LOCAL.

A VERY considerable portion of the grain in Eastern Pennsylvania is so poor that it will not be worth cutting.

Burned peach leaves are said to be an excellent application for wounds. In cases where lock-jaw was apprehended it was cured, as if by magic.

The infant class of St. Paul's Episcopal Church, had a Festival Friday and Saturday evenings of last week. The net profits amounted to about \$60.

F. B. Wiegert, for many years pastor of the First National Bank of Ashland, Pa. died on Monday night. His funeral took place at Potsville Thursday.

It is considered a curious fact that while the strike has occurred almost everywhere else this summer, no case has yet been reported from a base ball field.

A correspondent of the Harrisburg Patriot states that Alex. B. Tate, son of Col. Level L. Tate was arrested four times during the recent riots in Williamsport, "twice for hallooing 'ten hours'."

The first examination of teachers under the new superintendent took place at the Old Academy on Saturday last. There were many townspeople present and the examinations were creditable to the teachers.

In Athens, Pa., there is a dog ordinance which requires for the safety of the life of the animal that it be securely tied. One man lives up to the law, by stapping his ear to eight hundred feet of rope.

Lamp chimneys are apt to break if fitted tightly into the socket. This allows no room for expansion when they are heated. A loose fit, when cold, should always be preferred; after the lamp is lit the chimney will be found to expand sufficiently to fill the socket.

KILLED.—DAVID R. CLEVER, formerly of Bloomsburg, was killed on the P. & E. R. R. He was about 30 years old. His remains were interred at Reno, where he had a wife and three children residing. —*Williamsport Sun.*

A number of young gentlemen of this town went on Saturday last to Berwick to play base ball with the Club of that place. The usual success which attends Bloom players deserted the day, though it is fair to say that some of the party were perfectly new to the field, and that the Berwick Club has a less able and experienced players.

A meeting of the Columbia County Agricultural Society was held on Saturday last at the office of C. G. Barkley Esq. The Premium List was agreed upon, very similar to that of last year, diplomas being substituted for premiums in the case of certain patent right machines.

The idea is prevalent that the law of last winter preventing the sale of liquor on election days, applied to delegate elections. This is not correct. It only applies to general, special and township elections.

"CHECK," vulgarly so called, is undoubtedly a good thing to have in a reasonable amount and pays its proprietor handsomely. We met an individual on the street a few mornings since who had gone to market without any money, made his purchases on tick, and then borrowed a pound to carry them home, which we thought was good for one so young as he.

A good, convenient, and very effective remedy for the stings of wasps, bees, etc., simply to hold a hollow key, over the place stung, press it hard into the flesh for a minute or so, and when the key is removed the pain will be on the side of the flesh and do no harm. A thumb with a tight top will do, but not quite as well.

The Court House grounds have been put in order, grass mowed, weeds removed, pavements cleaned and really looking very neatly. A little care exercised by persons passing in and out in the matter of closing the gates will keep out wandering cows and thus ensure the good condition of the grounds.

Work is still progressing on the new Hotel but the advance is not so readily seen by the casual observer as when the walls were lower. The completion of this building is earnestly desired by those lovers of our town, who wish to see the unsightly ruins which so long were an eyesore, replaced by a structure which will prove alike an ornament and a convenience.

It is said that there is no tree, native to this climate, better adapted for shade or ornament than the sugar maple. Its form is that of a rounded cone of beautiful proportions, and its foliage is full and dense. In view of the fact that so many shade trees are destroyed by the ravages of insects, it would be well in planting shade trees, to select the sugar maple which is hardy and remarkably clean and free from insects.

A WEEK from Saturday the delegate elections occur, and as we desire each voter to act intelligently, we reproduce the rules governing our elections. Under the new rule, voters may give their ballots directly for the candidates, and they will receive representation in the convention in proportion to their strength. Cumulative voting applies only to the delegates, and the simplest plan is to agree upon the delegates, and then vote directly for the candidates. Blank tickets, lists of voters and returns will be furnished each district.

AMERICAN people are taking stock in a Gas Works, which is soon to be built in that borough. —*Schenectady Herald.*

How long will it be before the "infinite" burg will be agitated by another scheme? This is a question which our young readers are warned not to attempt answers to it.

On Tuesday July 23rd as James Seward was driving a three horse team from Long Pond over the mountain, the leader broke loose and started the other two horses, throwing Mr. Seward violently to the ground, bruising him severely. The horses in their frantic plunging over a steep bank from the wagon, threw the wagon overboard and scratched and the wagon damaged.

THIRD STREET is in a delightful state of confusion both as regards the roadway and the sidewalks. Near the old Academy the street is plowed up in preparation for winter crops and the ear of one venturesome resident who proposes to sow something or other—turnips we believe—in front of his house in the hope of getting a crop before the Commissioner of Highways gets matters in order.

A TEMPERANCE FEA FOP. The office of postmaster at Orangeville is not without much of the question has set the whole town by the ears. The mass of the Republicans desired to have in one place, but our ancient friend Samuel Achenbach having the ear of Congressman Mercer carried his man. The vote in Orange this fall will demonstrate whether Achenbach turns the party there or not.

THE warning that is repeated every summer by papers throughout the country in reference to bathing, is now in order. Persons should not plunge into the water while in a perspiration or heat. There is nothing more dangerous than this during the heated season. Care and judgment will prevent bad results. The body should be allowed to cool to a certain extent before bathing, and the stay in the water should not be prolonged beyond a reasonable time.

The Carlisle Volunteer says: "We have been informed by individuals who reside in the center of the county, that never seen such large snakes, and so many of them, as those which abound in their respective neighborhoods the present year."

We would like to know, in view of the above statement, whether there has been an increased consumption of whiskey in that neighborhood of late, or whether the "snakes" are bona fide reptiles.

Our creators live in some of our neighboring towns, as witness the following which we presume is authentic:

A Williamsport paper of recent date has the following: "Last Sunday evening, in a church in Market Street, there sat last in front of the pulpit a young lady and gentleman who made themselves ridiculous and annoyed the congregation by affectionate demonstrations which would have been more appropriate in a half-lighted private parlor."

The crop of oats in Columbia county will exceed that of any year for the past ten and corn bids fair to do well. Farmers speak with delighted fervor of both crops. Wheat has turned out badly and in many places is barely worth the cutting. The fruit yield will be very large, the peach and apple trees being fairly loaded with fine looking fruit from buds and worms. Taking all things into consideration the year 1872 cannot be found fault with by the majority of our farmers.

For several weeks past owing to necessary repairs to the boiler of our engine, we have been compelled to run off our large edition by hand, a long and tiresome piece of work at any time, but especially so during this season. The failure of our subscribers at times to get their papers on the proper day must be attributed to this fact. We are very happy indeed to state that the boiler is at length in order and we trust that there may be no more irregularities in putting the COLUMBIAN into the hands of subscribers.

The Boston Times says: "We admit that the people have committed the impropriety—one of the greatest of his life—of wearing a white hat, and are not even prepared to deny his guilt as to the white coat, but they paid for them. We think no one will charge him with having obtained them by fraud or received them as gifts in intimate connection with the distribution of the people's offices."

It seems to us that our town has this year been visited by fever had organ grinders and patent medicine men than usual and that there is a vast increase perceptible in the number of flies. This is odd. Can it be that Providence, which "tempers the wind to the shorn lamb," refrains from visiting us with more than we can bear and abates one kind of nuisance in presence of another. It is not for us to question the wisdom of him who would remark that if a choice be allowed us, we should prefer the perpetually musician and the purveyor of worthless nostrums to the most irritating and ever present insectivorous annoyance. The only comfort we get out of the present state of affairs is a firm belief in the statement that no cholera can exist where there is a multitude of flies. There are enough in Bloomsburg to kill a city-full of cholera.

ASHLAND is the only district in this section of the country that complies with the law that requires each school district to publish annually a report of its financial condition. The large sum of money yearly collected from our taxpayers, and expended for school purposes, makes it an item claiming the attention of every taxpayer as well as of every citizen. The school moneys are required for school purposes and that they are judiciously expended, and that the character of our schools correspond in some degree to the amount yearly expended for their support, are objects of interest to every one. We hope to see all the districts in the county complying with the law. The State Superintendent of Common Schools says that the section of the law which requires the publication is as obligatory upon the Board of Directors as it is upon the section requiring them to keep open schools, and a neglect to perform this duty according to law will subject Directors to removal by the courts, the same as neglect of any other duty required by law.

ALL over the country, newspapers are anxious to preserve the lives of their advertisers and subscribers, are offering suggestions as to what shall be eaten and drunk and whereof their people shall be clothed this trying season of the year. One of them says no man can at any time expect to enjoy good health unless he pays some attention to the necessities of his system, and takes care not to abuse his stomach by immoderate eating and drinking. In the place the "refreshment" from alcoholic drinks is all imagination, and however agreeable a julep or cocktail may be considered by those mistaken people who will indulge, its effect is exactly opposite to what is desired. Eating to excess is just as bad. To eat to repletion or drink to excess in extreme hot weather is equivalent in many cases to suicide. In any case it induces discomfort if not illness. Let it be remembered that long process in eating and drinking is the only condition under which health may be expected during hot weather.

THE Williamsport Standard in a long article entitled "Mr. Buckalew's Blunders" enumerates certain persons conspicuous as such, and thus pays his respects to that renowned old fellow, P. M. which is postmaster.

The conduct of the Bloomsburg Postmaster may need some further explanation. A sort of half-bred Methodist preacher, it might be supposed he would be all that is reprehensible and especially indecent. His malignity towards Mr. Buckalew was put in action by the fact that other than gentleman some of his friends (some persons) convicted him of participation in a riot—a cowardly and atrocious riot. In revenge, he would like as the viper bite if he could, and the ability he has for that, he aims as the lizard sting, and scatters his filth so recklessly that it is almost impossible to avoid it. His conduct, however, is not reprehensible, and his malignity towards Mr. Buckalew, is not reprehensible, and his malignity towards Mr. Buckalew, is not reprehensible.

Rules of Nomination.
As adopted by the Convention, Dec. 25, 1870.

THE annual County Convention shall be held at the Court House in Bloomsburg, on the second Tuesday of August, at 10 o'clock, a. m., and shall be held at the places of holding the general elections in the several districts, at 10 o'clock, a. m., on the third and seventh of October in the afternoon.

II. The representation of districts in County Convention shall be in proportion to the Democratic vote of each as cast at the most recent election for Governor, but the whole number of delegates shall not exceed seventy for less than fifty-four, and no district shall be allowed less than two nor more than four delegates.

III. Until the next election for Governor delegates shall be allowed to districts upon a ratio of sixty voters for each delegate, and for the largest fractions of a ratio.

IV. The Standing Committee shall whenever necessary make up a report of the district to the annual convention. The Standing Committee shall whenever necessary make up a report of the district to the annual convention. The Standing Committee shall whenever necessary make up a report of the district to the annual convention.

V. Voters at Delegate elections may give their votes for one or more candidates than the whole number to be elected, in the manner provided in the fourth section of the Bloomsburg act of March, 1870.

VI. The delegate elections shall be by ballot and shall be held and conducted by a Judge and clerk, to be selected by the voters of the district, and the said officers shall keep a list of voters and tally of votes counted, to be kept in the hands of the clerk, and the certificate of the result of the election.

VII. All cases of disputed seats in Convention shall be decided by vote after hearing the respective claimants and their evidence.

VIII. All delegates must reside in the district they represent. In case of an absent delegate he may designate another, if he fail to do so his colleagues in attendance may substitute for him. In other cases the Convention may allow the representation from the citizens of the district in attendance.

IX. The voting in Conventions shall be by ballot, and two members may require the yeas and nays on any question pending.

X. Conventions may be called when necessary, by the Standing Committee, the proceedings of which shall conform to these rules.

XI. Resolutions, nominations and all appointments of conferences and of delegates to State Conventions, shall be made in State Conventions.

XII. The Standing Committee shall consist of one member from each election district, who shall be elected by the people at the delegate elections, and any five of them shall be a quorum, when called together by the Chairmen.

XIII. No member of the Legislature shall be chosen by this county as a Delegate to a State Convention during his term of office.

XIV. The convention of a majority of all the votes given shall be necessary to a nomination, and no person named shall be peremptorily struck from the list of candidates, and no person named shall be peremptorily struck from the list of candidates, and no person named shall be peremptorily struck from the list of candidates.

XV. Delegate instructed by the voters who select them shall obey their instructions, and shall not be allowed to vote in violation of their instructions, and shall not be allowed to vote in violation of their instructions, and shall not be allowed to vote in violation of their instructions.

XVI. Conventions shall be called to order by the Chairman of the Standing Committee, or in his absence by some other member of the committee, who shall call and put to vote motions for the election of a President and two Secretaries for purposes of temporary organization.

XVII. No person shall be eligible to a nomination by a Convention who has been expelled from the ticket at the next preceding election; but this rule shall apply only to cases of opposition to tickets heretofore formed.

XVIII. The Convention shall be held at the place of holding the general elections, and shall be held at the places of holding the general elections, and shall be held at the places of holding the general elections.

XIX. If it shall be made to appear to the satisfaction of a majority of a Convention that any candidate before it is ineligible to any office, or that he has offered or paid any money or valuable thing, or made any promise of money or valuable thing, or made any promise of money or valuable thing, or made any promise of money or valuable thing.

XX. If any delegate shall receive any money or other valuable thing, or make any promise of money or other valuable thing, or make any promise of money or other valuable thing, or make any promise of money or other valuable thing, or make any promise of money or other valuable thing.

XXI. None of these rules shall be altered or rescinded at a regular annual Convention, unless by a vote of two-thirds of all delegates present.

Additional Rule adopted at Convention of 1871.

XXII. Candidates for nomination may be voted for directly, at the delegate elections, and shall receive delegate or district votes in Convention in proportion to the number of votes in the several districts, upon the same principle on which delegates are eligible under the 5th rule.

EDITORIAL COLUMN.—The people of this vicinity have witnessed, thus far, a remarkable season. The weather has been so favorable, that the crops are well advanced, and the harvest is well on its way.
