where prevalent, and yet we are in its first stages. Sheriff's and constable's sales are numerous now, but if specie is to be paid in 1879 or the debt is to be paid in 1880, it is hardly just that contracts which were based upon our existing currency averaging in value but 57 cents, should be paid in coin which is now worth \$1.16, and which will be much higher when the demand for it arises. Again, if I would pay my note for \$100,000,000 in specie payments with \$180,000,000 of specie and \$800,000,000 of currency? It is simply impossible. Resumption should be our objective point, but in such a manner and at such a time as will not ruin the country. Cassius M. Clay said he would not have turned Tory during the Revolutionary war because a Continental Congress issued paper money, and I would not turn Republican today because some of their leaders are endeavoring to bastardize their own issue. It is not the issue of Abraham and know not their redeemer, we cannot be held to account because we had no hand in making them.

Our position may be compared to that of a captain of a sailing vessel, who some years ago sailed to a certain port on the State and to unlawfully capture San Domingo, or get cornered in the Samoan Islands. A few others were engaged in junking parties for Grant and his chums.

And yet we have no navy. Our best vessels are such "land grabbers" as Grant, Babcock and Steinberger, who are endeavoring to capture San Domingo, or get cornered in the Samoan Islands. A few others were engaged in junking parties for Grant and his chums.
