The following from the Chicago Times indicates that the militiaman of the Illnois variety is not greatly admired in his own locality; "A militiaman is one entrusted with a gun and some cartridges who goes about hunting for a rioter to whom they may be handed. Dear Sir—It gives me very great pleasure to inform you of the benefit received from the use of Partylas Syrke in my own family. My write for the peat ten years has been in feedble health-very much debilitated generally. Last spring she concluded to try a bottle of Pfarkvias Syrke, and was so well pleased with the result, continued its use until three or bottles had been used, and she is now in better health than any time for ten years, and has increased in weight from 110 pounds to 195%. I have employed physicians and used a great many varieties of patent medicines, to the extent of hundreds of dolars, and I know she received more benefit from the Prentylas Syrker than all the rest together.

My sales of the syrup are very large and constantity increasing, and I do not healthet to recommend so good an article to suffering humanity.

Yours truly.

Bear Sir—From early youth I was in feeble health troubled with humor in my blood, weakness and debility of the system generally; was unable to labor much and only at some light business, and then only with great caution.

Seven years ago the past spring I had a severe attack of diptheria, which lett my limbs parairzed and useless, so I was unable to waik or even sit up. Noticing the advertisement of Pinkevian Syntry I could not give it a trial, and to my great Joy soot found my health improving. I continued the use of the Syvter until three bottles had been used, and was restored to complete health and have remained so to this day.
