ROHR MCHENRY is not very charitably inclined towards those government officials who persecuted him while he was engaged in distilling and they were busy harrassing people generaily ! Though the officers of the de. partment at Washington forced him to agree not to prosecute his persecutors, he seems determined to hold them up to the more serious punishment of publie odium. Matters now look as though the officers had " waked up the wrong

UNDER the Radical administration of affairs in Texas, the expenses of an election for members of Congress will foot up \$254,120, more money than many an entire Democratic administration has cost the State. The Governor is required, by the Constitution, to or der an election for members of the Legislature, before December. If he does this, it will, at the least calculation, cost as much as the Congressional election, which will be \$508,240 spent in one year for elections.

THE accounts of the Post Office De partment show a deficiencey of \$19,000,-000. No one knows anything about the missing funds. They have "gone where the woodbine twineth," along with the \$2,250,000 of Secretary Boutwell, and the \$3,000,000 of Treasurer Spinner. a strict construction of the 14th and 15th amendments to the constitution of the United States actually conferred the right of suffrage upon women. If so, of course no law of the Legislature or Con-

gress can take away the right, if the validity of the amendments be admitted. We see it stated that the question is to be tested in Philadelphia at this election, some women having applied for registration and who will offer to vote. In this connection we also see it stated that Judge UNDERWOOD, United States district judge for Virginia, has written a letter in which he says he feels very confident that the fourteenth and fifteenth amendments of the United States Constitution, together with the enforcement act of May 31, 1871, have secured the right to vote to female citi-
