I have dispensed Hass' Expectorant among my patients, and it has proved more efficacious than any other medicine of its class that I have been using in my medical career. And even in my own case, in very obstinate pulmonary diseases, I derived the greatest benefit from the Expectorant, I have always been very repugnant to the use of any secret nostrains or patent medicines, but the universal reputation of the Expectorant has induced me to give it a fair trial, and not only have I realized its reputed virtues and merita, but even more than my most sanguine expectations. Hophig that every one may convince himself by this own trial, and that the Expectorant may reach the thousands who may be benefited by it. SILAS W. McHENRY, Commissioners JOHN HERNER, Of JOSEPH E.
