#### flow She Smuggled.

"You must not smuggle anything, Elizaeth." I said. "But I've set my heart on it," said

"All women do," said I "but a man set would be little if any prefit in such a meth-

obey you, even if I do not like the duty on raise a puculiarly valuable calf it would be

But I did not like the impression of her farmers and others that they can raise, even face, she looked altogether too happy to suit their yeal calves without giving them the me ; too happy for a woman blighted in the new milk fresh from the cow. The best hope of shawls at half price, and gloves at a food to fatten a calf, without whole milk quarter of the cost. I did not feel that con-fidence in her that I should wish to feel on first two weeks, after which a little oat or all occasions in a wife, at that moment I barley may be used. A calf can be made freely confess. to weigh one hundred and twenty to one

But I packed her trunk myself and I saw hundred and forty pounds at four weeks there was nothing contraband in it, and I old, never having any new milk after the even superintended her toilette. I was pres- cow's milk was good. The oatmeal should ent on that occasion alluded to in the papers be scalded and allowed to form a thick when an English lady, who had just been re- mucilage before being mixed with the skimleased from the inquisition of the French med milk The molasses may be added custom house officers, suddenly struck directly to the milk and the whole may be twelve; and being taken back again was given blood warm. The proper quantity found to have concealed an elegant clock for a young calf is a tablespoonful of oatabout her crinoline . I did not desire that meal, the same of molasses, divided into

any such mortification should occur in my three parts, for one day's feed, added to the family. Elizabeth had nothing about that wat sus- ually increased, and at the commencement

ricions. "I shall take nothing with me that I and molasses may be added, but this should brong', there," she said, but poor Pug. Poor be cooked. At present prices, the whole Pag! I'll take him home."

Now Pug was a very small poodle who five weeks, and an early calf of the weight had died a few weeks before. And I started. mentioned will bring from ten to twelve dollars. I raised one late in the season, "Pug," said I. "You seem to have for-

gotten that Pug is dead." "No I don't said she. "I have the poor creature stuffed,"

"Peculiar taste," I said.

"It may be said she, "But I loved Pug. And, dear. I'll put a new band on your hat add to the milk. before we start, that is so rusty."

I was wearing crape for my uncle who had left me . a legacy, and it was certainly not

very fresh. "And your overcoat needs a button or two," said she. Certainly I had a careful wife and

kissed her.

"I wish I could let you do what you pleesed," I snid. "But I should not love thee, dear, so well, loved I not honor more. I can't defraud my country." And so I left her to pay our bill. When I returned the coat was on the chair, but- It is a curious circumstance that, during

tons all perfect. A new band adorned my hat, and stuffed Pog on a chair wanted to compounds, increase only about seven perbe carried. You shall take him, dear," said my wife.

He always loved you." I can't say 1 rejoiced over my burthen,

but I could not be so disobliging as to say

#### Thus we left Canada.

We passed the officers with bright records and went upon our way. How proud I was. How happy ! Blogg and his wife were with ns-a lase shawl was found on Mrs. Blogg ; Bivins' two daughters had smuggled silk. 1 looked about me with an air of conscious rectitude. Let people smile that I bore with me our stuffed Pug-our late lamented poodle. Better that than gloves that had scaped duty ; lace that had been smuggled ; velvets that were about half stolen. I never felt that honesty is the best policy and virtue its own reward before.

When we reached home I seated myself in my arm chair, and thus addressed Mrs.

"Elizabeth said I, "now you see how good my advice was. Don't you feel happier, The best piece of a fat ox (the loin) conbetter than though in some degree you were tains from twenty-one to twenty-eight perple of Mrs. Bloggs and the Misses Bivins

SCHENCH'S FULMOR: STRUP, SEA WEED TON-IC, AND MANDRAKE PILLS. These deservedly celebrated and popular medi-cines have effected a revolution in the bealing art and proved the failacy or several maxims which have for many years obstructed the progress of medical science. The fails supposition that "Con-sumption is incurable" deterred physical for al-tempting to flad remedies for that disease, and pa-tionate allotted with it reconciled themselves to death which it may approach to be unvoltable. It is now proved, however, that com amption can be cured, and that it may been oursed in a vory great number of cases owne of them appornently despr-Agricultural. Raising a Calf. A farmer's wife writes to the Germantown Telegraph the following description of her method of raising and fattening a calf upon skimmed milk. In a cheese dairy there my face against it." od of raising veal calves, but where butter "Well, well," said she, "it is my duty to is the only object, or in case it is desired to

possible: My principal object, is to show at one time to be at the ver-sicians having prononce abardoned him to his fat aforesaid medicines, and Full directions accompany each, making it not soundery measure to personally see Dr. Schrundess pathents wich their i rang examined, and fais purpose he is need solonally at his interferen-tion, to near Sixth and Arch Sts. Should they have scours give them a tea made by boiling corn cobs in water, and

## Fattening Cattle.

#### The Journal of Chemistry, in discussing

All Diseases of the Blood. the question from a scientific standpoint If Vegetine will redeve pain, cleanse, purify and cure such disenses, restoring the patient to perfect health after trying different physicians many reme-des, suffering for years, is it hot conclusive proof if you are a sufferer, you can be cured? Why is this medicine performing such great cures? If works in the blood, in the circulating third. It can truly be called the Great Blood Purifier. The great source of disease originates in the blood, and so medicine that does not act directly upon B. to purify and renovate, has any just claim upon public attention. says that poor animals consist of about two-thirds water, fat ones only one-half, in the total weight, and compares poor animals to bog meadows. It alds, that when the fattening process begins, water commeaces to disappear; and fat or suct takes its place ; and the increase in bulk during the process is largely of adipose matter. GOOD EVIDENCE. the fattening, the proteids, or nitrogenous Mr. H. R. Stevens : Dear Sir-The two bottles of Vegetine furnished me by your agent my wife has used with great ben-

cent, and the bone material, or inorganic substance, one and a half per cent. The cost to r farmer of fattening an ox is much greater at the close of the process than at the commencement ; that is increase

in bulk or dry weight at that period is much Rellable Evidence.

more costly. If it costs three cents a pound Mr. H. R. Stevens: Dear SIR-1 will most cheerfully add my testimony to the great nu ber you have already neceived in fa-tor of your great and neod medicine, Vegetine, for I do not think enough can be said in its praise, for I do not think enough can be said in its praise, for I do not think enough can be said in its praise, for I do not think enough can be said in its praise, for I do not think enough can be said in its praise, for I do not think enough and ind such bat coughing spells int it would seem as though I could never breathe any more, and Vegetine has enced me; and I do feel to thank tool all the time that there is so good a medichne as Vegetine, and I also think it one of the best medicines for coughs, and weak, sinking feel-ings at the stomach, and advise everybody to take wegetine, for I can assure them it is one of the best medicines that ever was. MRS. L. GORE, for bulk for the first month after a poor animal is put in the fattening stall, it will cost five cents the last month. If, then, a farmer consults his money interests, he will not carry the increase in fat beyond a certain point, provided he can turn his partially fatted animals to fair advantage. Far mers have, perhaps, learned this fact from experience and observation, and hence com-Corner Magazine and Wainut streets, Cambridge paratively lean beef abounds in our markets. While this is of advantage to the farmer, it APPRECIATION. is very disadvantageous to consumers of the

beef, for the flesh of a fat animal in every case is much richer in fixed, nourishing material, than that of the 'ean, and it is

CHARLESTOWS, Mass., March 19, 1869. H. R. Stevens; This is to certify that 1 have used your "Blood Preparation" (Verether in my family for several years, and this that, for scrotala or cankerous ha-mores or riseumatic affections. If cannot be excelled; and as a blood purifier and synths medicine it is the best thing I have ever used; and have used almost everything. I can cheerfully recommend it to any one in need of such a medicine. Yours respectively. MIS, A. A. DINSMORE is Russel street. never good economy to purchase lean beef. It is better to purchase the poorest part of a fat animal than the best of a lean one .--

Vegetine is sold by all druggists.

heart, I only groaned.

dear. I did not smuggle anything; but revent any woman from doing what she sires in the smuggling line. You might well try to keep the moon from rising, if they are all like my Elizabeth, and I think they are .- N. Y. Ledger.

A TEXAN'S WONDERFUL TRACES-A Texan, visiting this point, gathered around him ome of our citizens on Monday, and enter- Newfoundland dog who were on good terms ained them with some of his experiences in enough, but there had never been exhibited the Lone Star State. One incident told by any special friendship between them. The

im is as follows : You'd hardly, now, believe what I am ;ong to tell. In Texes we use raw-hide straps | dog, so that the cow no doubt came to con thougs for traces, and in wet weather they sider the dog as one of the family. One day s stretch amazingly. Why, often in damp when they were passing a butcher-shop ther at home I've hitched up two horses savage bull dog rushed out unexpectedly and drove down the hill from my house into surprise I the Newfoundland, and before he creek bottom for a sled load of wood. I could recover himself had him by the throat have loaded the wood and many times driven and was likely to finish him. The boy fled back home and unhitched the horses and the in a fright. Not so the cow. She was walk aled would not be in sight."

"How did you get the wood heme then "" saked an inquisitive bystander.

"Oh, I just tied the ends of the traces to-rether and threw them over a post, went deliberately shoved her horas under the tnocking about my work and waited till the wicked buil-dog, the enemy of her comrade, sun shone out Sometimes it would be more and flung the brute over the fence, and than two hours before that sled load of wood then quietly went on her way.-Hartford would get home, but you'd see her crawling Churast. up the hill of last, gradually approaching the raw-hide traces shrunk up into their

cent, more fixed material than the corresponding piece in a lean one, and curiously enough the worst piece in the lean animal (the neck) is the richest in nourishing material, The flesh of the neck improves very little in fattening, hence, economy considered, it is the best portion to purchase, as its value is in a measure a fixed one.

## Spring Lambs.

There is scarcely any branch; of agriculture in this vicinity that pays better and that is attended with so little risk and requires so little capital as the raising of ambs, While other meats-beef, mutton, pork and poultry-have varied much from the high prices that prevailed in war times. have sometimes ruled high, but have generally been receding figures to lower rates, attained within the last fourteen years, good lambs at harvest readily bringing from five to seven dollars per head as to quality.

From these facts farmers may learn that the class who consume high-priced meats is increasing faster than the production of them, else the price would decline. The true interest of the farmer then would be to have the earliest lambs, like the earliest chickens, command the best price As regards the kind of sheep that will produce the best lambs, opinions vary very much as upon other agricultural topics, but perhaps for symmetry of form and disposition to lay on fat, the Southdown is hardly exceed-

Jed, though the Cotswold would be preferred rits wool-producing capacities; but the ormer for fine, early and well-conditioned lambs is certainly to be preferred.

A south or southeastern exposure' is best I was prepared for anything by this time, for a sheep house, and should be amply and as she plunged her scissors into Pug's protected from west and north-west winds, which are always cold in winter, by screens "The taxidermist has stuffed kid gloves of cornfoddler, or by racks of straw, when and two sets of jewelry, and some velvet not inclosed by walls or tight weatherboards ribbon," said she, "What a shame, my Such pens should always open to the case or southeast, so that the first rays of the you-oh, how you have chested the officer !" morning will shine on the young tenants of It was no use raving. I had smuggled, the ovine pen. A small corner division, Innocently, it is true, but I was still a smug- into which the young lambs can enter to gler. And since then I have never tried to get a mess of meal or grain at their own trough, will greatly facilitate their growth. There is pertups no domestic animal that requires green food so early as the sheep
