There seems to be much distress prevailing among the laboring classes in Luzerne county, and other adjacent portions of the iron furnaces and foundries are either idle or working only on partial time, and this, together with the general depression of trade, having reduced the consumption of coal, there is very little doing at the collierles in this usually busy region. Thousands are in idleness without any means of obtaining work, and the distress is very great. The Mayor of Scranton writes to a contemporary that all the means of relief in that city are exhausted, and he fears, as winter advances, that the suffering will become ex-

The Federal Government has already guaranteed over sixty-four millions of Pacific railroad bonds, and paid more than twenty-four millions of interest on the same. Yet these cormorants are asking for sixty or seventy millions more and the Republican Congress will vote it to them if the members do not fear the people too much. Fresh Outrages Upon Louisiana! Poor, oppressed Louisiana is still under the iron heel of military oppression-at the expense of all the people of the United States! At the last election, the Conservatives, embracing nearly all the native white elected the State officers and about twothirds of the Legislature, notwithstanding that United Sintes troops were so disposed anthority, or assuming it, to throw out votes posed of four carpet-baggers and one native, but at the recent count the latter retired in utter disgust. The board threw out Conservative votes enough in many districts to change results, and admitted men in others who had scarcely votes enough to show that they were candidates, to give the Radi cals a majority in each branch of the Lezislature! That body met on the 4th inst, and upon proceeding to organize it was ascertained that enough Radicals were absent from the House to give the Conservatives a majority. A Speaker and Clerk were duly elected and assumed their duties, when the Doorkeeper-Ephraim Jones, Allegheny, military appeared on the scene, armed soldiers took possession of the As embly room. and the General in command informed the Specker that he was directed by Gov. The Conservative members then retired to another building, and the remaining Radicals under the protection of the last Legislature, and the caucus seems to the last Legislature, and the caucus seems to Legislature. An Editor Killed by an Ex-Governor.

On the 26th ult., Mr. Byerly, the busine manager of the New Orleans Bulletin, attack ed ex-Gov. Warmouth of Louisiana, on the street with a club. The blows proving ineffective, the parties clinched and fell to the ground, Byerly on top. Warmouth immediately drew a knife from his pocket and inflieted four fatal stabs in Byerly's body. The latter died in a few hours and Warmout was arrested, but was soon released on the ground of acting in self defence. There had been no quarrel directly between these parties but a duel was pending between War mouth and Mr. Jeweil, the writing editor of the Bulletin,

As a rule of action we certainly do not ap pove of killing newspaper publishers, but if one man strikes another with a club, and loses his life in consequence thereof, we insist that he baself alone is to blame. The act is essently a bratal but a murderous one and we know of no code of merals that requires a man to be battered nigh unto death or run the risk of being entirely disabled o killed before adopting even extreme mode of defence. The attacking party rarely deserves sympathy, and certainly not in this case, even though he be a printer and a Pennsylvania by birth,

***** Monopoly vs. Labor.

While that huge but elegant menopoly, the Philadelphia and Reading Railroad Company, and its illegitimate bantling, the Philadelphia and Readins Coal and Iron company, are slowly and surely raising the prices of coal to consumers, they have hautily and dictatorially reduced the prices of mining, nominally ten per cent but in reality much more. As a consequence the miners have struck, a result possibly if no probably desired by the menopelists.

Cash Politicians.

The late elections have ended the labors of that class of politicians who "go for cash."

The Democratic party must begin at once to end forever the business of those men who have lived so long on "the cash" which they ask, demand, or take for political service.

The curse of the Radical party, or rather one of its curses, was the gang of creatures ways "going for the cash." Votes, bills, legislation, contracts were to be had for cash and these creatures were the agents to buy

We are indebted to Gov. Hartranft for an advance copy of the annual message, but out now and produces figures which show the national debt to have less have room only for a very brief synopsis. The State debt is stated at \$24,538,635 37, decreased but little over a million last year, and cash balance in the Treasury at \$1,054. although the Radical press reports a decrease and best portion of the negro population, 551 65. In the State they have a "returning board," appointed by the Governor, who count all the public men, devotes a chapter to banks, Gara votes and declare who is elected, having saving funds and trust companies, and desires to prohibit them from receiving more than where negroes are "intimidated," and to six per cent interest and from paying intercount votes not polled. This board is com- est on deposits. He advocates the substitution of a poll tax instead of tax upon occupations, trades, &c. A commendable chapter on the propogation of fish follows, and and an act to prevent the waiver of exemption laws is urged. Various other subjects of minor importance are treated of and the nessage appropriately winds up with an appeal for Divine assistance for himself and the Legislature. Concurres re-assembled again on Tuesday. No business of importance has as yet been transacted. The leading issue now pending is the Senate finance bid. Having passed that body by a party vote thosame result sub-

stantially will no doubt follow in the House. The only relief the passage of the bill will afford or good that it will do will be in the assurance such action will give that there is o be no more Radical legislation on the arbject. In fact the most decided act of public relief that this Congress can adopt is to adjourn finally. If the people were once assured that it no longer existed, we believe here would be a general revival of business to a large extent, as there are no fears that a like mischievous body can ever exist again. But there is no hope of getting rid of be concern before the 4th of March, when it wild die a natural and inevitable death.

Foreign News.

The Republic of Spain was very suddenly viped out last week, but in fact no Republic ver existed there. A few leaders, without other than usurped authority, called their government a Republic, but never gave the estat cople a chance to rule, or to determine their orm of government, or to elect their rulers. But for a year or two past the government was called a Republic, ruled by aristocratic and titled grandees. These waged war during the period of their authority against a part of the nation who recognized Don Carlos as king. Ten days ago, the General commanding the army in Madrid, the capital, declared in favor of Don Alfonso, a boy of eventeen and son of the expelled Queen Isabella, as King. All the armies and statesmen of the "Republic" acquiesced, including even the brawling "patriot" Castellar. It is also said a part of the Carlist army will join the forces of the new King. The governments of Europe will all recognize him, including the Pope of Rome, and the Carlist war will probably end. The Cabun governments are used to the court the court appointed C. B. There is no Republic there and the government known by that same is only suffered to exist while the rival monarchial interests hold and other in abeyance. No important news rom other countries in Europe, unless it be hat several of the countries have prohibited he importation of American potatoes, for ear the bugs would come along with them.
