PARIS, August 30th 1878.

All arrangements are now made for the eremony of the distribution of prizes to take place at the Palais de l' Industrie on Septemher the 18th. Seats have been placed for about 23,000 persons. It has been decided that the official procession will be formed at the Palais du Corps Legislatif, from which it

Great discontent is expressed in the foreign sections at the small number of medals that are to be awarded them. The French are to have the lion's share of the prizes and deco rations. If this often repeated unfairness were to altogether do away with the prize giving system it would do well. It is false from beginning to end. When merit is well backed by money it succeeds, and then only. A well known mechanical engineer speaking to me on this subject said : "Unless one goes into an exhibition with spirit there is nothing to be done." I asked him what he meant by "spirit." His reply was : "Why to do things in a handsome way and altogethor regardless of cost. Apart from the expenses of my stand, I have spent nearly \$15,000 in bringing my machines before the public."

sements." "Not a cent of it," he answered. "It was in lunches and dinners to jurors, to mmissioners, to Ministers, and the people connected with the press. Nobody has been coarsely bribed ; but every one thinks kindly of me, and if there is a prize going, I shall be the man to pick it up. At Vienna I spent nearly as much, and I am afraid I spent a good deal more at Philadelphia. Were I oldor I should think Exhibitions and the cost they entail a bore. But so far I have enjoyed them. I feel all the excitement of a man engaged in a race for a prize, and know that if I mind myself, and make no blunders I am sure to win." To what nation this enterprising exhibitor belongs, I will not say. I be who arrests must look elsewhere than to the lieve he told me the truth and nothing but the truth. The remains of a man found drowned at Milton on Saturday, were identified by his father as Henry Smith, from East Buffalo, Union county. He was subject to fits, and it is supposed that in crossing the river he was take with one of them and drowned. His father said he had been missing from home for about a month.

The Republican backs down squarely from its assertion about friends of Dill offering railroad passes, to secure votes for him. They threaten ed to give names of persons who had offered passes and those to whom they were offered. Last week we challenged that paper to give the names, and that challenge they pass by without an answer. Now we demand that the name shall be published, or that the Republican shall acknowledge itself guilty of publishing a de-

liberate falsehood. TWO NOTED GRAVE ROBBERS.

Our readers will remember the account gives in these columns of the robbing of the grave of the Hon. Scott Harrison, in Ohio, last May, the body being found in the dissecting room of the Ohio Medical College. Public indignation justly brands any man as a scoundrel who will rob the grave of the dead. But there are two noted grave robbers in the country, so far from being the subjects of the people's wrath, are universally lauded for their virtues. The reason is plain While the former class steal the dead bodies of our loved ones to submit them to the dis-ecting knife, these only rob the graves to restore the living victims to our hearts and homes. Their names-Dr. Pierce's Golden Medical Discovery and Picasant Purgative Pellets-are housel old words the world over. The Golden Meilical Discovery cures consumption in its early stages, and all bronchial, long and throat affections; Pleasant Purgative Pellets are the most valuable laxative and cathartic.
