Agricultural.

CARROF POULTRY .- Animals of all kinds, not properly eared for, give poor returns. No stock on the farm would furnish a comfortable hennery, the following story: which their manure would in a short time amply repay, if properly applied water over night, sufficient to last them half or two-thirds the day. In freezing weather, I pour boiling water on the feed half an hour before feeding. I am satisfied wheat screenings should always and fed. This destroys the poisonous dust and smut that always accompany screenings. No feed for fowls is equal to wheat screenings. I give my fowls the offal from the kitchen, clean water, butcher's scraps three times a week, and they are free from disease. Forty pullets, and thirty henseighteen months old, have laid 586 eggs in January past. I get usually, during the year, and for several years past, an average, of 7,000 eggs from this number of fowls. I scatter ashes two or three times a week under the roosts and over the hennery, and have never had a lousy fowl. At sundown I gather the eggs. This process gives very little trouble. In addition, I break up, quite fine, clamshells, and occasionally throw a small quantity of quicklime in the water they drink. I keep the pure-blood Light Brahma, and no other.

Plaster on Potatoes.

Mr. A D. Compton, of Hawley, Pennsylvania, in his essay on the cultivation of the potato, which received the \$100 prizeawarded by Mr. Wells,of the American Agriculturist, Mr. Fuller, of Hearth and Home, and Dr. Hexamer, speaks as follows of the beneficial effects of plaster: Astonishing results are obtained from plaster, by dusting the vines with it as soon as they are through the soil; again immediately after the last plowing and hoeing; and at intervals through the whole growing season.
The first application may be light,
the second heavier, and after that more bountiful, say two hundred pounds to the acre. The action of plaster is not easily explained, but the results are undoubtedly beneficial, particularly in seasons of extreme drought. It renders plants less palatable to insects, and appears to be fatal to many of the fungi pears to be fatal to many of the fungi family. The vines retain a bright, live-ly green color, and the tubers continue swelling until growth is stopped by the frost; besides, potatoes thus grown are so sound and free from disease as to be easily kept for the Spring market, without loss by rot. Mr. Compton has seen a leld, all planted with the same variety, at the same time, on one-half of which, that had received no plaster, the yield was but 60 bushels per acre and many rotten; while the other half, to which plaster had been applied in the manner above described, yielded 360 bushels per arce, and not an unsound one among

Liquid Excrement.

How strangely we overlook the value of the liquid excrement of our animals! boy came to him at all his leisure hours, A cow, under ordinary feeding, fur- and learned so rapidly that the schoolnishes in a year 20,000 pounds of solid master recommended him to a nobleexcrement, and about 8,000 pounds of man who resided in the neighborhood. liquid. The comparative money value This gentleman, who was as noble in of the two is but slightly in favor of the his mind as in birth, patrouized the solid. The statement has been verified poor boy, and sent him to school at as truth, over and over again. The urine Ratisbon. The boy profited by his opof herbivorous animals holds nearly all portunities; and when he rose, as he the secretions of the body which are soon did, to wealth and honors, he capable of producing the rich nitrogen. adopted two fieldfares as his arms. ous compounds so essential as forcing or leaf forming agents in the growth of bishop's friend. plants. The solid holds the phosphoric acid, the lime and magnesia which go to the seeds principally ; but the liquid. holding nitrogen, potash and soda, is needed in forming the talk and leaves. The two forms of plant nutriment should saves all the urine of his animals, doub-Good seasoned peat is of immense ser-

Cucumber Bug.

A correspondent of the Maryland Farmers says; The following effectually protected my melon, squash, cucumber and other vines from "striped or cucuraber bugs" the past season, with only one application, viz: a strong solution of hen-house manure to one and a half gallons of water; let it stand twenty four hours and sprinkle the plants freely with it after sunset. The above was suggested to me by a negro woman living on my place, who had some practical experience in gardening, and says she has used it for years and has never known the first application to fail to drive them off and they never re-

When Should Pigs Be Wenned.

The Field and Factory gives the following answer to the above question; "Eight weeks old is the best age. Seven weeks will do. They should become accustomed to food such as is ordinarily given to hogs before weaning, and then there will be no need of any loss in growth from the loss of the mother's milk. If they are at all inclined to scour, one of the best preventives is an occasional day's feed of whole corn, or a few kernels with their other food each day. They should have all they will eat, and the growth will generally pay at least fifty per cent. over and above

THE maple sugar season is said to have been a bad one in the Northwest, employed in Birmingham, England, in opening late and being very windy.

Young Folks.

The Story of A Coat of Arms,

A worthy bishop, who died at Ratispays better, in proportion to its vatue, bon, had for his arms two fieldfares, than poultry; yet in nineteen cases out of twenty, no provision whatever is sold for a farthing?" This strange made for the comfort or convenience of this kind of stock. Forced to seek shelland many persons had wished to know ter in some forsaken corner of an old its origin, as it was generally reported and dilapidated barn, or the remains of that the bishop had chosen it for hima hog pen, and to live as best they may, self, and that it bore reference to some on what they can pick up, they are congreat event in his early life. One day demued as unprofitable; an expense an intimate friend asked him its mean-to the farm. A very triffing outlay ing, and the bishop replied by relating

Fifty or sixty years ago, a little boy resided at a little village near Dillento corn or any kind of vegetables. A gen, on the banks of the Danube. His bennery of inch matched boards, floor of coal or wood ashes, six inches deep, soon as he could walk he was sent into properly lighted and ventilated, in a the woods to pick up sticks for fuel. dry location, and there remains but When he grew older, his father taught little care to produce profitable returns. him to pick the juniper berries, and My practice is, and has been for several years, to have a box of corn accessible who wanted them for making hollands. at all times, so made that the grain falls Day by day the poor boy went to his into a small trough as eaten, and cannot task, and on his road, he passed by the be fouled. In the morning I give wheat open windows of the village school, open windows of the village school, where he saw the school master teaching a number of boys about the same age as himself. He looked at these boys with feelings almost of envy, so carnestly did he long to be among them. He knew it was in vain to ask his fither to send him to school, for he knew that his parents had no money to pay the school-master; and he often passed the whole day thinking, while he was gathering his juniper berries, screenings, which have been soaked in where he saw the school master teachbe wet, and after standing to allow the his fither to send him to school, for he grain to swell, the water poured off knew that his parents had no money he was gathering his juniper berries, what he could possibly do to please the school-master, in the hope of getting some lessons. One day, when he was walking sadly along, he saw two of the boys belonging to the school trying to set a bird-trap, and he asked one what it was for. The boy told him that the school-master was very fond of field-fares, and that they were setting the trap to catch some. This delighted the poor boy, for herecollected that he had often seen a great number of these birds in the juniper wood, where they came to contain the port of the series and no doubt but the could be precise, and no doubt but the school trying and no doubt but the school trying to set the hearies and no doubt but the school trying to see the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the series and no doubt but the school trying to the school trying to the series and the school trying to the to eat the berries, and no doubt but he could catch some.

The next day the little boy borrowed an old basket of his mother, and when he went to the wood he had the good HOOFLAND'S GERMAN TONIC, luck to catch two fieldfares. He put them in the basket, and, tying an old handkerchief over it, he took them to the school-master's house. Just as he arrived at the door, he saw the two little boys who had been seen setting the trap, and with some alarm he asked them if the had caught any birds. They answered in the negative; and the boy, answered in the negative; and the boy, his heart beating with joy, gained admittance into the school-master's presence. In a few words he told how he had seen the boys setting the trap, and how he had caught the birds, to bring them as a present to the master.

"A present, my good boy!" cried the school-master; "you do not look as if you could afford to make presents. Tell me your price, and I will pay it to you, and thank you besides."

"I would rather give them to you, sir, if you please," said the boy. as he stood before him, with bare head Court of Pennsylvania. legs. "You are a very singular boy," said he; "but if you will not take money you must tell me what I can do for you; as I cannot accept your present without doing something for it in return. Is there anything I can do for

"Oh yes!" said the boy, trembling with delight; "you can do for me what I should like better than anything olyo !!

"What is that?" asked the school-

maste, smiling." "Teach me to read," cried the boy, falling on his knees; "oh, dear, kind sir,

teach me to read." "The school-master complied. The

"What do you mean?" cried the "I mean," returned the bishop, with

Organs, Or suffering with any of the following Symptoms, which indicate Disordered Liver or Stemach,

Bitters without Alcohol or Spirits of any kind

HOOFLAND'S GERMAN TONIC,

HOOFLAND'S GERMAN BITTERS,

HOOFLAND'S PODOPHYLLIN PILL, WILL CURE YOU.

They are the Greatest BLOOD PURIFIERS

SPEAK FOR THESE REMEDIES. Who would ask for more Dignified and Stronger

Testimony? Hon, GEORGE W. WOODWARD, former Chief Justice of the Supreme Court of Pennsylvania, a present Member of Congress from Pennsylvania PHILADELPHIA, March 16th, 1867. I find "Hoofland's German Bitters" is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility and want of action in the system. Yours truly GEORGE W. WOODWARD.

The school-master looked at the boy Hon. JAMES THOMSON, Chief Justice of the Suprem

Hon, George Sharswood, Justice of the Suprem

PHILADELPHIA, June 1, 1868, I have found by experience that "Hoofland's German Bitters" is a very good tonic, relieving dyspeptic symptoms almost directly. George Sharswood,

Hon. Wm. F. Rogers, Mayor of the City of Buffulo. N. Y. Mayor's Office, Buffalo, June 22, 1869. I have used "Hoofiands German Bitters and Tonic" in my family during the past year, and can recommend them as an excellent tonic, im-parting tone and vigor to the system. Their use has been productive of decidedly beneficial effects. WM. F. ROOMS.

Hon, James M. Wood, Ex-Mayor of Williamspor

I take great pleasure in recommending "Hoof-land's German Tonic" to any one who may be afflicted with Dyspepsia. I had the Dyspepsia so badly it was impossible to keep my food in my stomach, and I became so weak as not to be able towalk half a mile. Two bottles of Tonic effected a perfect cure.

REMEMBER THAT

FLAND'S GERMAN BITTERS, AND LAND'S GERMAN TONIC Will Cure every case of MARASMUS, Or Wasting away of the Body.

THAT MOOFLAND'S GERMAN REMEDIES Are the medicines you require to purify the flood, excite the torpid Liver to healthy action, and to enable you to pass safely through any ardships or exposure.

REMEMBER

DR. HOOFLAND'S PODOPHYLLIN,

SUBSTITUTE FOR MERCURY PILLS. TWO PILLS A DOSE. The most Powerful, Yet Innocent,

Vegetable Cathartic known.

It is not necessary to take a handfull of these Phils to produce the desired effect; two of them act quickly and powerfully, eleansing the Liver, Stomach and Bowels of all impurities. The principle higrediont is Podophyllin, or the Alcoholic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, cleaning it speculiar action is upon the Liver, cleaning it speculiar action in upon the lajurious results attached to the use of that mineral.

For all discusse in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They NEVER FAIL.

In cases of Liver Complaint, Dyspepsia and extrems costiveness, Dr. Hoodand's German litters or Tonic should be used in connection with the Pills. The tonic effect of the litters or Tonic builds up the system. The litters or Tonic purifies the Blood, strengthens the Nerves, REGUATES the Liver, and gives strength, energy and vigor.

and vigor.

Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain the Pyld, or even assail you.

Recollect that it is DR. AtOPLAND'S GER-MAN Remodies that are so universally used and highly recommended; and do not allow the Dringsist to limite you to take anything that he may say is had se good, because he makes a larger profit on it.

These Remedies will be sent by express to any locality, upon application to the PRINGI PAL OFFICE, at the GERMAN MEDICINE STORE, 631 Arch St., Philadelphia.

BALTIMORE PIANOS.

We respectfully call the attention of those desiring to purchase our make of Pinnos. We are satisfied that we can give satisfaction in every case. Our workmen skillful and experienced and are under the personal superintendence of the members of our firm. We use only the best seasoned timber; and the material in general is first class. Our Pianos without exception have the patent agrafice arrangement throughout, which in the opinion of the most competent judges is pronunced valuable. By this improvement a Piano is made more durable and keeps the tore longer. We claim for our instruments that they are second to none, and they combine all the essential clements that constitute superior workmanship. We will give a written guarantee for five years.

Mr. Oenead Freiman, member of our firm, will visit Bioomsburg four times a year to repair and attend to tuning of all Pianos, in the abance of Mr. Freimans, Mr. I. K. Miller will attend to our business in Bioomsburg and is authorized to receive and solieit orders.

We can give the very best references.
