He tasted the berry himself and his neighbors, who, finding his account true, introduced it into their country. The Persians relate that Mahommed being ill, the Angel Gariel invented the beverage to restore the Prophet to health, It is also related that the superior of a convent in Arabia, hearing of the strange effect of the berries on the goats of the dervish, concluded that they would have a beneficial effect upon his monks, who were in the habit of falling asleep during prayers The result exceeded his expectations. However this may be, it is certain that it was in he middle of the fifteenth century that the Arabians first began to cultivate coffee. Gremaleddin Abou Abdallah Mahomme len Said, Mufti of Aden, having occasion o assist Persia relative to State affairs noticed, while there, that the natives used coffee ery freely, and were extravagant in their praises of its virtues. On his return to his ountry he fell sick of a fever, and recalling to his mind what he had heard of the curative powers of coffee, he determined to try it. The effect was almost miraculous. In two days he was well. On his recommendation the prominent men of the city tested its virtues. Since that time its use became common, and it is said that the Arabs neve drink it without asking Heaven's blessings for Gremaleddin as a slight recompense for the great bonanza he bestowed upon them. From Aden the use of coffee gradually extended to Mecca and Medina-thence it spread throughout Arabia. In all the principal cities places of entertainment where coffee was dispensed were opened. Here idlers congregated, passing the day in playing checkers and listening to the poets who came to the cafes to recite their poems. From Arabia the use of coffee passed into Egypt, and was first introduced into Cairo in the beginning of the tenth century of the hegira. From Egypt it was next taken into Syria, first to Damascus and Aleppo, where it was introduced without opposition. Finally it was adopted in all the Syrian cities. The first opposition to the new beverage ook place in Mecca, in 917 of the hegina. Two brothers of high authority persuaded the Emir Khair-Beg-Mimar that coffee was an intoxicating liquor, and that its use was prohibited by the precepts of the Prophel. Still the attempt would be rather, to use Cardinal Manning's words on receiving his new dignity, "a forlorn hope," and it is by no means clear that it would succeed. In America, however, there is everything to be gained and nothing to be lost by holding or democratic support, for there is only a democracy to be propitiated, where the mion of church and state has never existed it can neither be perpetuated nor dissolved. How far the same programme could be safely carried out in old established Catholic states s quite another question, nor is it at best anything more than a plausible conjecture that Romeseriously contemplates so momentous a change of front. One swallow does not make a summer, and the appointment of cardinal can hardly be taken as a pontifical announcement that henceforth Catholic society is expected to conform itself to the American type. The discussion is not without interest, both on its speculative and practical side; but is one which we have no space or occasion to enter into more fully here.

A policeman met a negro at night carrying a trank along the street, and collared him. The negro explained: "De family what was boarding me has been axing for every thing that comes to them. It is not money, and as dey was gone, out to-night I enough that we have presses that rejoice in thought I would get into some family whar

> An old bachelor, upon reading that "two wers sat up half the night with only one chair in the room," said it couldn't be done, unless one of them stands or sits on the floor, And such painful ignorance pretty plainly indicates that he has never been there. ----

Bad luck is simply a man with his hands n his pockets and a pipe in his mouth, looking on to see how it will come out. Good uck is a man of pluck with his sleeves rolld up working to make it come out right,

"I always thought I should never rear that child," said an old lady of ninety, on hearing of the death of her son aged seventy.

Josh Billings says : "I am violently opposed tew ardent spirits as a bevorage, but for manufacturing purposes, I think a little of it tastes good."
