Last week Thursday while a band from a ood in front of G. A. Clark's book store. All this was in plain sight of the band and yet while it appeared evident that there would be a runaway, the drum was beat and the horns tooted just as loud as ever. Of course that ine had to be finished if it killed somebody.

way were returning from a meeting of the Catawissa Masonic Lodge, they met a freight train of riety constantly on hand at his store, cars at the narrows above the Catawissa depot. Despite the efforts of the three men, the horse that of nanaged to get away and started on a run towards Bloomsburg. Mr. Brown was cut considerably about the face, and somewhat injured by the buggy wheels passing over his body. The horse was captured above Boon's by Mr. Paxton, and at the time was walking leisurely wards home. Strange to say he was but little oggy did not receive a scratch.

Shor Himself.—G. W. G. Waddell, recently chief clerk in the office of Auditor General Tomple, shot himself, at his home, in Waynes burg, Greene county, about noon yesterday. A dispatch received in this city during the afternoon stated that Waddell could not possibly survive the self inflicted injury. Waddell, it will be remembered, behaved very badly during the last few weeks of his residence here, and was arrested and locked up, while under the influence of liquor, for threatening to kill his wife. He was subsequently placed in Kirkbride's asylum, Philadelphia, by his friends, and was afterwards released upon a writ of habeau corpus.—Putriot.

Mr. Waddell was formerly the law partner of Auditor General Temple. He was a young man of ability, genial in his manner, and uni versally liked. But the allurements at Harrisburg overcame him, and like many other young men he has fallen a wreck by the wayside. Our deepest sympathies are with his wife and children.

The ommission of damages to B. F. Savage in list of road damages published two weeks or piano. Why none were entered we do not ago was not intentional. It was in the copy furnished and was omitted by mistake by the compositor. The proof was read at the comsioner's office and was not revised by our proof reader, so that we did not discover the mission. This correction would have apseared in last weeks issue, but we were too usy at the time the letter was received in regard to it, to look it up. The damage allowed Savage was \$140.

ROAD DAMAGE EXPLANATION.—The reason for the omission of the road damage assessed to B. F. Savage in Jackson township has already dend of two per cent will be declared on the been explained, and it will be seen that it was not intentionally done. And I will add that as soon as I learned the amount of damage allow As an apple raiser, Aaron Smith, of Hem- ed to Mr. B. F. Savage in a conversation lock, is far ahead of all competiors. He had with two of the viewers I stated to them that his several splendid specimens on exhibition at damage was too much. I said the same thing the late Fair. One apple which he presented to Mr. B. F. Savage. As to the road being opened, I was slightly in error, but it is being opened. The supervisor expected to open, on a ertain day, the entire road, but did not suc ceed in getting through entirely. As no damage has been paid to any persons along said road, the County has for that suffered no injury. SILAS W. McHENBY.

The subject one of great importance to all persons but specially so to our young men. An instituion of this description would supply a want that has long existed in our town, and it would be most beneficial to have a Reading Room well supplied with the leading Newspapers and Magzines where many an hour might be spent in tend of loafing on street corners.

I was for many years connected with an in titution of this kind, and can look back with s comfortable well supplied Reading Room. I trust this matter will not be allowed to drop, but that some gentlemen of our town will take it up and start a Reading Room, towards which I would be happy to subscribe.

THE COUNTY PAIR.

Last week Wednesday the Columbia county
Fair opened. The day was pleasant in the morning, but in the afternoon it clouded over, and towards evening began to rain. Thursday opened with a bright prospect, and a large crowd gathered at the grounds in the afternoon, but about three o'clock it began to rain again, and continued nearly all the balance of the day. At two o'clock Prof. James Calder delivered a very interesting address from the judges, stand. The andience occupied the pavillon. On Friday the people began to pour in from all directions, and the grounds were througed all day. Over 8000 tickets were soid altogener. The total receipts were over two thousand dollars.

[COMMUNICATED.]

MESSES EDITORS :- In last weeks issue of the Republican I noticed a communication from an anonymous person or persons, "X. Y. Z." "who have been over the ground, and know whereof they speak" in relation to the estimate I furnished you of the cost of constructing water works for the Borough of Bloom-burg. They dont know from what point to attack it, but undoubtedly as they are "kickers" they "squea l' ecause I criticised a survey which was made by Mr. Neyhard, and submitted to me to base my estimate upon.

"They say that the survey in the first place as laid had reference to the shortest practicable istance, secondly the most favorable grades, and thirdly the best alignment" which of course must be the shortest distance. And as I have a map and profile of that line showing the course and distances as well as the elevation of all the ground passed over, I trust I ought to be a judge of the adaptedness of the line as surveyed, for a line of water pipes and would now may that it is not only unsatisfactory but impracticable and would be denounced by any person who knows anything about the practical con struction of water works for as I said before the elevation of the ground in several places come within 14 feet of the elevation of the starting deasure on the many pleasant hours spent in point or elevation of the dam. That being the case the hydraulic grade is totally destroyed, and the hydraulic grade being destroyed there could be no discharge, and there being no discharge of water into the Borough of Blooms burg the line of pipes would be useless and this would be undoubtedly the case if they were laid upon the line as located by said survey. And hence the line does not establish (a claimed by worthy X. Y. Z.) the shortest practicable distance, nor the most favorable J. W. Evans, Assignee of A. Miller will sell grade, because the grades are impracticable, real estate in Berwick on October 20th, at one but by the contour of the ground as shown by said map a line could be located which would not be any longer or if so very little and at the I hope that such a line may soon be established and prove satisfactory to "X. Y. Z." that the will sell real estate in Orange township on Oc- supply is addequate, the source favorable and the works are a grand success.
