

THE COLUMBIAN.

BLOOMSBURG, FRIDAY, AUGUST 9, 1878.

Rail Road Time Table.

Table with columns for destination (LACKAWANNA & BLOOMSBURG, BLOOMSBURG & CATASAUQUA, etc.) and time.

CAMPION COLUMBIAN.

We will send the COLUMBIAN to campaign subscribers from August 14 to November 15th for 40 cents.

DEMOCRATIC COUNTY CONVENTION.

The Democratic voters of the several districts of Columbia county will meet at the usual place of holding the general election, on Saturday the 10th day of August 1878 between the hours of three and seven o'clock in the afternoon and elect delegates by ballot to represent the districts in a County Convention to be held at the Opera House in Bloomsburg on Tuesday the 13th day of August 1878 at 11 o'clock a. m. to place in nomination one candidate for Congress, one candidate for State Senator, two candidates for Representatives, one candidate for Prothonotary, one candidate for Register and Recorder, one candidate for Treasurer, and two candidates for Commissioners, and to transact such other business as the interests of the Democratic party may require.

Also at the same time and places and in the same manner the Democratic electors of each district will elect one person to serve as a member of the County Standing Committee which will meet immediately upon the adjournment of the Convention.

By order of the County Committee.

DAVID LOWENBERG, Chairman.

APPOINTMENT OF DELEGATES ACCORDING TO VOTE FOR GOVERNOR IN 1876.

Table listing names of delegates and their respective districts.

By rule the ratio is fixed at 60 votes for a delegate, but no district to have less than two or more than four delegates, and allowance is to be made within those limits for the largest fraction of a ratio.

Bloomsburg July 19, 1878.

The trout fishing season has closed.

The Orangeville Academy will open next Monday.

A number of our people are at the Mountain Grove camp meeting.

W. H. Snyder County Superintendent, has entered his name as a student at law in the office of E. R. Heller Esq.

The residence of Samuel Turnbach on East street has been greatly improved in appearance.

John W. Ryan Esq., received the Democratic nomination for Congress at the convention last Monday at Pottsville.

The Bloom furnace started up on Tuesday. Extensive repairs have been made, and the work was done in an unusually short time.

It is not an unusual thing to see lanterns on the streets at night now, since the economical gas contract went into effect.

A new ticket office has been erected on the Fair grounds, and the fence has been rebuilt. The grounds are now in good condition.

The water works question is lively. Persons having the matter in hand are sanguine of success.

Thomas Chalfant, the senior editor of the Danville Intelligencer is writing some very interesting letters from Europe to that paper.

A picnic was held in Knorr's Grove at Ruport yesterday (Thursday) which was largely attended, and generally enjoyed. The party went down on a canal boat.

E. H. Little Esq., coughed up a shot on Wednesday night which has been in his lungs for 31 years. This makes the seventeenth that has come out in a similar manner.

The date of the sale of personal property of J. McDowell, deceased, at Lightstreet, is Saturday, August 17th, instead of Wednesday, August 17th, as published last week.

The carpenter work on I. W. McKelvey's new building on Market street is completed, and W. F. Bodine will have the painting done in short time. He is doing some excellent work.

The Buck Horn Band passed through town on Thursday morning, in Reiskew's Band Wagon on their way to Lightstreet to attend the Harvest home. They made a fine appearance and good music.

Bloomsburg is one of the pleasant towns in the state to visit during the summer. City people can find excellent hotels, good lodgings, fine driving, fishing and boating, charming scenery and agreeable company. With proper management our town could be made a popular summer resort.

FOR RENT CUPAY.—The first class office in the COLUMBIAN Building, heretofore occupied by N. H. Pank Esq. It is partly furnished. Apply to C. B. BROCKWAY.

June 5 3c.

Joseph Townsend, trustee of the estate of John Townsend deceased, will expose to public sale on the premises on Saturday, August 17th 1878 at 2 o'clock p. m. two tracts of land in Medicine Township, one containing 61 acres, all improved where is erected a frame dwelling house, barn &c., the other containing 12 acres. The terms of sale are the usual terms of the Orphan's Court.

LAST SUNDAY.—Rev. D. J. Waller Jr. preached in the Presbyterian church in the evening.

Rev. J. H. McGarragh of Berwick occupied the Methodist pulpit morning and evening.

Rev. Mr. Fessenden, of Catawissa, held services at the Episcopal church in the evening.

Mr. L. N. Moyer, of Dover Bros., introduced us to the laboratory where Dr. Bickley's medicine is made, last week. They are prepared to do an extensive business in this line, twenty gallons of one preparation being nearly ready for market. On inquiry we were informed that a keg of ten-penny nails were not intended for the manufacture of Bickley's Wine of Iron.

John Keleher of Centre township showed us a specimen of his cat fish last day.

One which measured six feet seven inches from the root to the tip. It may be seen on that, bring it on.

It is reported that Hon. John B. Packer has employed Ben. Butler, of Massachusetts, to assist in defending him as executor of the will of the late Wm. Cameron of Lewisburg.

A train on the L. & B. R. R. last week Tuesday night, ran into a wagon that was crossing the track a mile north of Danville. The wagon was occupied by Mr. and Mrs. Jacob Schultz of the above named place, who were thrown out and the latter quite severely hurt. It is thought Mrs. Schultz's injuries may prove fatal.

The Board of Examiners in their last report, say of Wyoming Seminary: "It affords us great satisfaction also to make mention of the diast pline and morals of the school. Although the past year has been noted for disastrous happenings, the Seminary has maintained its position as the best of the kind in this State. The government of Wyoming Seminary has commanded such respect from the large number of students in attendance that the standing as to the department in nearly every case reached the maximum number of 100. First class teachers are employed in all the departments. Normal and College preparation courses complete. The total expense in Seminary for Fall term, \$54. For a four months course in Book Keeping and business, \$108. Next term open Aug. 28th. Send to Rev. D. Copeland, D. D., for a Catalogue, Kingston, Pa.

PERSONAL NOTICES.—A large number of our exchanges contain weekly long lists of persons concerning the doings and whereabouts of every body and their friends. We have not adopted the practice because much of the matter thus published is not of general interest. Below is a sample of what we might print in accordance with the prevailing fashion:

Miss Q. has just returned from Buck Horn. The blue wart on her nose has perceptibly diminished.

Mr. X. of Port Noble, spent a few days in town last week. (In jail.)

The accomplished lady Mrs. Soapwalk called on a number of friends on Wednesday, but did not find them in. (Washwoman with bill.)

Mr. Z. and family are stopping for the present in Mt. Pleasant, (at the Poor House), and so forth.

Don't you see how interesting it is?

HIRING HORSES.

The case of the young man who hired a horse in Patterson on Easter Monday to drive four miles to Little Falls, but drove ten or twelve miles further to the great injury of the animal, has attracted considerable attention on account of the supposed novelty of the decision that this was an unlawful conversion of the horse to the hiree's own use. This is said to be a new doctrine in the Courts of New Jersey, but it has been distinctly asserted in at least one instance within our knowledge, by the Supreme Judicial Court of Massachusetts. In 1873 that tribunal decided (Perham vs. Conroy, 117 Mass. Rep. 102) that a person hiring a horse to take to a place agreed upon, but driving him beyond it, was guilty of conversion, and was liable for any subsequent diminution in the value of the animal, even though it proceeded from some infirmity of the horse himself. It would be well for people who hire horses to keep these decisions in mind.—N. Y. Sun.

MONTHLY WEATHER REVIEW FOR JULY.

The following is the Meteorological Summary at Catawissa, for the month of July 1878, compiled from observations by W. G. Yetter. Barometric pressure—Highest reading on the 12th, 30.27 inches; lowest reading on the 26th, 29.05 inches; monthly mean 30.02 inches; monthly range 0.22 of an inch. Temperature of the air—Highest reading on the 18th, 95° degree; lowest reading on the 24th 55° degree; monthly mean 76° degree; monthly range 40° degree; greatest daily range on the 7th, 29° degree; least daily range on the 12th, 6° degree. Moisture—Mean relative humidity 73 per cent; number of days on which rain fell 12; amount of rain fell 3.92 inches. Wind—The prevailing wind was from the west and the highest hourly velocity during the month was 45 miles from the northwest on the 22d inst. Thunder storms occurred on the 4th, 8th, 9th, 10th, 12th, 15th, and 21st, the latter were accompanied by hail and strong wind.

If there has been more nightly lawlessness on the streets than ever before during former administrations, the police force ought not to be blamed for it. Heretofore the Chief of Police has had authority to call out the police force whenever it was necessary to maintain peace and order, and when this was done the officers were paid for their services. Now we have a new order of things. The Chief has been informed by the President of the Council that no pay will be allowed for night service unless the officers are specially ordered on duty by the President. The result is that when a row occurs at night while the President is asleep, the police are at home in bed, and the Chief has no authority to call them out. If they stay at home half the night of their own accord to preserve quiet the town authorities will not pay them. Under these circumstances, when the slumber of citizens is disturbed by midnight drunkenness and fighting let the blame be put where it belongs.

Since the above was put in the Town Council has authorized the Chief of Police and Town Constable to call out the police when necessary, and directed that they shall be paid for their services.

Simon Shive, the so-called street commissioner has resigned, and there is not a baker's dozen of voters in the town who will regret it. While he held the office his main object was to get money in his own pocket. He refused to allow many tax payers to work out their taxes with their teams with the excuse that he had not work for them, and then did the labor with his own team, and drew the money for it. He employed men on the roads who would take their pay in store orders on merchants who rest of him, and then take up their own orders himself and pocket the cash. He quarreled with the men under his control, and also with those who appointed him, which latter led to his resignation. He is an ill tempered man, and an incompetent officer. He was not to be blamed for accepting the position. The majority of the Town Council who appointed him, knew him as well then as now, and his election was not on account of competency, but for the same reason that most of the appointments were made: a service at the polls at the spring election. They discovered their mistake soon after they made it, but had not the courage to acknowledge it by discharging him long ago. Having made so many blunders in their administration they were ashamed to admit this one, and waited in hope that one of the minority who voted against Shive would move for his discharge. But in this they were disappointed. Those who put him in must get him out. A dispute with the President led to Simon's resignation and relieved them of their embarrassment.

Samuel Shaffer Jr., has been appointed to fill the vacancy, and we have no doubt will make a very acceptable officer.

HIS OCCUPATION GONE.

Had the Arkansas "doctor" that "tapped" the fat man, thinking he had dropped, but finding no water present, it is "dry drops." It is today, he would, like Othello, find "his occupation gone," for Allan's Anti-Fat, a purely vegetable remedy, safely, but positively, reduces corpulence at least from three to six pounds per week. Sold by druggists.

COUNCIL PROCEEDINGS.

AUGUST 7th. The regular monthly meeting of the Town Council was held in the Council Chamber. All the members present. Minutes of last meeting read and approved. Building permit was granted John S. Steiner to erect a building on the corner of Third and West streets.

A petition of the Bloomsburg Gas Company asking to be exonerated from town tax on the ground that their property is not by law taxable was presented and referred to the Solicitor. Committee on engine house reported that the present room could be had for \$25 a year. Report was accepted and the committee discharged.

Bill of Jas. Thomas, Constable, was presented, amounting to \$12.25, ordered paid. Bill of E. Mendenhall for lumber amounting to \$7.96, ordered paid.

Bill of A. C. Babb for coal oil for street lamp on Third street 98 cents, ordered paid. Gas bill for July for 31 cents, \$14.64, ordered paid.

Bill of Herman & Hassert for lock up keys \$3.15, ordered paid. Bill of Stephen Knorr for smithing from May 18th to date \$4.45, ordered paid when bill is tenured.

Bill of S. A. Petriken for rent of pound, balance due to Sept. 8th 1878 \$9, ordered paid. Bill of Jos. Sharpless & Son for balance on one lamp post \$7.50, ordered paid.

Reorganization of Street Commissioner Simon Shive was presented. Messrs. Holmes and Ellwell moved that it be not accepted. Messrs. Babb and Sharpless moved to amend by striking out the word "not." Amendment carried.

Street Commissioner's report to date was presented, amounting to \$496.65. One item was \$27.60 for Simon Shive's team. Another item was \$17.70 for Simon Shive's team. Another item was \$47.25 for Simon Shive's services.

M. W. Nuss for the Agricultural Society complained that water was turned on their grounds by a town. Referred to the President. A committee of Friendship Fire Company asked that their rent for the last six months be paid. A committee was appointed to secure rooms for the Fire department.

Jas. Thomas presented a new load on Town collector and his old one was cancelled. Mr. Ellwell called attention to the fact that the eight cent ordinance is not enforced. The President said it was the duty of the Town Constable to look after the matter.

The Chief of Police and Constable were authorized to call out members of the police force when necessary to quell disturbances, and it was directed that such officers shall be paid for services as rendered.

It was ordered that new bonds to the amount of \$700 be issued, to pay bonds due August 1st 1878; said bonds to mature August 1st 1888.

W. Girton, Newton Boone, Samuel Shaffer Jr. and John Peaman were nominated for street commissioner to fill the vacancy caused by S. Shive's resignation. Drinker, Evans, Sharpless and Herrington voted for Shaffer; Babb and Ellwell for Boone, and Holmes for Peaman. Shaffer was therefore elected. On motion adjourned.

A SKETCH OF ORANGEVILLE.

It is quite possible that some of the many readers of the COLUMBIAN, have never visited the beautiful village of Orangeville. In the romantic situation that it occupies at the southwestern termination of Knob Mountain, some miles distant from the nearest railroad depot, it is not on the route usually taken by the men of business, and the tourist searching for scenes naturally selects those resorts, which the fashion of the day and the vote of the multitude, make popular. But although comparatively unknown, this little village, nestling among the hills, is a delightful retired place for any one desiring a quiet and restful life for a few weeks, after the hard work of a busy year.

The scenery along the Fishingcreek valley is fine; and the smooth well kept roads present unusual attractions to those fond of drives, while the miles around glens and woods afford plenty of scope to the active pedestrian. The inhabitants of this cozy retreat are characterized by their genial social hospitality, to which they unite a spirit of enterprising industry, which despite the hard times manifests itself in various ways.

Improvements are being made, which, when finished, will add much to the appearance of the town as well as to the comfort of the citizens. Thanks to the friends of the Academy, a nice broad walk has been laid on Pine street. Mr. A. B. Stewart is putting up a roomy and comfortable dwelling house on Main street; and Mr. Silas Conant, with commendable generosity, has greatly beautified the cemetery by fitting up, at his own expense, an elegant gate and fence. But one of the best features of Orangeville life, is the decided interest which the people take in educational matters. They have an Academy under the principality of Prof. C. K. Canfield an active earnest worker, who is rapidly building up one of the most efficient private schools in this part of the state. At this institution, students are thoroughly prepared for College or business life. During vacation the Trustees have been making needed repairs in the study and recitation rooms, which greatly improve them. The name of W. H. Harrison A. M., has been added to the Faculty, which presents a very able corps of teachers. Orangeville Academy certainly never opened up under more favorable auspices than it does this coming term beginning August 12th, and the citizens may well be proud of this flourishing school.

OVERHEATING IN SUMMER.

All trustworthy hygienists and medical authorities are unanimous in recommending fruits and vegetables as the best and appropriate food for the season, and that the eating of much meat, rich gravies, &c., are carefully to be abstained from. And yet there is not one person in ten who carefully and intelligently follows this advice. In the hotels and boarding houses people gorge themselves with meats, gravies and pastry, and wonder how it is possible, after such strengthening meals, that they feel so weak and sick and out of sorts. With nothing but good bread and butter and a saucer of fruit for dinner the next day, the same person would have marvelled still more how in the world such a meal could give him such strength and elasticity of spirits and improved health! Dependent upon it, a very large proportion of the physical life of our country is now too much eating. There is a little danger of not eating enough. The trouble with nine-tenths of ailing and chronically complaining city people is impudic and intemperate eating. Leave off eating so much meat and greasy compounds and rich pastry, and try a simpler diet for a time, and our word for it, you will soon experience a great and marvelous change that will overcome the spirit of your dream.

The Persian Diver brings up no pearls from the depths of the sea which so appear in raucous water, but a complex beautiful by Glenn's Sulphur Spring. A stable accessory of the bath and toilet.

Beautiful Shades of Black or Brown are produced by Hill's Hair Dye. July 12 4c.

Hiram Sterling of Hemlock lost a bull about two weeks ago.

It was found a few days since in an open pit. He was so weak from the want of food that he was unable to walk, but regained sufficient strength to be able to foot it home next day. It is not known how long he was in the pit.

DRUGGERS STUFF.—How many children and women are slowly and slowly dying, or rather being killed by excessive doctoring, or the daily use of some drug or druggery stuff called medicine, but no one knows what it is made of, can easily be cured and saved by Hop Bitters, made of Hops, Buchu, Mandragora, Dandelion, &c., which is so pure, simple and harmless that the most frail woman, weakest invalid or small child can trust in them. Will you be saved by them? See other column.

NO HARD TIMES HERE.

EMPLOYMENT FOR LADIES AND GENTLEMEN AT HOME.

Our attention was recently attracted by an advertisement in another paper to "Advocate homekeepers' Seal," and the extremely low price induced us to send for one to use in our own kitchen.

We find the scale the most convenient and valuable household article we have! It is worth five times its cost, in testing groceries, putting up preserves, making cakes, etc. W. H. Thompson & Co., No. 235 Washington street, Boston, Mass., are the manufacturers, and they have the most complimentary testimonials of the Scale possible to be written. They have as yet no General Agent for this County; and as the Scales are sold exclusively by canvassers to families, we cheerfully recommend the article for the benefit of our numerous lady readers, and parties wanting honorable employment.

We would say that the "Church Journal," N. Y., Christian Union, N. Y., "Frank Leslie's Illustrated Newspaper," New York, "Church Union," N. Y., Boston "Traveler," "Herald," and "Post," had hundreds of other papers, all speak in the highest praise of the Scale, its low price, and convenience to housekeepers.

Weights up to 24 pounds, and costs \$1.50 per pair—about one half that of any other Plain Scale in the United States.

Where is the man who wants the exclusive control of our County, and thereby secure a very profitable business?

What Will Cure the Tramp.

In one respect the world lives itself over again. A few years ago it was only in romance and history that the travellers' train led before the foot-ped who took a purse, or stopped the stage coach to relieve frightened women of their jewels. It was comforting to realize that this state of things was done over, and that except in the bands of Scott and Bulwer and the historians, pages of pilgrims were no longer set upon by the robber trains. In England the outlaws who burned the farmers' ricks and the steam machinery of the mills, were supposed to be followed by a generation that knew not Chartist or the Corn Laws; and the security of life and property for the poorest and weakest member of society was counted as a mark and distinction of the nineteenth century. But the last five years have seen a change. In stead of stopping the mail-coach, the treasure train, or travelling mercantile with their wares, it is the railway train that is being followed by armed ruffians, who make way with packages of money and bonds, or take a postal car with equal speed. When this occurs on the plains in the far west, it still reads like a romance to folks in our own region, but when it happens in Connecticut it comes nearer home. When the tramps burn up mowers and reapers and threshing machines out in the West, it is time for the Grangers to take the matter up and to adopt measures of self-protection, and it becomes a serious question for all men and women, too, what will cure society of the tramp. It is a good deal easier to say what is to be done than to do it. The tramp has brought the railway train, and he knows the origin of a disease sometimes, its cure is suggested. Professor Brewer, who goes into the historical side of the tramp business, claims that he is the outcome of too lenient laws; that the human garden is just like any other garden if the weeds are suffered to grow and are not thinned out. Human weeds are cultivated in two ways—by injudicious charities, public and private, and by an easy-going popular sentiment, that pardons or excuses crimes and offences, and pushes the criminal along from district to district, to prey on succeeding communities—stratagem.

As late as 1819, England had some 223 offences punished by death. The question Professor Brewer asks is, have we not gone to the opposite extreme in a unwholesome sentiment and a weak abuse of the pardoning power, which perpetuates the evil-disposition and the vagabond to the third and fourth generation? It is a vigorous expression of the old, vindictive law, but the spirit of those laws made criminals almost as fast as they by their inquiries and multiplication of capital offences.

There is one family that points a moral under American law. What is known as the Jukes family has been traced on the criminal records for one hundred and fifty years. If the original pair of ancestors had met their deserts then, either in punishment or in being removed from juxtaposition, the two methods of escape to the active pedestrian. The inhabitants of this cozy retreat are characterized by their genial social hospitality, to which they unite a spirit of enterprising industry, which despite the hard times manifests itself in various ways.

Improvements are being made, which, when finished, will add much to the appearance of the town as well as to the comfort of the citizens. Thanks to the friends of the Academy, a nice broad walk has been laid on Pine street. Mr. A. B. Stewart is putting up a roomy and comfortable dwelling house on Main street; and Mr. Silas Conant, with commendable generosity, has greatly beautified the cemetery by fitting up, at his own expense, an elegant gate and fence. But one of the best features of Orangeville life, is the decided interest which the people take in educational matters. They have an Academy under the principality of Prof. C. K. Beautiful Shades of Black or Brown are produced by Hill's Hair Dye. July 12 4c.

After October 1st all subscribers who were on October 1st 1878 will be struck off the list, and the accounts cleared by law at the rate of \$2.50 a year.

A railroad ticket to Chicago and back for sale at this office very cheap. Good until December 31st 1878.

A MODERN MIRACLE.—It has long been stated as a scientific proposition by medical men that a stroke of paralysis is necessarily fatal.

Not thus shall be said of John Appel, of North Hartford, Conn., who had twelve, and who is to-day a strong, vigorous man? The phenomenon is ascribed by Mr. Appel to his constant application of Gillet's Linctus India. Ammonia. Sold by all druggists. Send for pamphlet. Dr. Gillet, 451 Sixth Avenue, N. Y. Trial size 25 cents.

LIVER IS KING.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, such as indigestion, flatulency, belching, and all other ailments of the stomach and bowels. It is a powerful and safe remedy, and will cure all cases of the above mentioned ailments. It is sold in all towns on the Western Continent. Three doses will prove that it is just what you want. June 7th.

IN THE WHOLE HISTORY OF MEDICINE.

No preparation has ever performed such marvellous cures, or maintained so wide a reputation, as Ayer's Cherry Pectoral, which is recognized as the world's remedy for all diseases of the throat and lungs. It has continued to perform wonderful cures in all climates, and made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the result of impure air, and acute bronchitis, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use, in the throat and lung disorders of children, make it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the Cherry Pectoral extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. FOR SALE BY ALL DEALERS. jno 1.

Charles E. Penny and wife of Bradford county, are in prison for the inhuman treatment of a little girl in their employ. The child says they tied a rope around her body, stuffed her mouth full of rags, and threw her several times into the Chemung river, keeping her there until she was nearly drowned.

Security of Water in Schuylkill County.

Pottsville, Pa., August 5.—Reports received this evening from several districts north of Pottsville represent that there is a scarcity of water, many of the streams being nearly dried up from the long drought and much trouble is caused in working the mines. In the Bear ridge collieries at Mahanoy Plains there was not enough water to work the engines and consequently 400 men and boys are idle.

The Marquis of Lorne, Queen Victoria's son-in-law, has been selected as Governor General of Canada. The appointment is hailed with satisfaction by the Canadians, who feel elated that they will hereafter have a member of the Royal family in their midst.

Marriages.
