STOP AND THINK!

Men are governed by impulse to a great extent, and are too apt to be led astray by new leaders and new doctrines. It is so in the Church, and so in the State. New religious sects are started because of some alleged evil in the old ones, but history shows that in all such cases new evils have arisen to take the place of those sought to be avoided. So in politics, now and then, we have a new party. Knownothingism bad its day s arted and after sweeping over the country like an epidemic have fallen of their own

To-day we have the Greenback party. A financial panic came upon the land five years ago. Industry was prostrated, manufactories were closed. The cry went up for bread, and there was none to give. In this condition of the country a few men who had been unsuccessful as leaders of the old parties saw a chance to benefit themselves. They took advantage of the misfortunes of the peopole and came forward with the cry "we can give you bread; we will start your mills and What you want is more money. Give us the control of the government and we will fill your pockets with greenbacks, and you shall live in ease and plenty." Such a bait thrown out at such a time was likely to be nibbled at and these leaders knew it. Without stopping to think how the object could be accomp lished, or what the result would be if the country were flooded with millions of irredeemable paper, many men have swallowed this bait, hook and all, and have taken up the cry, "Give us Greenbacks."

In throwing out their bait, these acute eaders saw one difficulty in their way, namely, the fact that all voters belonged to one of the two old parties, and it was therefore necessary to raise a cry against them. So they accused the old parties of having brought all this desolation upon the land, and asserted that the new party alone could save the nation. They did not stop to think that the Democratic party has not had control of the government for eighteen years. How, then, can it be responsible?

Are these leaders sincere? Look where you will, when you find a Greenback chieftain there will you find a candidate for office. More, you will find a bankrupt, who has the old parties and been repudiated by that party. They are men who have been canes for office in the old parties, and failed, and are now seeking to form a new organization where their chances will be promise to put in the mouths of others. It is their own pockets they are seeking to fill. at the expense of their dupes. What does the Greenback party propose

Why, to issue greenbacks to an unlimited extent, and make them a legal tender for all debts, this paper money to be based on the credit of the government, not redeemable in gold or silver, but to be worth just what the face calls for, because the government stamp

Stop and think ! Is the credit of the nation any better than that of an individual? If the individual has assetts with which to meet his liabilities his credit is good. If not, he is insolvent and his paper is at a discount, or entirely worthless. The government is in precisely the same situation, and the law makers cannot make its credit good by passing a resolution declaring its irremable currency to be money, any more than a merchant can make his notes good by declaring them to be worth their face value. We have not space now to discuss this sub-

We ask the Democrats of Columbia county simply to stop and think. There is no possibility of the election of the Greenback andidate for Governor. Every Democratic we cast for Mason is one lost for Dill, and consequently one in favor of Hoyt, and so with State Senator, Congressman, and Representatives. If you want Cameron returned to the United States Senate vote for the Greenback candidate for State Senator, who is a republican, and will receive the republiean support. If you want to aid Camero further, vote for the Greenback candidate for the Legislature, one of whom is a Republi-

We are now just beginning to see the enof the hard times. If you want to keep the country prostrate for another period of five years or longer, vote the Greenback ticket. If you want to flood the country with irreable currency that will put prices back where they were during the war when a dolar greenback was worth about forty cents, rote the Greenback ticket. If you want a anancial panic more distressing than this country has ever known, vote for Mason and the greenback candidates. If you want to perpetuate Republican misrule give Hoyt a yote by voting for Mason.

If you want honest government, if you want honest money, if you desire the overthrow of the Cameron family, if you want prosperity and a return to a sound financial policy, vote for Andrew H. Dill, and the whole Democratic ticket, and when you stop to think about it you will have nothing to

A Republican speaker recently said that It was treason to leave the republican party and that Ex Governor Curtin was guilty of the crime and was now knocking at the back door of the Democratic party for office. What does he call the action of his party in nominating General Beauregard for Congress in Louisiana? It was an invitation an ex-rebel to walk into the front door of the Republicans on account of their corrup-

"The bargaining for the Mollie Maguire history. Its facts are not disputed by anybody informed on the subject, and the prophthat there was an arrangement for the transyear, to say that all the buying was done by the local politicians of Schuylkill without the knowledge or assistance of any outside, This explanation, if true, might relieve the State Republican organization of the odium which such a thing must carry with it. But it is not true. It is a fact that the important question of buying this vote with money was discussed at length and earnestly by the Republican State committee in the campaign of 1875. The proposition for the purchase as presented to the committee met with bly Mr. William H. Kemble, of Philadelphis, who vigorously protested against the action, if consummated, would bring upon the Republican party. He was voted down, however, by a considerable majority of the members, and a fund of between four and control, giving to the country's candidate five thousand dollars was immediately pro-Colonel Henry M. He will not deny the accuracy of this statement weight because they were not built on a firm nor will any member of his committee of THE WORK IN ALLEGHENY. Not only was it the intention to influence to do his bidding. It is a humiliating posi-

Such men, therefore, do not ofthe Irish vote from the Democratic ticket in ten become conferees unless in behalf of Allegheny county and the bituminous mising districts surrounding, but the effort to control this vote for Hartranft in 1875 was not much of a success, although a few members were picked up. It failed because there this year, although, in a slightly different way, and with the benefit of some experience to help him. His chief instrument here in the labor of selling the whole Irish vote is Mr. J. J. Gallagher, of McKeesport, who succeeded Jack Kehoe as the State delegate of the Ancient Order of Hibernians, vote from its traditional affiliation will help the cause of Hoyt, and it is easier to get it

entirely over. THE GENERAL FEELING.

How much may have been accomplished in this direction cannot be known with any degree of accuracy, but so much has been done that the Democratic organizations here are beginning to feel the defection of the Irish voters, for the first time in the history of the party. It will not be an easy matter o overcome the trouble, but its undoing is being undertaken, as a matter of course, and the impression is that before election these people will be able to see what efforts are beng made to trade on their voters and sell them out in gangs, on the pretext of saving the life of a murderer who appears already to have made his life secure by a previous bargain. In going about among the poli-ticians of the State I have found more quiet out serious comment on this Kehoe case than suspected, and particularly among Repubicans who are in the habit of valuing the reputation of their party. At Mauch Chunk early in September, I had a long talk with General Charles Albright, who was associated in the prosecution of Kehoe, and be gave an interesting history of the case. In warrant in the case of Kehoe, it would surround the Executive with the gravest suspicion." General Albright has since been ominated for Congress by the Republicans of the Eleventh district; and the Governor has so far withheld the death warrant in the Kehoe case. There is probably not a Republican in the State who has watched the ourse of events in the matter of this leading Mollie murder but feels that the Governor has surrounded himself with suspicion ; many are free in saying so, and the use which is still being made of that celebrated eriminal, particularly here, is not doing anyhing to mend matters."

After mature deliberation we have conclu dent candidates. We have come to this con clusion on the ground that as a public jour nal it is our duty to insert all advertisements that contain nothing of an offensive character, that are offered by responsible parties. While publishing the notices of independent as favoring any movement of the kind, and have fully expressed our views on the subject. Such movements create dissensions in the party and rarely if ever, result in any good to the irregular candidate. We advise our readers to stick to the ticket as the Conven-

Hazleton, October 15 .- The Democratic Monroe met to-day, Mr. Broadbead, of Carbon, presiding. The Beamish-Trimmer party, in session at Scranton, have telegraphed among those attending the name of Bernard McManus, who has deserted them and attends here as a looker-on. Up to half-past seven o'clock the conferees had balloted 230 times. A recess until 8 o'clock was taken, The vote stood generally 9 for Klotz and 8 the Republican party. Governor Curtin left for Brockway; necessary to nominate, 10. Ten more ballots were taken without success tion, and Beauregard wouldn't join it for the and the conference adjourned until Wednes-

The Conference System.

Something ought to be done to change the conference system of nominating congress-men. Theoretically it is a proper enough way for the several counties in a congressional district to settle upon their nominee, vote in Pennsylvania in 1875 is a matter of but practically it does not work well, as we have never had occasion to be so often reminded as we have been during this year. eny of Jack Kehoe when the money was paid There always has been embarrassment in it, over that "the old man at Harrisburg will and it frequently has resulted in the selecnever dare hang me, now," has been verified in every particular. It has been the habit of something in the political air this fall which Republicans who were compelled to confess makes it especially troublesome to settle the that there was an arrangement for the transfer of the Mollie vote to Hartranft in that ion for conferees to meet day after day for weeks, and to number their ineffective ballots by the hundreds. It is certainly not a creditable thing for men to do, and reflects very severely upon their common sense and priviotic judgment. It ought not to be difficuit for men of ordinary capacity to select the best man from among the candidates; and it is not. But the trouble is that they do not conceive it their duty to nominate the best man, because they have themselves been chosen in the interest of a particular candidate who has succeeded in securing the opposition from a lew of the members, notaof the conferees is entrusted to him; and his object is to choose such as will adhere staunchly to him, and not such as would incline, after giving him a fair chance for the nomination, to vote for the best man. The inherent vice of the system lies just in this the selection of conferees. They thus bevided, which was passed over, through Gen. come, in the conference, the representatives eral Siegfried and other local politicians of of the candidate and not of their party. It Schuylkill, to work its infamous purpose. may be assumed that the party in a county would not cling to its first choice for the nomination with anything like the persistency with which its conferees stick to him They would be more yielding and more reasonable and would not be content to make a senseless exhibition of obstinacy in behalf of any man. They would look to the party good; whereas, the conferee looks only to the fortune of the man who has selected him

this part of the State. The Ancient Order some one who really should be given the improve your crops, and revive business. of Hibernians is very strong here, estimated nomination, and for whom they can labor to number some eight or nine thousand in with a clear conscience and the public approval. If only such men were candidates before a conference there would be no difficulty in making the nomination; for they might be relied upon not to press themselves with unwas not enough money sent here; because the sympathy between the order in this al ambition against the selection of an equal due persistency and to interpose their personsection of the State and the Mollie Maguires ly worthy candidate. But the majority of was not sufficiently developed, and because it candidates are men who are able to control a is almost impossible to get Irishmen in county convention, but who would be of lit-crowds to vote the Republican ticket. Governor Hartranft's messenger, Delaney, did pirant is a great rascal who would really disall in his power, however, to accomplish credit the district; and it is especially danthat result. He has returned to the work gerons to trust the power of selecting conferees in the hands of such a man, who would be ready, if he could not make his point, to sell

scamp who had the money to buy them. The Democratic party in the state has suffered quite enough from discreditable nom inations thus made and from the distraction Gallagher has been very active in this mat- caused by the contentions of unworthy met ter, and he is making use of the situation in who subordinate the party good to their selwhich Kehoe is placed to work upon those fish aims. The amendments in the present method which we insist on is that conferrees first selected should not have power to sit and ballot and bargain and dawdle to the disgust of everybody and to the disgrace of the party. Their power should be sharply limited to one day of conference; and if they cannot then sgree they should make way for other men to try their hands at making for the party a creditable nomination. One-hundred-pound shares of the bank were dealt in at over 200. closing his recital General Albright said and within a week at 237. The bank was established in 1839, and had fifty to sixty branches. This is the heaviest bank failure in Scotland since 180, when this concern

also suspended. The other Scotch banks were asked for a sistance, but, after examining the books at a meeting, refused to do more than redeem the note circulation of the City of Glasgow Bank, which is stated at three and a quarter nillions. The failure has caused great excitement throughout Scotland and in the London Stock Exchange, where there was a heavy fall in Scotch railroad securities in consequence of a pressure of Scotch holders

tributed to its resources being locked up in bills, shares and debentures of various kinds

that were not readily convertible. The Echo says the failure is very import ant, and is not less than a national disaster but as usual in such cases it has been fore shadowed by innumerable occurrences, and it is hardly likely that it will do more than bring down the commercial firms which are overwhelmed the bank.

WASHINGTON LETTER.

Washington, D. C., Oct. ;15, 1878. With a loss of three Congressmen in Ohio, three in Indiana, two in Iowa, two in Maine, and one in Vermont, the progress of the radi-cals in capturing the next House is not en-couraging. Besides this loss in number of Members they lose, too, the votes of Ohio and Indiana in event of the choice of Presi-

dent being thrown into the House-a not very unlikely contingency by the way. It is possible that in some of the November states there will exist substantially the same sort of Legislature as in Maine, made up of Democrats, Republicans, and men who have herotofore belonged to each of these parties, but were not elected on either of the party tickets. There will then be an oppor tunity to improve the membership of the United States Senate, against the wishes of the class of politicians to which Hamlin Howe, Cameron and others belong. It is all these cases Democrats are unable to secure the election of men of their own party they may at least aid in retiring the bloody shirt politicians and giving to the e untry the services of men of ability and of broad and patriotic views. Let them at least retire to private life, whenever, it is possible, the men who have become fixed in the idea that one section of the country has not the same rights as another section That will dispose of several men like Howe, of Wisconsin; Cameron of Pennsylvania and Christianev of Michi gan. If it should strike at Conkling in New York, I don't believe the country would suf fer. This is the grand opportunity to whiteerate sectionalism from the Senate. Other troubles will cure themselves after a time, but this is deadly and requires treatment.

Secretary Schurz is reported as expressing the belief that his speech at Cincinnati had a considerable effect in carrying the two city Districts for the Republicans, and in giving tha party their large vote on the State ticket Doubtless the Scerctary is right. He is a most attractive spraker, and the large German vote in Cincinnnati made his presence peculiarly effective. He spoke only after repeated urging by Mr. Hayes, who had been over the ground and was afraid of the result. The Secretary wishes, he says, to devote his whole time to the duties of his office, and no ordinary temptation will take him away from it. He now proposes a further reorganization of the Interior De partment, but may not act until after the No vember elections. Candidates for the office of the Commissioner of the General Land Office and Commissioner of Pensions may file their papers. Much go of could be done by all the States adopting uniform laws concerning the delivery of fugitives from justice flying from one State to another. This is a subject on which the General Government seems to have no tight to act, and even if it possessed such right it would seem better that the right be exercised The States should act. It is not becoming or proper, or consistent with good will between the States, that the recent demand on the part of the Govenor of South Carolina, for Kimpton, and the refusal of the Governor of Massachu et's, should be repeated. Uniformity of laws on the subject is possible and would have a most excellent effect.

Democratic Platform.

The democracy of Pennsylvania unanimously de lare: That the republican party, its measures and its nen, are responsible for the financial distress, the That the republican party, its measures and its men, are responsible for the financial distress, the misory and the want that now exist:

It has had control of the legislation of the country, and has enacted and perpetianted a policy that has enriched the few and impoverished the man;

Its system of finance has been one of favor to moneyed monopoly, of unequal taxation, of exemption of classes, of high rates of interest, and of remorseless contraction, which has destroyed every enterprise that gave employment to labor.

Its present hold upon federal power was secured by fraud, perjury and forgery. Its laws are unjust and its practices inmoral; they distress the people and destroy their substance.

The only remedy for these evits is an entire change of policy and the dethronement of those in power.

And we resolve that further contraction of the volume of United States legal tender notes is unwise and unnecessary. They should be received for customs duties and reissued as fast as received.

Gold silver and United States legal tender notes at par therewith, are just basis for paper circulation.
