The COLUMNIAN has creeted a large bulletin board in the Court House yard, on which will. be found the latest news from all parts of the country as it is received. Bills and posters printed at this office will find a place on the bulletin, which is in the most public location in town, and therefore the best place to advertise.

For the past two weeks accidents and delays in our office have prevented us from giving that careful attention to proof reading which is customary with us. The result has been many typographical errors, which we hope our many readers will overlook as they were caused by circumstances over which we had no control.

BLOOMSBURG, Pa., June 24th, 1876 The work cutitled "Our First Century"brings vividity to the mind of the general reader the great historic events of the one hundred years of our national existence in a compact and interesting form. It contains a fund of intelli-gence which the youth of the land cannot so readily acquire from any other book, and so attractively presented as to beget a desire for more general knowledge of the history of the com-

----THE EVIL FRUITS OF DIGESTION .- There is no pathological fact more clearly ascer-tained than the most formidable phases of nervous disease are directly traceable to im-

AN HISTORICAL FACT .- Every agent who has been steadily selling the Improved \$20 Hinoe stead Sewing Machine for three years, owns his stend Sewing Machine for three years, owns his dwelling house, has a good account in hank, is clear of debt, and has money at interest.—the natural consequences of securing a good agency for superior goods at the lowest prices.
