HELP YOUR TOWN .- The way to make a town is to help as much as possible every branch of industry in our midst. Judiciously aid every enterprise that promises to add strength and character to the place. If your neighbor builds a house, help him to pay for it. It is your duty. If you are a property holder every new house strengthens you, and it is but right to reciprocate. ahead. Consider what is best for you in the long run. Don't be so jealous. If you can draw advantage from an enterprise forwarded by an enemy, support it, even if it does enrich him. What you want is a start for yourself. You don't want to keep yourself poor all your days upon the score that to help yourself is to help your neighbor. Every community is a partnership in which we all have stock, and we are only entitled to our share of the profits.

EDITOR COLUMBIAN :- There is pro bably no one place in which a just idea severely handled. We are informed of the condition of the political sentiment of a county can be ascertained of the different qualities have, in all parties since a former visit of a circus more readily and more accurately than the county seat. Here are to be found origin of the disturbance are so conflict- the well informed, most shrewd and observant politicians and those best qualified to judge of the popular feeling. From information obtained from certain of such men it would appear that there is no division in the ranks of the Democracy either as regards the State or National tickets. There are, as is to be expected, some who yet feel sore over the nominations of the Baltimore Convention, but no considerable num ber of these exists, nor is there any or ganized opposition. To the State ticke there are no objections offered. It is Don't hide a dollar with a penny. Look impossible to estimate with any degree of correctness the Liberal Republicans who will oppose the Grant wing of their party. But those who are open in their expressions are equally opposed to both State and National tickets and will support Buckale w and Greeley. There is little doubt that the Republican majority will be greatly decreased, but the various estimates differ too greatly to justify any definite statement. It is placed by some intelligent men at 1,500 and by others at 2,500. The former number would seem to be most too small. The probable Republican nomince for Congress is Bartley Laparie although there is a chance that the candidate may be given to Montour county. the small vote of the latter county being the objection to so doing. Strong efforts will be made by the friends of Judge Mercur to save him in the county even at the expense of the minor nominees There will undoubtedly be a lively time in this respect, as neither Mercur nor his friends are squeamish as regards the means by which they ac complish their ends.
