WASHINGTON, Aug. 5, 1872. DEAR SIB: — I have seen the letter addressed to me by you through the public prints, and I notice especially that, while animadverting upon my support of Horace Greeley, you say not one word in vindication of that com-pound of pretensions known as Grant-ism, in contradistinction to Republi-canism, which you would install anew in the Government. You are greatly concerned about the company I keep. in the Government. You are greatly concerned about the company I keep. An Exhibition of Petty Tyranny.

Let everybody read the following, and then decide whether Ulysses Mer-cur is a proper man for Judge of the Supreme Court. Because a soldier, who had honorably served in the army for four years, saw proper to vote as his conscience dictated, Mr. Mercur pur-sued him with deviliah malignity, and did his best to rob him of employment, succeeding so far as official power was concerned !

Yet this brave but humble soldier was afterward driven from all Government employment by Mr. Mercur because he would not violate his conscience and his duty, as a freeman, and vote for the same Mr. Mercur for Congress! But reid Capt. Trout's affidavit, to wit:

theroughly the candidacy of Mr. Gree-ley has divided the Republican party. The Republican vote of Dixon, Lee county, Illinois, was 372 in 1870 and 376 in 1871. EDWARD HERRICK Jr. Chairman of the Bradford County Democratic Committee has written to the New York Tribune that at different Post-offices in that County subscribers to the Tribune found in their boxes copies of the New York Times, a violent Grant paper, and were told when they asked for their own paper, that the Times was the better sheet of the two and that, being furnished gratis it was much better for them. These, outrageous proceedings explain the intent and meaning of the circular issued by the Post Master at Towanda and published by us, calling

on postmasters for a list of subscribers to the Tribune. The aim of the Grantites is to suppress all papers and documents opposing the re-election of Grant. Mr. Mercur seems to be very anxious to save himself in his own county and this style of swindle he perhaps thinks will do so. A party which stoops so low to conquer deserves and will meet with defeat.

\$78,000 MISSING .- A little Irregulari-

ty in the accounts of plous and patriotic General Howard has been discovered in closing up the affairs of the Freedmen's Bureau. In other words the appropriation of seventy-eight thousand dollars made by Congress, exclusively for hospital purposes, appears to be missing. It is claimed that it was put in with the general fund and used for other purposes, but by what authority this course was pursued, if the claim be true, is not explained. The hospital department is twenty-eight thousand dollars in debt for the supplies furnished, and no funds to pay the demand. Of course a raid will be made on the treasury to meet it.

The great issue which the people are called to decide in November is on the President, and nobody knows better than yourself that the House of Repre-sentatives chosen at the same time will than yourself that the House of Repre-sentatives chosen at the same time will naturally harmonize with him. So it has been in our history. Now, harmo-ny with Horace Greeley involves what I most desire. With such a President, Congress will be changed. For the first time since the war the equal rights of all will have a declared representative at the head of the Government, whose presence there will be of higher signifi-cance than that of any victor of war, being not only a testimony, but a con-stant motive power in this greet cause. Opposition, whether open hose ity or more subtle treachery, will yield to the steady influence of such a representa-tive. Therefore, in looking to the Pres-ident, I look also to Congress, which will take its character in a large meas-ure from bim. In choosing Horace Greeley, we do the best we can for the whole Government, not only in the Executive, but in the Legislative branch, while we decline to support nepotism, repayment of personal gifts by official patronage, seizure of the war powers and indignity to the Black Re-public, and the Various incapacity ex-hibited by the President and the rings

M'Michael? On the contrary he testifies that he was informed of their condition. In 1870 General Hartranft himself gave Evans over a million of dollars worth of claims. Of the condition of these claims he was fully cognizant, but he made no report to the legislature of 1871, as the law required. Are we to look for the reason for this neglect of duty in the fact that the auditing officer accepted a loan of \$7,000 from the agent about the time thatsuch report should have been made? The two circumstances cannot be separated. In the spring of 1871 the law required from John F. Hartranft a report to the Legislature of the condition of the claims which he had placed in the hands of Evans one year before, and about the time that this report should have been made he accepted from the agent, who was benefited by the failure to report, a loan of \$7,000, which he did not repay until that agent's nefarious transactions were that the loan was in the nature of a consideration. For \$7,000 General Hartranft compired with George O. Evans to define the state treasury. And now this same John F. Hartranft is a candidate for the office of your the state treasury. And now this same John F.
