A Remarkable History.

HOW AN INVENTOR STRUGGLED AND WON.

In the *Scientific American* we find a story of the struggles and triumphs of an inventor which is worth preservation. The substance of it is as follows:

In 1858 Mr. Thomas Sheehan, of Dunkirk, New York, foreman in the blacksmith department of the Erie railway shops at that place, patented a submarine grapple, which, though an ingenious invention, proved to be one for which there was little demand. This was his first invention, and the cost of its completion, together with one year's struggle to manufacture and introduce it, completely exhausted Mr. Sheehan's means, and reduced him to the extremest poverty. He was, in fact, in pretty nearly the same condition as Palissy, the potter, at the moment of his greatest distress. A wife and eight children in Sheehan's family were reduced to the verge of destitution, and Mrs. Sheehan became uncommonly bitter.

Just at this crisis, Mr. S. D. Colwell, General Freight Agent of the Erie railroad, at Dunkirk, chanced to meet Mr. Sheehan in the streets of that town and accosted him, with—

"Well, Thomas, how are the grapples? I hear they have used you up."

"Yes," was the answer, "the grapples have done my business; I wish I had never seen them."

"Throw 'em away," advised Mr. Colwell. "Have you any now finished?"

"I have one almost done," said Thomas.

"Finish that; I will pay you $10 for it, and have it used for picking up coal at the dock. The money will help you in your present emergency, and you can go back to your old place in the shop and earn a good living for your family."

"I will," said Thomas.

Back to his humble home went the inventor, with new hope in his breast, and set himself to finish the grapple with all due speed. But, upon what slender threads do the fortunes of men depend! A tap, the only one our inventor had of the size required suddenly snapped asunder, and, as it was essential to the progress of the work, he must have a new one or he could not go on.

In his straight, he applied to his wife to lend him twenty-five cents to buy the necessary steel to forge the tap. But she having no faith in the grapple, refused, for two very good reasons—first, that she believed the money would be thrown away if she gave it to her husband; and second, that she had not the money to give him, even if so disposed. The refusal was seasoned with some very hot spice that made it very unpalatable to Thomas. But he bethought him of a merchant who, in brighter days had seen the color of his money, and who, perhaps, would now give him credit for the small modicum of steel he required for the tap.

To this merchant to prefer his request he began beating about the bush; and finally straying into politics, hot words passed between them, and our friend, feeling his manliness would suffer too keenly by asking credit for the steel, came away without it.

With no definite purpose he went home, pondering upon how he should surmount this, now no trifling obstacle, and came away without it.

He found his wife making lye for soft soap, but her acidity in no way neutralized by the alkaline reaction. Despondent and discouraged, he sat down, in no very enviable mood, when he chanced to spy a piece of iron laying near the tubs at which his spouse was working. Meditating upon how he could make that piece of iron hard enough for a tap, led him to a rather rude experiment, the results of which have in the end made him a richer man than he ever dreamed of being.

It so happened that from a distant relative, a Roman Catholic priest in Ireland, our friend had inherited quite a library of works on chemistry—some of them rare and valuable. He had read some of these books to a very good purpose. "There is surely carbon in that lye," thought he. "If I only could get that into this iron in the proper proportion, I should have steel, and from that my tap, and so finish my grapple."

With little hope or faith that he should succeed, he took some of the lye, and adding, without any particular reason for so doing, some saltpetre and common salt, made a paste with this solution and a hard grudged saucerful of the little remaining flour there was in the house. He then forged the tap, and enveloped it in the paste, put the whole into a luted iron-box and exposed it to heat for two hours in blacksmith's fire. To his joy and surprise when he took it out, it was hard enough to cut cast steel. The grapple was finished, and forty dollars flowed into the family treasury of Thomas Sheehan. He went back to his old work disgusted with patents, and resolved never to have anything to do with one again. But the remembrance of the tap, hardened in so unique a manner, still haunted him. Having a great deal of case hardening to do, he thought one day he would repeat the experiment, upon a large scale, which he did with perfect success.

For twelve months he went on to experiment, purchasing the materials with his own money, and worked in secret by night and at odd hours. At the end of twelve months he reconsidered his sentence of condemnation on patents, and applied for one on his process which was granted September 4, 1860, the claim being for a combination of damaged flour, potash lye, or lye from hard wood-ashes, nitre, common salt, and sulphate of zinc, for case-hardening iron. In 1867 he patented an improvement on the above-named process. In 1868 he took out another patent on an entirely new process, which consists in the use of raw limestone, charcoal, black oxide of manganese, sal soda, common salt and pulverized rosin combined, for converting iron into steel, which is now widely used, and from which he has reaped quite a fortune.

No less than twenty-three of the leading railways in America now use this process, under license from the patentee, for hardening the links, guides, pins, and nuts of locomotives, effecting, we are told, no less a saving than from five to six hundred dollars annually on each locomotive, in obviating the lost motion consequent upon the wear of links, guides and pins.

The inventor has already received for licenses under his patent of 1868 $29,650, and has just sold the remainder of his patent in America for $45,000

HOOFLAND'S GERMAN BITTERS.

A Bitters without Alcohol or Spirits of any kind,

Is different from all others. It is composed of the pure Juices, or *Vital Principle of Roots, Herbs,* and *Barks,* (or as medicinally termed Extracts,) the worthless or inert portions of the ingredients not being used. Therefore in one Bottle of this Bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures. The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist, and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot under any circumstances, have any but a beneficial effect.

HOOFLAND'S GERMAN TONIC,

Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing in the medicinal virtues of the Bitters. The price of the Tonic is $1.50 per Bottle which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain none but the best ingredients; and they who expect to obtain a cheap compound, and be benefited by it will most certainly be cheated.

The whole SUPREME COURT of Pennsylvania
SPEAK FOR THESE REMEDIES,
Who would ask for more Dignified and Stronger Testimony?

Hon. GEORGE W. WOODWARD, *former Chief Justice of the Supreme Court of Pennsylvania, a present Member of Congress from Pennsylvania writes:*

PHILADELPHIA, March 16th, 1867.

I find "Hoofland's German Bitters" is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility and want of action in the system. Yours truly
GEORGE W. WOODWARD.

Hon. JAMES THOMSON, *Chief Justice of the Supreme Court of Pennsylvania.*

PHILADELPHIA, April 28, 1867.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMSON.

Hon. GEORGE SHARSWOOD, *Justice of the Supreme Court of Pennsylvania.*

PHILADELPHIA, June 1, 1865.

I have found by experience that "Hoofland's German Bitters" is a very good tonic, relieving dyspeptic symptoms almost directly.
GEORGE SHARSWOOD.

Hon. Wm. F. Rogers, *Mayor of the City of Buffalo, N. Y.* Mayor's Office, Buffalo, June 22, 1869.

I have used "Hoofland's German Bitters and Tonic" in my family during the past year, and can recommend them as an excellent tonic, imparting tone and vigor to the system. Their use has been productive of decidedly beneficial effects. WM. F. ROGERS.

Hon. James M. Wood, *Ex-Mayor of Williamsport Pa.*

I take great pleasure in recommending "Hoofland's German Tonic" to any one who may be afflicted with Dyspepsia. I had the Dyspepsia so badly it was impossible to keep my food in my stomach, and I became so weak as not to be able to walk half a mile. Two bottles of Tonic effected a perfect cure. JAMES M. WOOD.

DR. HOOFLAND'S
PODOPHYLLIN,
OR
SUBSTITUTE FOR MERCURY PILLS.
TWO PILLS A DOSE.
The most Powerful, Yet Innocent, Vegetable Cathartic known.

It is not necessary to take a handfull of these Pills to produce the desired effect; two of them act quickly and powerfully, cleansing the Liver, Stomach and Bowels of all impurities. The principle ingredient is Podophyllin, or the Alcoholic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, clearing it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They NEVER FAIL.

In cases of Liver Complaint, Dyspepsia and extreme costiveness, Dr. Hoofland's German Bitters or Tonic should be used in connection with the Pills. The tonic effect of the Bitters or Tonic builds up the system. The Bitters or Tonic purifies the Blood, strengthens the Nerves, REGULATES the Liver, and gives strength, energy and vigor.

Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain the hold, or even assail you.

Recollect that it is DR. HOOFLAND'S GERMAN Remedies that are so universally used and highly recommended; and do not allow the Druggist to induce you to take anything that he may say is just as good, because he makes a larger profit on it.

These Remedies will be sent by express to any locality, upon application to the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, 631 Arch St., Philadelphia.
