An Important Decision.

Judge Pearson, of the North Carolina Su

preme Court, rendered an opinion which is interesting under certain circumstances. In this case the parties had made a contract of

marriage and on the day previous to the marriage, the woman executed a deed of

rift of her real estate to the value of \$3,000 o her step-mother, without the knowledge

of the man. After the marriage the husband sues for the recovery of the land back to the

wife, upon the ground of fraud. The Court held that the deed was fraudulent, intended to deceive the man, and the step-mother is

rdered to convey back the land to the wife

At a meeting of the Democratic State Committee, in Harrisburg, March 4, 1877 the following resolution was adopted, viz. Among the other discarded aristocratic customs of Europe that the snobs at Washington have adopted, as we judge by the insipid "anec lotes" of officials that are published, is that of employing court fools. Treasurer New is the hero of most of them now but Postmaster Hale figured in the character lately, as did Secretary Delano formerly. Sharp sayings as flat as the butt end of a pumpkin, are sounded and heralded as gushingly as though they were pure scintillations of wisdom.

In many counties of the State the townfor not publishing the annual settlements, as required by law. This is proper, for the people have a right to know how their taxes publish, as required by law, raises a just suspicion that some of the funds have been misappropriated. All laws ought to be complied with, and when office holders refuse to comply with them it is always a sign of to be enforced.

The next issue of the COLUMBIAN will announce the Democratic nominees for Governor and State Treasurer, the convention meeting at Eric on the 8th of September Then the struggle of the fall emopaign will commence in carnest; it will be the most important one that has occured in many years; the true and real issue being whether the State and Federal governments shall be administered extravantly or economicallywhether public plunder and oppression of brought down to the necessities of the people and honestly and cheaply administered.

## A Plethoric Campaigner.

The Republican papers are just now lauding the earnest speech in behalf of Hartranft made at Bellefonte last week by Wm. B Mann. We have lengthy paragraphs upon paragraphs piling up all the pet adjectives of praise the books afford in behalf of the earnestness" and "eloquence" of the speech. But it is an old belief that a lawyer work very much in proportion to the pay he has in expectancy. Hartranft, while Auditor General, gave this same Wm. B. Mann \$30, 000 of the people's money for a few days work said to have been performed in examining the books of foreign insurance companies. Whether any work was ever performed there is no evidence, but that over \$30,000 of the people's money was certified by Auditor General Hartrauft to be due to Wm. B. Mann "for examining the books of foreign insurance ompanies" in 1867 and 1868, is proved by the official statements of the State Treasurer. Mann may have done some work, but \$30,000 ship Auditors are being prosecuted and fined | would be enough to pay him for several years ccupation, yet this work (whatever it was) was all done in 1868, and without interfering with Mr. Mann's other occupations! Williamsport is a dull place for any kin of business except lumbering and marketin

and the fact appears as boldly from the advertising columns of its newspapers a though it were directly stated. Hence if any body wants any thing he thinks he may get there it is necessary to write for information, to an editor or somebody else, who may or not go to the trouble of ascertaining and answering. The Gazette & Bulletin publishes a letter of this sort as a sample We refer to this subject merely to impres upon business men every where that adverising not only pays them directly, but is of mmense advantage in presenting the business facilities of any town to the public and thus drawing profit to it. Business men and manufacturers every where, and energetic men in quest of business places, universall, judge of the desirability and capacity of any town for business purposes, by the advertising contained in its local papers. Thus, taking towns in the same locality, Lock Haven, with half the population, and much less than that proportion of the lumber trade is a better place for any kind of business than Williamsport and this fact is illustrated in the advertising columns of the local papers. So it is every where. Therefore wher the business men of a town fail to advertis extensively, they diminish the importance and trade of the place, and permit the more enterprising localities to take the latter from them. Although done for their individual interests, advertisers should be looked up on by citizens of the towns where they reside as in some sense public benefactors, and other politicians of the district no doubt behould be encouraged accordingly. On merchant who advertises extensively is worth more to his town and its people than forty who never show themselves in print, and should be for this reason alone preferred. assuming that he is of course a fair business

The Republican papers have for some time been crowing lustily over a statement that at the recent Democratic county convention in York Judge Black had been beaten, "repudiated," or something like that. The York Press indignantly denies the statement, asserts that there was no issue involving Judge Black or in which he felt an interest, that at the time of the convention and for weeks or Conkling saving it is all nonsense, for previous he had been absent from the county attending to important public business in adjusting the State line between Maryland and Virginia, and that he had never taken any part in a York county convention. A New York Herald reporter interviewed Hon, Fernando Wood at Saratoga, not long ince, when the following language was used "You believe, then, Mr. Wood, that the Republican party is doomed to retire from power at the close of President Grant's term of office?" was the question suggested by the last remarks.

Fernando Wood .- "I believe Republicansm is dead and gone with the temporary causes which called it into existence. I do not regard it as ever having been entitled to the name of a party. The Democratic party is a portion of the history, I may say of the institutions of the nation. Its mission has dependent upon commercial pursuits must been and will continue to be the preservation of a government of the people. It has exist ed in times of prosperity and in times of misfortune, in sunshine and in storm, through good report and evil report, and has survived o see its ephemeral opponents one by one pass out of existence and almost out of memory. In the rebellion we were all rebels, it was said. Yet we will still live to guard the onstitution, to shield the life of the repubie, to crush out treason and corruption, which, if left unchecked, must sap the founations of free government. Republicanism, repeat, never attained the dignity of a party. It was a conspiracy—the conspiracy of a few men who found followers in fanatics blind enough to believe in their sincerity and in guerillas who looked to success as the rateway to license and plunder. The way gave it the opportunity to rob at its will, to nrich its followers and to outrage liberty. It suddenly found its power unlimited and alost unquestioned and its patronage increased to proportions never dreamed of in our former history. While these things lasted, the conspiracy lived and flourished and the mob that followed it ran riot in the States. When the elements that produced it disappeared, Republicanism evaporated. It found othing to feed on. It had no war, no plunder, no more offices to fill, no more contracts bestow, and it died. It can no longer raise even the bugbear of the Ku Klux to frighten the timid and drive back the advancing force of a constitutional party. To talk about Grant saving Republicanism, or Blaine there is no Republicanism to save.

The Black Hills. The Philadelphia Times, in alluding to his new Eldorado, says : Professor Jenney is eminently cautious, as becomes a man of cience. His description of his gold discoveries in the Black Hills, while it is sufficient to save the reputation of General Custer, will hardly satisfy the anticipations of the great rowd of adventurers who have been rapidly astening to this promised land. Our well-paid rulers are taking the world easy and making light of the general distress. The President, with every member of the Cabinet, and many of the heads of bureaus dundered and then betrayed. The editor of the Clarion Democrat, Hon. B. Brown, after copying the statement from the treasury books showing that Wiliam B. Mann was paid \$30,067,08, in 1867 and 1868, for examining the accounts of for eign insurance agencies in this State, adds he following significant addendum: "During the session of the Legislature o

869, the writer of this article, then a mem per of the House, offered a resolution requesting the Auditor General to send in a statement showing what services William B. Mann rendered for this \$30,000, and give his itemized bill. The Radical majority promptly voted down this resolution. It was barefaced steal, as any lawyer could have examined all the books of foreign insurance agents for \$500, or less money. But because Mann was a high cockolorum in the party, and contributed liberally to the election corruption fund, he was shielded from exposure It is well to remember that at the recent Re publican State convention, William B. Mann iominated Gov. Hartranft, and made glowing speech in his favor. "Birds of feather," etc. It is also well to remember that Governo

There has been a sudden application of the brakes to the headlong movement of Mr. Secretary Bristow upon the whisky ring. Radical Exchange, That is right. The party has determined to drive all the rascals out or send them t the penitentiary.-Look at the clean sweet the Democrats made in New York. "The Boss," Tweed, in the penitentiary, and all the other regues have fled to Europe,-Look at the notorious corruption in Philadelphia Pittsburg, Washington and other cities gov erned by Radical rogues. Who is expelled? Not one. The corruptest gang that ever in fested any city, has ruled the National Capi tol for over five years, and have stolen mill ions; yet no one has been punished .- Clearfield Republican.

The friends of Hartranft say he has made "good Governor." If dear things are good then we admit it, for certainly he has been the most expensive individual that ever occupied the Executive chair of the State. We prove it thus: In 1859 the salaries of the Governor, the Secretary of the Commonwealth, the Deputy Secretary, clerks, messen gers and contingent expenses, footed up only \$16,176. In 1874 the people paid \$28,018.26 alone for the clerks, messengers and contingent expenses. Add the Governor's salary of \$10,000 and we have the gross sum of \$48,018,26, or \$21,843.26 more for the honor etc., for the various departments, and for the of having John F. Hartranft at Harrisburg than it cost to have a gentleman like Wm F. Packer. This is one of the things Chairman Hoyt did not "point with pride" to in his recent address.—Exchange.

The following is the oath that all judicial State and county officers must take before en-

tering upon their public duties: I do solemnly swear (or affirm)that I have not paid or contributed, or promised to pay or contribute, either directly or indirectly, any money or other valuable thing, to procure my nomination or election, (or appointment) ex-cept for necessary and proper expenses expressly authorized by law; that I have not knowingly violated any election law of this Commonwealth, or procured it to be done by others in my behalf; that I will not know ingly receive, directly or indirectly, any money or other valuable thing for the performance or non-performance of any act or duty pretain-ing to my office, other than the compensation

The Pittsburg Post asks and answers this mestion: Does any body doubt that the Republican party is rotten to the core? Why, corruption has extended from the center to the circumference. Rings rule the Government, hold the President with a strong grip, own members of the Cabinet, shape legislation, and subsidize subordinates in is routed and the Administration changes ism and all connected with it by the success of the Democratic party.

All quiet in Europe, except that provinces over which Turkey exercises jurisdiction are in revolt, because of excessive taxation, and the Spanish factions are still fighting. In the former case, Russia, Prusia, Austra, and Great Britain are taking some Christians and Jews, who protest against further Mahommedan taxation or control. The advantages so far seem to be with the

The domestic war in Spain probably i near its end, the Carlists being every where defeated and demoralised. The Madrid government finds itself strong enough now to despatch more troops to Cuba, to suppres the insurrection there,, which has now existed for about seven years. The greate part of the island is in possession of the loose and indefensible practice as this was patriots, who will retain it in spite of Spanish reinforcements. It is time for other nations to put a stop to the struggle.

Republican editors have been telling th people that the tidal wave which swept over portion of the country last fall, wreeking the hopes of Radicalism, had spent its force and that a returning billow would repair the damage done their party. The returns from Kentucky are certainly not strong proofs of their capacity to predict political results The causes which led to the overthrow of the Republican party in many States last fall are still operating to their fullest extent, Grantisn is expelled from the public service. disregard of the rights, interests and welfare of the people, have aroused a spirit of hostility to the Republican party which cannot be appeased by promises to do better. Nothing short of the utter annihilation of the party which has so grossly abused its trus will satisfy the public mind. Radicalist has had its day. The campaign of the coming fall is a Stat anvass, involving State issues, and chiefly for the correction of State abuses, and we hope the platform to be adopted at Erie, while speaking in unmistakable protest against federal interference and federal corruption and extravagance, will confine itself to matters of State interest, for we of Pennwell understood at the time that it was a sylvania are chiefly interested that our State be rightly and honestly governed. If our ome is properly ruled we may reasonably feel certain that our representatives in the federal Congress will do their duty in matters of national legislation.- West Chester Jeffersonian.

> The Republican papers make light of the fact that the Democracy have not charged the potato bug, grasshopper plague, the Epizooty, the Duncan, Sherman & Co. failure, the Beecher scandal, and all that upon the Republican party. Because they have not been s no evidence they will not be. Ours is not the first nation thus afflicted in consequence of misrule and godlessness. Jerusalem, Babylon and Egypt are notable examples. It only since Republicanism rules and misrules that our country has been thus affiicted, and it is just as reasonable to suppose that these plagues are sent upon us as a pun ishment, as it is to suppose they were not.

THE TEMPERANCE MOVEMENT.-This orcanization is asuming formidable proportions There are now six journals in the State supporting the Prohibition candidates for Govwill not be followed by fresh activity in the ernor and State Treasurer. The board of underwriters of Williams port, on behalf of the National board, pre sented Mayor Powell, of that city, with a splendid gold watch and chain for his efficient services in bringing incendiaries to trial and conviction. The usual speeches of such occasions were indulged in, as well as usual adjournment to the dining room, for refreshments, which are naturally required after exhausting ceremonies.

The time for seeking ability, integrity and modesty in the public men of this State is coming very fast. Soon it will be the highest recommendation for official station and places of high honor that the men chosen to fill them never even sought either votes, delegates or r sion of the such cases in the future. the rule in

Philadelphia Commonwealth. The Clarion Democrat gives an apt illus

tration of the system of "saving at the spigot and wasting at the bung," as practiced under our present State Government. The advertising for proposals for stationery, fuel, Senate and House, as per act of May 16 1874, the bills for which have recently been paid, amounts to over \$8,000, while the amount of supplies required will scarcely reach \$6,000!

The expenses of Hartrauft's administration in 1874 were \$1,096,153.63. This is a little over six hundred thousand more than Curtin's cost in 1862, and it is two hundred and fifty thousand dollars more than Geary's administration cost in 1868. This is the kind of economy of which the Radicals boast. Everything heavily taxed and expenses of State and Federal governments on the increase !- Ec.

If a State Treasurer keeps two millions of dollars of the people's money in banks at at an annual rate of interest of four per cent, it is easy to see how a few years in office would enable him to amass a fortune, It's a good thing the people have put on their thinking cap, and the next election will put an end to that kind of business.
