a gross violation of their rights and interests All individual operators and small companies will be compelled to sell out to this mammoth concern or yield obedience to its wishes, and the Coal market supplied from the region named will be entirely within its control. their rights and interests. We regarded this result as the most

their rights and interests. 12. Recoived, That the present tariff is, in many of its features, oppressive, and should be revised, and that we herewith request our Representatives in Congress, when the tariff shall be the subject of readjustment, to see that the immense products of the State and its industries are properly cared for. 13. Resolved, That the soldiers and sailors of Pennsylvania are entitled to and should receive at the hands of the mational government a prompt recognidangerous feature of the strikes from their first commencement. They were almost sure to compel capital to aggregate and combine and this was their steady tendency. The entire anthracite coal business will soon be controlled by less than half a dozen incorporated

companies, whose general interests will be combined under a single head, and national government a prompt recogni-tion of their claims to a proper and just equalization of the bounties, in land as well as money, granted for their patri-otic services in the late war for the suall opposition then will prove ephemeral, abortive and vain. They will die tate terms to all other operators, deal-

tate terms to all other operators, deal-ers, consumers, miners, and all who are either directly or indirectly interested, and it will be in vain to seek relief by any practicable means. The day may come when public sentiment will become so enlightened in unselfish views that a social revolution will de-mand a return to the Democratic prin-ciple of hostility to corporations and monopolies, and the fostering of indi-vidual enterprise, as of old, but there is no evidence within our vision to in di-cate this desirable result. The tendency of everything is now to combinations, which throw all practical power into the hands of leaders, and the follies and rascalities of these are always likely to increase the evils they deal with—their

solution was adopted. Mr. Cassiday also reported the follow-ing resolution, which was adopted : The committee to whom was referred resolutions providing for the better or-ganization of the party in the State beg-leave to offer the following report and recommend its adoption by the Con-vention: First. The 'conduct of all cam-paigns shall be under the immediate increase the evils they deal with-their follies being the most dangerous el-
