WE are informed that the engineers of a proposed railroad laid out the route of the track on the ice of the river. It this, would probably make a fine winter road but would prove a trifle dam p for summer travel.

PLYMOUTH appears to be suffering from rowdyism if we are to judge from the plaintive prayers for police put forth by local papers. Saturday nights are the seasons especially mentioned as abounding in disorderly practices.

THE"ground hog" still abides in his hole. The six weeks of promised winter have stretched out to over two of spring have not come.

THERE may be some among us who will be pleased to hear that the tariff bill now before Congress will admit, free of duty, hologna sausage, which now pays a duty of 30 per cent. Whether this will affect the price of the domestic article we cannot say.

Dogs, cattle and hogs have fallen victims to the disease, and in many places all kinds of live stock are kept penned. One mad dog can in an hour's time cause the loss of hundreds of dollars. WE have, very naturally, always been opposed to the borrowing of newspa pers, thinking every one should have his own, but the most convincing argu ment against the practice which we have heard as yet, is that of a Scheneetady man, who had small-pox in his wonths.
