or Philadelphia. Accommodation train runs betw Catawissa and Williamsport. TO OUR DESTORS.

It is not at all pleasant to be constantly cal ling on those who owe us, to pay up, but it is an absolute necessity. You have received no tice after notice to which you have paid no attention whatever, and it therefore becomes our duty to inform you that on the 1st of October many of you will owe us for two years subscription, as our advertised rates \$2.50 a year when not paid during the year, or \$5,00. To all those who pay up before October 1st we will make a de-Juction of the extra half hollar, making it \$2.00 a year, but all that are not paid by that time will be charged in full \$2,50 a year. You can save a dollar by paying now. To all those who are in debt to us for advertising and job work we say your bills must be settled. Many of you have waited six months and some a full year without paying a cent, and we can wait no longer. After October 1st interest will be charged on all accounts over ninety days old,in full after that time. There are a number of a counts that will be placed in a justice's hand for collection if not settled of once.

Our reason for this is that we have a large pe neal to make on the Continuan office on the 1st of October and must therefore collect some of the thousands of dollars standing on on books. If we do not meet our obligations when they come due, we will be put to costs and tros ble, and this we are not willing to do, when we have on our books several times the amoun needed to pay all our debts,

TWO THOUSAND DOLLARS must be raised by the time mentioned, and this appeal does not bring it, we must try somthing else for WE MUST HAVE MONEY.

#### NEWSPAPER CHANGE.

Mr. T. B. Fielders, who has been on the Herald for the past two years, is no longer on its staff, and is about making arrangements for situation where he may have a more extended of the service you could hear a pin drop in field for display of his abilities as a newspaper reporter. He is an able correspondent, can get news when there is any to be had, writes i up in an interesting and attractive style, and he will prove a valuable addition to the staff of my paper he may connect himself with. donk Herald.

Mr. Fielders has visited Bloomsburg, made many friends while here. We wish him success in his new field of labor where ever that may be. He is an able correspondent and the Herald will greatly miss him.

TRADES FOR THE BOYS AND GIRLS.—Superntendent Wickersham, of Pennsylvania, in the cent meeting at Louisville, said of technical education: "I have seen large classes come out of our high school and go back home without a defendant, ualification for anything. Our people are partright in saying that the common schools are T. J. Vanderslice's, reporting against a road, ing what they should for the common people t would not be a bad thing if half the time of he girls were taken up in learning sewing, telgraph, wood-carving and other arts of like naire. I believe that it is practicable that the vork for girls may be divided in this way. With boys the case would be more difficult, but we find in Europe that they do the same with oys. I am not sure but that if half the money expended in the schools of our cities were exended in the erection of shops to teach the oys and girls trades, it would be better."

A NEW SWINDLE -- Our readers in the country districts should be on their guard against the thence swindler." The plan is to offer to give the farmer 50 rods of new fence, if he will out it up along the road were it will be seen, nd serve as an advertisement, and the farmer to have the sole agency for the town, and to be paid a handsome commission upon aft or-ders he may take. The farmer accepts the proosal, and the agent tells him that it will take wo coils of wire, for which the farmer willingsigns an order. In a few days a strange omes along to collect a bill for wire fencing and wishes immediate payment. The farmer explains that he put up the fence as an adversement and was to have it free. He is told that he was to have 50 rods free, but he has or dered outright 150 rods, and must pay for this at four cents a foot. If the farmer is timid, he settles with the chap somehow, perhaps gives als note for \$200, to pay for the wire he did not order. When he comes to examine his wire, he finds that he has 200 rods of wire, which will only make 50 rods of fence, four strands high, and in due time learns that his note has been discounted at the bank in the

There are thousands Turnbach & Hess. A firm hold of her own money and property, se that if misfortune overtakes her husband sile may have something she can safely fall back on in her hour of trial and tribulation. We conb point out a dozen of such unfortunate women n a small circle, and such is the case all over the land. With confidence in their husbands during seeming prosperity, they gave every time when they can least afford it. We caution every woman in the land not to part with the litle to her own money and property, but to hold it in safe keeping for a rainy day.

A NEWSPAPER'S FUNCTION.-In a recent speech of an attorney in a libel suit, the following language occurs: "There has grown up a sort of common law of obligation, recognize autually by the press, as distributors of useful stelligence, shall inform them, as well what is to be avoided as what is to be sought as well who is to be suspected as who is to be confided in. And a newspaper, gatherer and distributor of news, is a public onitor, and it is its duty to admonish the peode against frauds and shame, and imposture and dishonesties. An oriental traveller describes this busy scene, witnessed on historic shores: "Our steamer landed on a beach which was the port of An tioch, where the disciples were first called Christians.
