Mr. Hiram McHenry has so far recover from the effects of his severe surgical operation as to warrant his removal to his home. His physician, Dr. B. F. Gardner, accompanied him thither on Tuesday. We sincerely hope that Mr. McHenry may soon regain his wonter health and strength.

The roof of the Catawissa railroad bridge, at Rupert, for the length of a span and a half, was blown off in the storm of Sunday last. This bridge is a new structure and was built with due regard to strength and durability, and prin cipally of iron. Not only the outer sheathing but the rafters as well were torn away by the force of the gale.

If it be true that hardship is a good school for development, then from a physical standpoint, Babies should have a growth as symmetrical as it is surprising. It would be so were they kept free from the disorders of Babyhood by safe and judicious treatment. Every one who has used it pronounces Dr. Bull's Baby Syrup the best remedy known for the complaints of earl childhood. 25 cents per bottle.

A TREAT .-- On the "Fourth" the Sunday like appearance of our town was changed by the appearance on our streets of an excellent band from Milton marshalled by Capt. Huff and led by Prof. S. A. Clapp. They accompanied a crowd of Miltonian pic-nicers to Rupert Grove, and learning that our town was destitute of amusement, gallantly walked from Rapert to give us some of their music.

People whose properties are so situated that the rear of their lots are on the side of a neighbor's premises should be particularly careful to keep their stables and other outbuildings in such a condition as not to be offensive. Every man has a perfect right to enjoy his own, but must so use it that it will not interfere with the comfort of others. A very little care in such matters would prevent what sometimes leads to unpleasantness between neighbors.

The Fourth of July passed very quietly in Bloomsburg. The places of business banks &c., were closed and the town wore a holiday appearance. There were no public ceremonies and the people devoted themselves in the main to pic-nics, of which there were numbers in the neighboring groves. There was no disorderly conduct on the streets and the holiday was the few appropriate words. Prof. Ferree was then most free from noise and disturbance of any presented with a chair by the students, and rewe remember for years. There was a ball at sponded neatly. sideration, we believe "the anniversary of &c.," the school, which was accepted by many friends most innocent kind of editors have been killed was a very sensibly observed national holiday. of the students.

Swiftly to its close another year has passed, and again the clitizens of Bloomsburg and the surrounding country have been called upon to witness the ending of the school course of a Voung Treasurer, H. C. Bittenbender.

Catawissa claims posed to be prepared to enter upon the cares and doties of life. The class numbered twelve, and we are informed that they passed very creditable examinations. On Thursday morning of last week at half past ten the commenceunt exercises of the class of 1877 were opened with prayer by Rev. G. D. Gurley invoking Divine blewing upon the institution and upon hose about to go forth from its walls. Owing o the illness of Dr. Criswold, the principal, and the unavoidable absence of Judge Elwell, President of the Board of Trustees, Col. J. G. Freeze oresided. After the prayer the junior class

sang a chorus, and were followed by Miss Belle Saydam with salutatory addresses and an essay entitled "Introspection." Miss Nora Robbias read an essay on "Action." A piano solo by Miss Annie Sloan followed, which was executed with much expression, reflecting credit on the player and her careful and skillful instructor. Prof. Hoffman, and Miss Annie was rewarded with applause and bouquets.

Albert Schloyer of Nescopec Luzerne county, lelivered an oration, having as his subject

'Our privileges and responsibilities." Miss Lillie Hepler of Tunkhannock, Wyoning county, read an essay entitled "Our boat is

J. S. Grimes of Lightstreet spoke on "The inence of the teacher." He said that the prossion of a teacher is second to none. Th octor or lawyer or any other professional man would not attempt to perform his duties until he had spent years in preparation. So the acher should be fully prepared for the position. He should be able to appreciate the tru he beautiful and the good. The character of he pupil is fashioned to a great extent by the walk uprightly and be free from all evil habit

troy the foundation of a nation's liberty. Prof. Hoffman delighted the audience with is performance on the piano of a Grand Fan asie by Wilmers entitled a "Summer day in Norway." This piece was played by the Professor in public once before, and was repeated on this occasion, by general request. It is selection of a very difficult character, and as to its execution it is sufficient to say that it was greeted with a burst of applause, and several ndsome bouquets were bestowed upon the blushing Professor, who gracefully acknowledges the compliment of the audience. As he took his seat another round of applause informed him that his hearers had not yet done with his services, and he finally yielded and gave as

an encore, "Longings for the scashors" by the sam-Col. The young ladies of the class were all dressed n white with kid gloves and slippers and all ooked sweet and pretty, but we must say that we should have admired their taste much more if they had followed the precedent established y the class of last year, and worn pretty but nexpensive dresses instead of the elaborate and extravagant toilets usually worn on such occa-

The Normal Hall was filled with an attentive andience from the town and county. On the stage sat the Trustees, Faculty, clergy of the town, and the Communax representative We have no criticisms to make on any of the exercises, and have been unable, owing to want of space to give a synopsis of more than one of two of the efforts, but a single suggestion we hope will be pardoned. It is this, that it has ome to be the fashion in this and other schools o have in the calofictory too much leave taking nd farewelling. It is too upt to excite the feelings of the tender hearted, and scenes is

responded. Col. Freeze then conferred the degree of Bachelor of Elementary Didactics by present ing the class with their diplomas, with the fol-

lowing remarks; In the absence of the Principal, and of the President of the Board of Trustees, I have been requested to deliver to the graduating class, the diplormas which have been awarded to them by the State Examining Committee. I shall no weary this audience nor you by any extender remarks. If at this stage of your life and edu cation you have not learned that success it business and eminence in the professions atten-only upon labor and study, nothing that I can only upon later and study, nothing that I can now say will impress upon you that most important fact. "In the sweat of thy face shalt thou eat bread," was the fast of the great Lawgiver, but the bread of industry is sweet, and the zest of labor is elysium. But remember, they can only be enjoyed together. The world is waiting for good men and good women, and when you enter it, I trust it may be the better, because you have lived.

A reception was held in the evening in the school parlors which was largely attended and much enjoyed. The entire proceedings were very satisfactory and we have every reason to e proud of the Normal School. Dr. Griswold is improving in health, and it is hoped that after the summer vacation he will be sufficiently recovered to attend to his duties again. The next term begins about September 1st. It is stated as a fact in the history of silver production, that wherever in any part of the world silver mines have been worked they are worked now, unless arrested for some explainable cause. The mines of the Andes have been worked for three centuries. Those of old Spain from the middle ages and are in working condition now. In Hungary the same mines worked by the Romans before the birth of Christ still yield their steady increase. Those of Freiberg in Saxony, worked from the eleventh century, know no diminution. In Bohemia, Tyrol umerous friends and admirers on leaving the Norway and Sweden, in the Ural and Atla-Mountains, and wherever, else discoveries of silver have been made, we believe, without exception the mines continue to be worked and are generally more productive now than at any time in their past history.

> DYSPEPSIA. DYSPEPSIA. DYSPEPSIA. Dyspepsia is the most perplexing of all human atl-Dyspepsia is the most perpicating or all human alt-ments. Its symptoms are almost infinite in their va-riety, and the forforn and despendent victims of the disease often macy themselves the prey, in turn, of every known malady. This is due in part to the close sympathy which exists between the stomach and the brain, and in part also to the fact that any disturbance of the digestive functions necessarily disorders the liver, the lowest and the nervous sys-iem, and affects, to some extent, the quality of the broad.
