THE OLD FORY MAX.

- He was a quoer old fory man,
 And loved old logy ways,
 And railled against the reckless speed
 Of these flast modern days!
 He once could travel lefsurely,
 And stop als friends to hall;
 But now they rusted into through by ste
 And rade him on a rail!
- The good old coach was fast enough
 For prudent folks to go;
 Impredent men now (augh at it,
 And say twue rather slow!
 And so they rush upon the train,
 And speed like thought away.
 Until a smash-up breaks their bones—
 He thinks it doesn't pay!
- He loved old housewives' spinning wheel— The music of their hum was far more grand to his old car Than grand plano thrum: A "But, ah?" he signs, "those wheels are gone, Since Whitney made his gin! No more we hear their thrifty hum— No more we hear their thrifty hum— No more we hear their thrifty hum—
- "The roxy girls of olden time,
 Sunburat, were here or made.
 Than these—the late and tender shoots.
 That grow up in the shade.)
 They did their mother's heavy work,
 And cased her weary hands;
 And sometimes, too, if brothers failed,
 Could help to do a man's!
- "Their dresses, made with easy fit,
 Gave not a pain beneath;
 Their hearts had ample room to b at;
 Their hungs had room to breathe—
 Talike our present girls, with waists,
 Too much compressed and slight,
 Who, if they do not dissipate,
 Are very often tight! They let no fashion dwarf their forms,
- But grew to comely size;
 And health shone ever on their brows
 And sparkled from their eyes!
 They thanked kind Heaven for its gifts,
 And thought with secret pride,
 That they were beautiful enough,
 And they were satisfied!
- "But now our modern girls, alas!
 Think Providence unkind
 For putting too much in the midst,
 And not enough behind!
 And so they bustle round, and lace,
 To mend such clumsy ways.
 And talk they far outshine the girls
 Of good old fogy days!"
- "He wished," he said, "for their sweep stakes. That fashion's torturing vice. Would ease them up a little, and Less piaching would sunice—
 That they might feel the bounding health Around the hearth that plays,
 When all unfettered as it was.
 In good old fogy days?"

- The horsewhipping of a Mormon bishop at Salt Lake City, recently, by a coal dealer whom the bishop refused to pay for fuel used by his wives during his absence, caused some excitement, and is another illustration of the many difficulties Mormonism brings its followers into. Being sued by nineteen wives for maintenance is bad enough, but being horsewhipped for refusing to pay the debts of a dozen or two is worse, and is one of the feathers which may yet break even the strong back of the Mormon camel,
- He left the spelling bee at 10 o'clock and stopped in a saloon on his way home, here he met several friends who "set 'em up" divers times, and he reached home about midnight with a confused brain and a very demoralized pair of legs. Then he swore that hid in the meal that lay in the house that somebody had stolen the keyhole, but his wife with a fearful scowl on her brow and a lamp in her hand, admitted him, "Drunk! she exclaimed. "D-r-u-n-c (hic) drunk. Tharz easynuff." "Brute!" "B-r-o-o-t (hic) give us harder one." "Idiot!" "Tharz harder (hic), but I kin spellum. I-d-I-d-g -I-d-i-g-t, Idiot. Now give us a stunner (hic)." She picked up a poker and gave him a "stunner," and the spelling bee adjourned sine die.
- LUCK AND LABOR.-Many people complain of their bad luck, when they ought to blame their own want of wisdom and action. Mr. Cobden, a distinguished writer in England, thus wrote about luck and labor: Luck is everything waiting for something
- Labor with keen eye and strong will, will
- turn up something. Luck lies in bed, and wishes the postman would bring him news of a legacy. Labor turns out at six o'clock, and with
- busy pen and ringing hammer, lays the foundation of competence. Luck whines, Labor whistles. Luck rises on chances. Labor on character. Luck slips down on Indigence.

Labor rises upward to Independence.

that Bowen built. About Alderneys.

- The Alderney is a well known breed of ows which is yearly becoming more popular. The cattle are so called probably be cause the first ones exported were from Alderney island, although now very few that are sold as Alderney cows are directly from there. Those of that breed actually exported from these islands are generally from Jersey, where the cattle are much the same as those of Alderney-small, with tapering heads, and of a delicate fawn color. The Guernsey cow is esteemed by some even more highly than the Alderney; it is rather larger, and more of a red, brindled in color The cows are milked three times daily, and the milke is churned without skimming; one pound of butter a day is by no means an uncommon yield for a good cow. The cow cabbage is made to reach a size so large that the leaves are used to wrap the butter in for market, while the stalks are varnished and armed with ferrules, and extensively used at St. Helier's for canes. The cows are very carefully coddled. The grass they feed on is highly enriched by the vraic, a species of sea weed gathered from the reefs at low tide. There are two vraic harvests appointed by the government-one in the spring, the other in August-although it is gathered at other times in small quantities. All hands turn out in the season with boats and carts, frequently at night, and it is a very lively, picturesque occupation, though often attended with risk and loss of life from the overloading of boats or sudden rising of the tide. The cows are always tethered when feeding; they eat less in this way, really giving more milk than if glutted with food, and while they are cropping the grass on one side of a field it has time to spring up on the other side. When they have done eating, they are at once removed from the sun into the shade. The breed is preserved
- The French notation assumes that a thousand millions (1,000,000,000) make a billion. while the English notation requires a million millions for a billion. The difference is not of much importance in the affairs of life, or in settling private cash accounts. Still it may be said that the French notation for a billion is generally preferred in the United

from intermixture with other breeds by

KIDNEY COMPLAINT. HEADQUARTERS

- Probably there is no complaint that afflicts the branch system, which is so little understood at the present time, as some of the varied forms of Ridney trouplaints.

 There is no disease which causes such acute pain or more alarming in its results than when the kidneys fall to sucrete from the blood the uric acid, and other poisonous substances, which the blood accumulates in its circulation through the system.

 If from any cause the kidneys fall to perform the functions devolving upon them, the cumulations are thrown into a state of disease, causing great pain and suffering, and very often immediate death, lience the importance of keeping the kidneys and blood in a healthe condition, through which all importates of the body must pass.  MR. STRVENS! Dear Sir-1 am seventy-one years of age; have suffered many years with Kidney Complaint, weakness in any back and stompoch. I was induced to try your Veoluties, and I think it the best medicine for weakness of the Kidneys I ever used, I have tried many remedies for this complaint, and never found so much relief as from the Veoluties. It strengthens and invigorates the whole system. Many of my acquaintances have taken it, and I believe it to be good for all the complaints for which it is recommended.

R. H WHITACRE,

- Cough. Hronohitis, Ashma, and Consumption.

 Among the great discoveries of modern science, few are of more real value to more the countries has a shown that it does and Lungs. A vast trial of its virtues, throughout this and other countries, has abown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Chenry Pecroral will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a saleguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherner Pecronal is invaluable for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred en them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer trothesome Influenza and painful Hronehitis, when they know how easily they can be cured.

 Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the grea
