Official Returns. We are disappointed in not being able to give the official returns of the State In this issue. It is possible that by next week some Harrisburg editor may wake up and give them to the public. Dr

STANTON's majority is about 15,000. The Radicals will have one majority in the Senate and many more in the House. The County Election.

The official returns of the election, for

this county, as made up by the return judges, appear in another column and verify our statement of last week, made In advance of the official count, that the Democratic majority in this county on that all the candidates upon the Democratic county ticket were elected. The exact majority for McCandless for Auditor General is 1776, or but 24 below 1800, and this fine majority is obtained upon a vote which was necessarily light in the county. In 1868 the total vote polled for Presidential Electors in Coambia county was, 6165, upon which the majority for SEYMOUR Electors was 1869, New, the total vote polled is but 4788, upon which the majority for Mc-CANDLESS should be only 1451 if it bere the same relation to the whole vote that the insjority of 1868 bore to the whole vote of that year. In other words, our present majority runs 325 above the number required by the standard of 1868. Of course it is not possible to se cure a full vote of the people in years when neither a President or Governor are chosen, but in the present instance our increase of party strength is so great that even a light vote but slightly affeets the magnitude of our majority It is evident that upon a full vote, this year, our majority would have exceeded

As to the other majorities for nominees upon the Democratic ticket, they vary greatly in amount. Commencing with a majority of 469 for Mr. LAMON for County Treasurer, we rise to one of 951 for Mr. Buyson for District Attorney, and then successively to one of 1388 for Mr. SHAPPER for County Commissioner, to one of 1495 for Judge DERR for re-election, and lastly, to one of 1865 for Capt. BROCKWAY for Representative. But while these majorities vary very greatly in magnitude they yet show distinctly the fact that a clear majority of the voters of the county have decided that volunteering shall stop in our local elections, or at all events shall not be successful if tried. The value of this decision for the future is vastly above any personal interest involved in this election. For instance, in the great elections of 1872 for President and Vice-President, for Governor of the State and for Members of Congress, our party must not be divided and troubled by local contests but must be thoroughly united and concentrate all its efforts upon the work before it. But this most vital object can only be secured by a distinct understanding by friend and foe that nominations are to be respected, and that opposition to them shall be discouraged and defeated.

It is satisfactory to observe upon the face of the returns that the State ticket was fully and faithfully supported in every district, as was also the Democratic nominee for Representative, and that the opposition in our ranks to the nominees for Associate Judge and trict Attorney. There was no question as to Mr. Ruyson's nomination, and he was quite as competent as his Republican opponent for the duties of the office. He has a respectable majority; it will do as it stands, but it should have been

It was expected (and the result shows the fact) that Mr. LAMON would be cut more than any of the other candidates, and his majority made the lowest upon the list; and in fact if he had not received some independent support from Republicans who knew and esteemed him in Bloomsburg, Scott, Berwick &c., his majority would have been still further reduced and placed at a low figure. In his case the regularity or fairness of his nomination was assailed and we are bound to believe that a large number of Democrats voted against him for that reason, resting under the impression that some wrong had been done to his competitor in the County Convention. It was unfortunate that the case admitted of controversy and was liable to be misunderstood. But in fact the nomination was entirely regular; was made exactly according to the rules, and the votes of the Locust delegates, (which were complained of,) received a strong endorsement from the people of that township at the recent election. To us, the question whether one man or another shall be chosen to a county office is not one of deep interest. We believe it to be the duty of a party newspaper to give all candidates are made, but after they are made to support the ticket against assaults from any quarter, and this duty which we have performed for the regular nominees in the late canvass we would have performed for their rivals if the latter had been placed in nomination. And this duty we shall at all times perform.

It will be seen from the returns that the vote in this county was almost unanimous in favor of a Constitutional Convention. The State ticket mostly used by volunteer candidates or their supporters it seems had not a Convention vote upon it, so that the vote on the Convention question is not full. This arose from inadvertance-was an oversight-and does not indicate hostility to reform. The Convention is carried by a very heavy majority in the

> Luzerne County -- Bribery at Elections. In Luzerne county the whole Demo cratic ticket is elected, except KISNER, for Representative. PARRISH, Radical, had over 1200 majority in the

county for Senator, but, thanks to the sterling honesty of the Democrats of Monroe and Pike, he is defeated in the District by about 1,000 majority. Not only thanks to them for the political advantage maintained by them, but ten thousand times greater thanks for stopping the tide of corruption! Luzern yielded to PARRISH's money, but Monroe and Pike were invulnerable. There ought to be a law to prevent any man from holding an office ob-

tained by the use of money; and bribery penitentiary offence. Stronger guards must be thrown around the ballot-box or instead of obtaining an expression of the will of the people by means of the ballot it will become the direct means of preventing the expression of that will buy so many votes that rightfully belonged to his opponent, and that there were so many voters base enough to sell themselves! The will of the people is by no means expressed in the Senatorial vote in Luzerne, and but for the Pike would have been entirely set at a horn ! naught.

Preparing for Re-election.

President GRANT has declared mar tial law in several counties of South Carolina, and has suspended the writ of habeas corpus therein, because the citizens (It is alleged) refused to give up their private arms, which they deemed necessary to the protection of their familles. The latter deny that there have been any unusual outrages in the counties concerned, or such as the courts could not correct. The declaration of martial law is made upon demand of U. S. Senator Scott, of this State, and not at the request of the people most deeply interested, and is clearly a political dodge. Whenever GRANT makes up his mind that he cannot otherwise be re-elected he will declare martial law throughout the South and in necessary northern localities too.

Suppose the people of Columbia county were required to deliver up their arms within five days, how many would do It?

The Chicago Fire. Nearly one half of the immense city as destroyed—perhaps more than one half its value. Hanging a few specimens put a stop to incendiaries, but the thieves were not so easily quelled; 25 to 50 of the latter were shot, many more were arrested, but still they con tinued their depredations.

Immediate efforts will be made to re build the city on a grander scale than ever. The great generous heart of our people opens to the relief of the suffer ers, and even from Europe the contributions are heavy. In fact with the insurances, the entire loss of Chicago will no doubt be made up, if the contribu tions can be fairly distributed-more than made up.

But who sympathises with the greater sufferers, the country people of the great fire district of the West? Chicago attracts all the attention, while the scattered and isolated sufferers of the plains and small towns are left wholly without aid! This should not be.

Upon the result in the State we may make this remark and then pass on to the legitimate purpose of this paper: That the State ticket was in every way unexceptionable; and its defeat is not perhaps attributable to the fact that a clean majority in the State is against it; but to the fact of a light vote, and mainly to some reasons to be given in the paragraphs following. To them I request attention, for in them the cause of all our trouble lies.

MARKET REPORTS.

TRUST WHAT TIME HAS SANCTIONED.-The maxim that the voice of the people is the voice of the divinity, may in some cases, be open to doubt, but the testimony of honest and enlight-ened witnesses extending through a series of ened witnesses extending through a series of years, and an to the same purport, is worthy of credence, admits of no question. Upon such testimony the reputation of Hostetter's Stomach Bitters as an antidote and cure for many aliments is based. Turing the twenty years that it has been before the world, innumerable preparations intended to compete with it, have gone up like rockets, and come down the extinguished steles. Meanwhile the progress of that incomparable tonic has been switt and steady—always upward and onward like the eagle's flight. Its introduction produced a revolution in therapeuties, and it proved to be one of those salutary revolutions that cannot go backwards. To-day Hostetter's at cannot go backwards.
