SEVERAL communications have been crowded out this week. They will receive due attention.

A LITTLE son of Jeremiah Hess of East Bloomsburg, fell from a tree in Hendershott's grove on Saturday last and broke his leg.

THE public schools of the town of Bloomsburg, will open on Monday the 24 of September for a term of six months.

Montour County has instructed her Conferees for Thomas Chalfant for State Senator and B. K. Rhodes for Assembly.

A BRILLIANT meteor was seen on Tuesday night last in the heavens. It was visible but a moment as it passed across the sky with great rapidity.

WHENEVER a mortgage deed of trust or any incumbrance is made upon insured property, notice should be given to the Company; otherwise the insurance is void.

AT the Conference held in Wilhelm's Hotel in Danville, on Wednesday last, Col. John G. Freeze and John J. Metzger were chosen delegates to the Constitutional Convention.

THE D. H. & W. R. R. Co., have appealed from the decision of Judge Elwell, granting an injunction to the N. & W. Branch R. R., to the Supreme Court, commencing at Sunbury in September.

THE newly erected Church of the Evangelical Association, at Afton, Columbia County, Pa., will be dedicated to the worship of God, on Sunday, Sept. 1st, 1872, services commencing at 10 o'clock, A. M. All are respectfully invited to attend.

The Democratic organs complain that President Grant occasionally leaves Washington for relaxation—*Wayne Citizen.*

No they don't. They complain that he only "occasionally" visits Washington to attend to public business.

The Bloomsburg COLUMBIAN the organ of Senator Buckalew, refused to hoist the names of Greeley and Brown. "What are you going to do about it?" —*Hazleton Sentinel.*

The above item contains two separate and distinct falsehoods. What are *you* going to do about it?

MINUTE holes often occur in lead supply pipes, giving passage to fine jets of water. They may be generally closed up without sending for a plumber, by placing the square end of a nail on the hole and striking it two or three light blows with a hammer.

WATER WORKS.—Ground has been broken for the Danville Water Works, and the work goes on with energy. Mr. Krebs informs us that he expects to have the water spouting over town before Christmas. For promptness the work is in the right hands.—*Independent.*

THE Fifteenth Annual Session of the State Camp of the Patriotic Order of Sons of America met at Wilkes Barre on Tuesday of last week. Over 300 delegates were present. There are nearly 30,000 members of the organization in this State it is said.

WE are informed that H. B. Swope, U. S. District Attorney, will shortly make a Grant and Cameron speech in this place. We presume invitations to be present will be sent to Dr. Walton, Col. Stewart, and other Revenue reformers.

THE editor of the Pittston *Comet* has been arrested just for dropping a quart or so of flour paste on an itinerant organ grinder. When we contrast the lofty mission of the newspaper with the intolerable nuisance of organ grinding, we are impelled to ask "whether we are breathing the pure air of freedom or being strangled with the fetid breath of a hellish despotism?"

IT is strange that so many persons, thoughtful and intelligent men amongst them, should disregard ordinary courtesy and do violence to one of the ordinances of the town by stopping their teams on crossings. There is scarcely a day in which one or more occurrences of this kind cannot be seen on our streets. Don't do it gentlemen; it is neither politen or lawful.

SOME one having asserted that the new Academy in Berwick would not accommodate any more scholars than the old one, a zealous friend of the new building writes a letter to the *Independent* proving by figures that the assertion is untrue and that the new house has nearly double the capacity of the old. The better heating arrangements, greater convenience and architectural superiority are also set forth in glowing terms.

IN the proceedings of the County Convention in the COLUMBIAN last week an error occurred in stating the result of the vote for Commissioner, the name of Abner Welsh being given as having the majority of the votes cast. The figures themselves show the majority to have been given to William Lawton whose name should be in the place of Mr. Welsh's.

THE campaign in this County was fairly opened on Tuesday night last by the organization of a Buckalew Club at Light Street. George W. Jacoby was chosen President and Isaiah White Secretary. The election of permanent officers was deferred until this (Friday) night. Mr. Cooley addressed the meeting and those present enrolled themselves as members of the first campaign club in the county, for the fight of October and November next.

ON Thursday morning of last week six disguised ruffians went to the house of Newton Brown at Marcy's Station on the L. & B. R. R. a short distance above Pittston and after beating Mr. Brown in a terrible manner bound him and his wife and robbed the house. The robbers obtained $1,000 in bonds and escaped unmolested.

MR. NATHAN CREASY of Catawissa township was severely injured last week by a horse which he was harnessing. Whilst passing behind the animal to reach the harness he was kicked in the shoulder, shattering the bone and cutting and bruising the flesh. This accident will probably prevent Mr. Creasy from attending to business for some weeks.

THE New Hall block, in Oswego, N. Y., was destroyed by fire Wednesday morning. The loss is not stated.

We find the above in the *Miltonian* under the head of "Wit and Humor" but patient and careful reading has failed to make clear to us where the fun of the thing lies. Perhaps there was a Greeley newspaper published in the building.

THE Danville *Intelligencer* in speaking of the new Insane Asylum says the main buildings and wings are nearly completed, and the rear building, to be used as a boiler house, laundry, cook-house, bakery, &c., is approaching completion. The water and gas works are being pushed forward with the greatest possible speed and it is thought that the institution will be ready for the reception of patients in about three months.

IN the COLUMBIAN of last week we gave the times at which certain kinds of game could be killed, among them pheasants and rabbits. The information was obtained from the Game Law of 1869, but subsequent examination has shown that the County of Columbia was exempted from the provisions of this Law. The correct statement therefore is as follows: Pheasants may be killed from August 1st to February 1st and rabbits from October 1st to February 1st.

PROVIDENCE permitting, a Bushmeeting will begin on the evening of the 24th of Aug. There will be preaching on the ground, on Sunday, the 25th of Aug., at 10 o'clock, A. M., by Rev. G. W. Rigon, after that only in the evenings. Rev. Isaiah Batzell from Mountville Pa. and others are expected to be present during the meeting. The meeting will be held in Peter Leisenring's grove near Crossroad School House, Northumberland Co., Pa.

SIXTEEN quarts of pure milk are required to make one pound of butter, and ten quarts to make one pound of cheese. When butter is forty cents a pound and cheese eleven cents, one pound of butter equals in value sixteen quarts of milk and returns two and one-half cents per quart to the dairyman. But one pound of cheese from ten quarts of milk only gives him one and one-eleventh cents per quart for pure milk.

PRODUCE YOUR PROOF.—Beckley, with his usual lack of veracity, repeats the stale slander that the "Fishingcreek Confederacy" had one or two pieces of artillery, and that 1,500 men drilled on the Rantz farm. Every man, woman and child in this County knows this statement to be false; but it, and similar ones are manufactured for the purpose of being spread abroad. We challenge him to get a single decent Republican to make an affidavit as to the truth of this charge. In this County many of the ablest Republicans will vote for Buckalew as the best answer to the slander.

MR. ED. BLOOM, from the vicinity of Knob Mountain, visited our town on Tuesday last, with an equipage, if we may be allowed to use the term, which was unique if not elegant. The wheels of his vehicle were very small and on a framework erected on them was a chair under which were wooden springs. The animal who furnished the motive power for this home-made conveyance was a bull, in remarkably good condition and of apparently gentle disposition. Mr. Bloom, upon request, made a short speech in front of the Court House. We did not hear it but it produced much amusement in the crowd of listeners. We understood that both Mr. Bloom and the bull, were for Greeley. Bully for them!

THE Republican delegate election in Bloomsburg on Saturday brought to light a formidable resistance to the domination of the small clique which has heretofore controlled the party in this County. In one ward the bolters only failed to elect their delegates by four votes. There is no doubt of the existence of a serious and growing disaffection in the ranks of the Radicals and Messrs. Knorr, Whitmoyer, Beckley and the rest of the office holders must look to their laurels or they will find themselves ere long in the minority. These gentlemen have ruled the members of their party with a rod of iron and at last have roused the indignation of the more thoughtful and earnest to a degree that may lead to the eventual overthrow of the Administration ring.

ON Monday morning about 2 o'clock as John Webster, George Davis, Alfred Burgh, Thomas Richards, James Darrah and James Brady, were returning from their work at the Continental Colliery, owned by Messrs. Gorrell & Audenreid, whilst walking through the deep cutting on the Lehigh Valley Railroad, a little east of the Colliery formerly owned by J. M. Freck, they were fired at by a party who must have been lying in wait for them in the brushwood. All except Webster ran back to the Colliery and stayed there until morning. He ran in the direction of Centralia and was found on the side of the Railroad in the morning unable to go home, and in a critical condition from a number of wounds from shots in the abdomen and one in the breast. Mr. Davis was shot through the lung and is dangerously injured. Of the others none are seriously hurt. A ball glanced off the buckle on Darrah's belt and Richards found shoe tacks lodged in his foot. The party must have had guns and pistols loaded with balls, large shot, and shoe tacks, and from the location of the wounds it is thought they aimed at the lighted lamps on the workmen's heads, being on the bank above them. The assailants are unknown and still at large.

The Office Holders' Convention.

The annual gathering of this body of patriots met at the Court House on last Monday to ratify the cut and dried programme laid out by Beckley, Knorr & Co. Not half the county was represented and out of 2000 voters not 200 attended the delegate elections. The delegates were mainly self constituted. Among them we noticed U. S. Assessor S. Knorr, who was general manager, assisted by the Rev. Postmaster Beckley. A. Mr. Brown, son of a postmaster, presided. Abram Rice, the Beaver postmaster, was prominent and was ably seconded by Assistant Assessor McCollum. Neither Stewart nor Walton sat near him. L. T. Thompson, former Revenue Gauger, Richard Stiles, former Assistant Assessor, John Hartman, perpetual candidate for anything, C. G. Jackson, ex-candidate for Legislature, Dr. Vanderslice, same, Elisha Hayman, U. S. Census taker, were among the delegates. Nor must we omit our friend Abbott, also at one time candidate for Legislature, but who was so ruthlessly struck by Knorr, Whitmoyer, McCollum *et al.*

Elisha Hayman and Robt. Howell were selected as Judicial conferees, without instructions. The congressional conferees were instructed to support Dr. Strawbridge, of Danville.

H. G. Creveling was nominated for Assembly, beating John Hartman, who does not seem to be a favorite of the ring. L. T. Thompson and K. C. Ent were made Senatorial conferees. The convention also instructed in favor of Michael Whitmoyer as delegate to the Constitutional convention. R. H. Ringler was nominated for Prothonotary, Mattie Monroe for Register and Recorder, and John Staley for Commissioner. John Eggert, whowas promised a Legislative nomination was let up on Auditor.

The resolutions approve of Hartranft's stealing and Allen's blackmailing, and they are declared "fit representatives of the Republican party," which is undoubtedly true.

And then the thing ended. Several people in town would have called in had they known a convention was being held, but we assure them they would have seen nothing new; the same delegates and same managers as heretofore run the machine.

IN pursuance of a Resolution of the Democratic County Convention the members of the Standing Committee met in this town on Saturday August 17th.

On motion, David Lowenberg was duly elected Chairman and W. C. McKinney Secretary of the Committee for the ensuing year.

John G. Quick moved that there be as many members of the Vigilance Committee appointed from each township which was agreed to. There was then appointed the following

Arrangements were made for the organization of Campaign Clubs and in futherance of the plans the Chairman appointed Tuesday evening Aug. 20th for a meeting at Light Street and Wednesday evening Aug. 21st for a meeting in Buckhorn.

The Committee then adjourned to meet on Tuesday September 3d, at one o'clock, in Bloomsburg.

The members of the Vigilance Committee are desired to meet as soon as possible to decide upon the time and place to hold meetings in their respective townships and to notify the Chairman of the County Committee of their decisions, in order that speakers may be in attendance.

THE Democratic Convention of Sullivan county met on Tuesday August 13th in Laporte and organized by the election of the following officers; President, Hon. Richard Bedford; Vice Presidents, William Colley and Fred. Taylor, Secretary, Michael Meylert.

The name of Amos Little was presented by a substitution of Patrick Jordan. Martin Jordan also presented a substitution from Patrick Jordan and on the question being submitted to the convention which should be admitted as a delegate, Mr. Jackson called upon his friends to vote for Amos Little and Mr. Deegan called upon his to vote for Martin Jordan. The ayes and noes were called and resulted as follows; 19 votes for Amos Little and 9 for Martin Jordan, where upon Mr. Little took his seat. At this stage of the proceedings Mr. Deegan called upon his friends to leave the convention with him which they did.

The following resolution was then offered by M. Meylert.

Resolved, That Geo. D. Jackson is our choice for Senator for this Senatorial District, to be elected at the ensuing election. We hereby nominate him as a candidate for that office with power to appoint the Senatorial conferees equal in number to those appointed by any other county in this Senatorial district; which was unanimously adopted.

C. C. Finch and Lyman B. Speaker was appointed Judiciary Conferees and instructed to support Hon. Wm. Elwell for President Judge of this Judicial District.

The following resolution was then offered by Geo. D. Jackson.

Resolved, That Michael Meylert and Richard Bedford are hereby appointed Congressional conferees to meet similar conferees on the part of the other counties in this Congressional District to nominate a candidate for Congress. And while we have a preference for the nomination of Hon. R. R. Little of Wyoming county, we leave it to the discretion of the conferees; which resolution was unanimously adopted.

Representative conferees were appointed and instructed to support Lyman B. Speaker.

All do not know that lemons sprinkled with loaf-sugar almost completely allay feverish thirst. They are invaluable in the sick room. Invalids affected with feverishness can safely consume two or three lemons a day. A lemon or two thus taken at "tea-time" is recommended as an entire substitute for the ordinary supper of summer, and will often induce a comfortable sleep through the night, and give a good appetite for breakfast.

Hints to the Idle.

In no great popular movement have the people displayed more intelligence, discipline, and self-dependence, than in the present campaign. Still, it is evident from numerous communications that many persons stand idle, waiting to know how they can do more than cast their individual votes. For such we offer some suggestions toward effective work:

I. Endeavor to increase the circulation of the newspapers published in your respective locality. There is no better campaign document than the local newspaper. Be it large or small, if it is heartily devoted to the popular cause it will necessarily contain incitements to earnest, resolute action in the appeals and arguments it presents in successive numbers. However apathetic or hostile a voter may be, he will not, if he is open to honest conviction, resist the influence of the facts published, between this and November, in any one paper devoted to National Reform. Whoever, therefore, adds a single name to the subscription list of such a paper, has laid the basis of an ever-widening circle of effective aid to the popular cause.

II. Circulate campaign documents. Several of these have already been published and have borne good fruit wherever they have been distributed. It is probable that "Senator Sumner's Speech," one of the most effective publications of the campaign, has been read by 5,000,000 of our people, and as its impeachment has never been answered, it continues to lead every one intent on voting wisely and patriotically into the Liberal ranks. The same is true in a measure of the "proceedings of the National Convention," containing Senator Schurz's masterly address, and of "Mr. Greeley's Record" which shows the statesmanlike policy he advocated at the close of the civil war, and the defiant attitude he held when the principles of justice and the securities afforded by the constitution were imperilled.

III. Organize Clubs. Be your number ten or ten hundred, your power for good will be redoubled when you resolve yourselves into an organized body. Your club will form the nucleus of an organization which in a movement like the present must daily expand, and be an effective barrier against the intrigues and terrorism of office-holders. Each club should appoint appropriate committees; make a list of all the voters in its district; canvass each one thoroughly and hold public meetings at convenient times. It should encourage fraternity among those who have differed in the past, not alone by candid professions, but by stimulating cordial, hearty intercourse; in a word, it should be incessant in all branches of political action, relying mainly upon its own strength, until victory will crown its efforts in November.

"This is a country worth fighting for," and if the people only exercise the vigilance and display the organization which the occasion demands, they cannot be overborne, were corruption twice as strong and audacious.

U. S. PARCEL POST.—According to the new U. S. Postal law, which went into operation on July 1st, packages of dry goods, hardware, drugs (except liquid drugs) and other merchandise not exceeding twelve ounces in weight, can be mailed to any part of the United States at a charge of two cents for each two ounces or fraction of two ounces. Under this law, the post-office authorities will forward a twelve-ounce package to San Francisco for twelve cents, whereas the express companies demand at least twenty-five cents for the transportation of a package, however small, for any distance. As a familiar illustration of the benefits of this new parcel post, a pair of dress boots, if neither boot weighs over twelve ounces, may be wrapped up in two separate packages, and be sent to San Francisco for twenty-four cents, whereas the express companies would charge for transportation to the same point as much as the goods are worth. The new system has not as yet been taken advantage of by the public to such an extent as to make it remunerative to the Government, but it is believed that when the parcel post becomes more generally known it will prove profitable to the Government as well as beneficial to individuals.

STAINS.—If you have been picking or handling any acid fruit and have stained your hands, wash them in clear water, wipe them lightly and while they are yet moist strike a match and shut your hands around it so as to catch the smoke, and the stain will disappear. If you have stained your muslin or gingham dress, or white pants, with berries, before wetting the cloth with anything else, pour boiling water through the stains and they will disappear. Before fruit juice dries it can often be removed by cold water, using a sponge or towel, if necessary. Rubbing the finger with the inside of the parings of apples, will remove most of the stain caused by paring. Ink also, if it be washed out or sopped up from the carpet with cold water immediately when it is spilled, can be almost entirely removed.

LOOK OUT FOR THE SCAMP.—Chief of Police Knapp is in receipt of a letter from a gentleman at Roaring Branch, Pa., warning the public against a swindler calling himself J. G. Saxon, pretending to be a Mason, Odd Fellow, and Knight of Pythias. He is traveling on the "make" and obtaining sums of money by representing himself as a postoffice detective. He borrows the money and promises to return it within twenty-four hours. When the time is up he isn't there. He is of medium height, sandy hair, heavy moustache and has lost his right arm, but wears a false one with a glove on the hand, dark coat and pants, white duck vest Leghorn hat. He also carried a linen duster. When he left there he obtained about $1,500 of two parties. Look out for him.—*Elmira Gazette.*

DURING a thunder storm at Sunbury on Tuesday of last week, the City Hotel was struck by lightning and the proprietor, Mr. Drumheller, was knocked down by the shock, but, fortunately, escaped without serious injury. A son of Mr. Charles Garringer was knocked off from a wagon and stunned, and one of the two horses which he was driving was instantly killed and the other somewhat singed. The same discharge of electricity struck a fence near by shivering it.

To Neutralize Offensiveness.

In many forms we use disinfecting agents. Impure breath, caused by bad teeth, tobacco, spirits, or catarrh, is neutralized by SOZODONT. 'Tis a healthful beautifier, and a great luxury as a dentrifice. The repulsive breath is by its use rendered as fragrant as a rose, and coldness by friends or lovers will be no longer noticed.

Spaulding's Glue mends everything.

BLESSINGS BRIGHTEN AS THEY TAKE THEIR FLIGHT. The chief of blessings is good health, without which nothing is worth the having. It is always appreciated at its true value after it is lost, but, too often, not before. Live properly, and correct ailments before they become seated. For diseases of the liver, kidneys, skin, stomach, and all arising from impure or sickly blood, Dr. WALKER'S CALIFORNIA VINEGAR BITTERS are a sure and speedy remedy. It has never yet failed in a single instance. 26may1

TALE AT THE TOILET.—Every lady's maid knows that the bewitching beings who pave their triumphant way with conquered hearts, regard a splendid head of hair as the most effective of all womanly fascinations. They believe, and they are right, that they can lure as many beaux with the luxuriant ringlets and glossy braids as they can "kill at sight" with their beaming eyes. Hence in their "toilet talk" among themselves and with their attendants, the merits of preparations for the hair are freely canvassed, and the latest result of this discussion seems to be the almost universal adoption of LYON'S KATHAIRON as an article better adapted to promote the growth and beauty of the "Chief Glory of Woman" than any other at present before the world. They say that without irritating the skin of the head it eradicates dandruff, and that it penetrates below the surface to the roots of the hair, endowing them with new life and vigor. n7-1yl

PERHAPS no real medicine ever gained the rapid popularity which Castoria has done. One person relates their experience or its good effects to another. It is a vegetable preparation, perfectly harmless, pleasant to take; does not distress or gripe, but regulates the system, and is sure to operate when all other remedies failed. Any person who has ever used Castoria for Stomach Ache, Constipation, Croup, Flatulency, Worms, Piles, or deranged Liver, will never again see nauseating Oil, Bitter Pills or Narcotic Syrups. The Castoria contains neither Minerals, Morphine nor Alcohol. By its soothing, enabling effect it produces natural sleep, and is particularly adapted to crying and teething children. It costs but 25 cents, and one bottle will save many dollars in doctors' bills. 3m14w

A PERILOUS SEASON.—Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general disarrangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is especially adapted to this purpose. A general invigoration is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the ability of Hostetter's Stomach Bitters as a tonic, corrective, and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered both by the people and the profession, the unbound specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints created by the peculiarities of the temperate and most vegetable situations in the world.

Beware of the Bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to palm upon the people. Your name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in keg or barrels. m7-1yl

Important Testimony!

The following letters are among the many we are constantly receiving from persons who have been cured by

Schenck's Pulmonic Syrup,
Schenck's Sea Weed Tonic,
AND
Schenck's Mandrake Pills,

Penn-grove, Salem County, New Jersey.
FEBRUARY 27, 1872.

DR. J. H. SCHENCK, N. E. corner Sixth and Arch streets, Philadelphia.

Respected Sir—I take pleasure in adding my testimony to that of the many others who have been cured by the efficacy of Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills.

Consumption, and being hereditary in my family, master its merciless hold on me, and I daily died of it all the early part of 1871. I was, when about 21 years, seized with a liver complaint, and was pronounced by my physician a Consumptive. I was compelled to relinquish my employment (that of a blacksmith), and consulted skillful and eminent physicians, and tried many patent medicines, but without success, so that my friends were sure that there was no hope of my recovery, for I was reduced from 150 pounds to 90, and was not able to do anything without assistance.

My wife, I now look upon as a Providential interposition, was induced by your pamphlet, and I have myself under your treatment, and the rapid and thorough was my recovery, that it seemed as though some superhuman power was at work, and only a few months ago I was at my anvil during my life. I weigh 182 pounds, am 36 years old, and for some time have been regularly attending to my business, adding fair to live to a good old age.

I am thankful to you beyond expression for having placed me in a position wherein I am a benefit instead of a burden to my family.

Your Mandrake Pills are the only medicine I ever use now. I think they are the best in the world.

I can refer you to hundreds of my neighbors who will verify all I have written, and any information any of my fellow citizens may desire of me freely and cheerfully given, upon receipt of stamp, by Yours, etc.

JOHN C. HEWITT.

Key West, Fla., Feb. 19, 1872.

DR. J. H. SCHENCK, N. E. cor. Sixth and Arch streets, Philadelphia.

Dear Sir—Please forward, per first steamer, six bottles Sea Weed Tonic and twelve bottles Pulmonic Syrup.

Your medicines are of such value that I cannot be without them in my household, and find not no family should be without them.

I have given them a fair test, and openly declare them to be even better than you claim.

Very respectfully yours, etc.
W. A. WHITEHURST.

PHILADELPHIA, March 4, 1872.

DR. J. H. SCHENCK.

Respected Sir—I take pleasure in awarding to you this certificate of the wonderful cure your Pulmonic Syrup and Sea Weed Tonic produced. My throat and bronchial tubes were so highly inflamed that it was almost impossible for me to swallow my food.

I went on a visit to my uncle, Mr. Charles Johnson, No. 912 Federal street, who says your medicines raised him from almost death after all other means had failed, and he having, therefore, the confidence in the virtues of your remedies, strongly recommended me to try them. I did so, and in one week from the time I commenced taking them my throat was in a very great change for the better, so that I could eat my meals without any difficulty or pain. I can scarcely find words to express my gratitude for the early relief your valuable medicines produced upon me, and I deem it but an act of gratitude to give you the acknowledgment of my appreciation. Yours respectfully,
RACHEL M. JACOBS.

SCHENCK'S PULMONIC SYRUP,
SEA WEED TONIC,
and MANDRAKE PILLS,

These are the only medicines that will cure Pulmonary Consumption. Dr. Schenck has been in constant practice over thirty years continually examining lungs, and knows his medicines properly taken, will cure Consumption. His Mandrake Pills cleanse the liver and stomach; his Sea Weed Tonic dissolves the food, stimulates the coating of the stomach, and makes it digest. His Pulmonic Syrup ripens the matter, and nature throws it off without any exertion.

Price of the Pulmonic Syrup and Sea Weed Tonic, $1.50 per bottle, or $7 00 per half dozen. Mandrake Pills 25 cents per box.
