THE COLUMBIAN AND DEMOCRAT, BLOOMSBURG, COLUMBIA COUNTY, PA.

Franklin.

BLOOMSBURG, PA. Friday, Dec. 6, 1878.

PUBLIC MORALS.

From the increasing business in the crimical courts of the county it appears that the commission of crimes is by no means on the decrease. A few years ago three or four days were sufficient to dispose of all the cases in the Quarter Sessions, but now as a rule a whole week is occupied. But few of the offences committed are of a high grade, most of them being larceny, assault and battery, fornication and bastardy and the like. The crime of larceny is no doubt more fre- ges are reported by viewers, and in all bridge quent now than formarly because of the that they have never before known. The missioners of the County or one of them, of temptation to help themselves to the proper- the time and place when and where the ty of others in order to better their own viewers will meet. condition is great, and hence we find many who give way to this temptation. The certainty of detection and punishment, however has not diminished, and the number of convictions for these offenses should be sufficient, if no higher reason will prevail, to prevent others from risking their reputa-

that which belongs to others. Assault and battery results from giving vent to the passions, in which men forget the consequences that are almost sure to follow. In the anger of the moment they forget not only the laws of God, but the statutes of the State, that forbid them from laying the hand of violence on their fellows. This crime will cease only when men shall learn to curb their passions. If they have no respect for the laws, they should remember what may be the re-ults of their actions. Arrest, conviction, payment of costs and im-

prisonment are almost sure to follow. Fornication and bastardy is either on the distric increase, or else there are more women who are willing to make known their fall, now than heretofore. At almost every session of the Court it is not an unusual sight to ;see from three to six young women sitting in the court room with bables in their arms waiting patiently until the time shall come for them to go upon the witness stand to find a father for their bastard off-pring. In many cases these women, some of them mere girls, are known to be of bad character Their very manner in public, giving testimony before a crowd of men without a blush, proclaims that all sense of shame is gone, and that they are seeking only to find some one with whom they can divide the expense of rearing their illegitimate babes. In a few cases it is undoubtedly the fact the prosecutrix is the victim of a man for whom the name of fiend is not enough to express the depth of his infamy.

date.

There is a lesson to be learned from past experience. Girls are too apt to be allowed by parents to have their own way. They are nitted to go and come as they please, to share the company of young men until late hours of the night, and thus parents, and others whose duty it is to keep a watchful eye on young females under their charge, are greatly to blame for their downfall.

If this growing evil is to be checked, there must be a different course pursued by those who might prevent it. Put restrictions upon rs and other inmates of yo

Numbers of petitions for orders to view and lay out new roads are presented at every session of the Court. The Court has no discretion in the matter, being required by law to appoint viewers when a petition therefor properly signed is presented, --- whatever may be the result, of the view, the County is liable for the expense. The expense of these views, and the nount of damages assessed to land owners,

IN THE MATTER OF PETITION AND OR-

DERS FOR ROAD VIEWS

onstitute no inconsiderable part of the claims upon the County Treasury.

We refer to no particular case, but suggest o citizens generally, the propriety of deferring requests for views upon new roads, until the burden of them will be less felt by the County and Townships than at the present time

In order to better protect the interest of the public against the payment of excessive damages the following rule is adopted :

SECTION IL BULES OF QUARTER SESSIONS. In all cases of road views, in which dama views, it must appear in the report that 5 hard times, which reduces many to straits daya written notice was given to the Com-

BY THE COURT.

Adopted Dec. 2, 1878. The 11th Congressional District.

No evidence so conclusive can be adduced as to the advantages we offer than the fact than in a period of hard times and general retrenchment, when the people naturally desire to make their money go as far as possible, our business has shown such wonderful increase.

schold, be careful about their associations, and thus take away the opportunities that are now offered for their destruction by designing men, and the pitiful sight that is now exhibited in the Court at every session will be one of scarce occurrence. We have spoken plainly but the facts have warranted us in calling the attention of the people to the increase of a crime that will unless checked,undermine the morals of any community.

OUR SENTIMENTS.

The following from the Perry County Democrat expresses our view, Outside tinkering has done us more harm than internal disagreements :

"The Democrats of the Twentieth Congressional district could have given Ex-Gov. Curtin from 3,000 to 5,000 majority had they been so disposed. They saw proper to per mit the election of Yocum by a majority of 73. For so doing they are being denounced from one end of the Commonwealth to the other, just as if they were not competent to determine for themselves who they did not want to represent them in Congress. Is'nt it about time for outsiders to stop their nonsense ? The Democracy of each district should hereafter be permitted to make their own selection of candidates. It will pan out better for the party everywhere."

LET IT COME.—It begins to look now from the action of the Republicans, as if the controversy in this, the eleventh congress-nional district, as to who is entitled to the certificate of membership of the next House of Representatives will have to be settled by a contest. We say let it come; then there will be an exposure all around of who did not receive favore, money, &c. during the not receive favors, money, &c., during the canvass. Some of the champion changes about that time may be accounted for by such, an exposure.—Danville Intelligencer.

"So say we all of us." If Klotz was hon orably and honestly elected, let those who dispute the fact be given an opportunity to prove it. Only guilty men shun investiga-

A Compliment from McClure.

The editor of the Bloomsburg COLUMBIAN The editor of the Bioomaburg Columnian Mr. Charles B. Brockway, is reorganizing and consolidating the Democracy, now that the election is over. He had a peculiar way of doing this kind of work before election, and he may have some difficulty in pursuad-ing the party to let him have the entire con-tract to consolidate it for the future.—Aleck McClure's Times MeClure's Times.

ILLEGAL. -- We have been informed that one of the officers of the late election boards in this county permitted outsiders to inspect the "List of voters" as a means whereby to be an end of the second waveled the world detect how certain parties voted We would inform every one guilty and those not guilty of this offense, that such election diver not only breaks his oath but throws himself lia-ble to a prosecution under the election laws and if proved guilty subjects himself to a fine and imprisonment. There must be no empionage about the ballot.—Danville Intelli-Majors, elected to fill the unexpired term of Frank Welch of New York, and letect how certain parties voted We would
