Age for Legal Marriages.

There is considerable variation in the different European States in the age at which a legal marriage can be contracted. In Austria of seed ; and the yield has reached 500 the age of discretion is fourteen years. In Hungary each religous sect makes its own regulations-marriages being regarded as estirely ecclesiastical affairs. Russians can con-tract marriages at the age of eighteen in cases of females. The Italian law fixes the age at eighteen and fifteen respectively. In Turk-ey there is no general law. The French and Belgian codes allow marriages of young men at eighteen and girls at fifteen years ; but the powers of dispensation in special cases are reserved. In Greece, Spain and Portugal, parties of fourteen and twelve years can contract a binding marriage; but in the latter country the consent of the parents is necessary. Ac cording to the amended paragraph of the new eivil-marriage bill, the state of wedlock cannot be entered upon under twenty and sixteen years respectively, though the existing laws of Prussia and Saxony permitted maringes at earlier periods. There is much dissimilarity in the Swiss laws every Canton having a local regulation of its own. In some of them the consent of the parents is necessary up to twenty-five years. The influence of climate upon the temperament and constitution is allowed in the southern nations, whose maturity is reach. ed at much earlier period than among the porthern pations.

Satisfied to Lose.

There were five of them, says the Sacrasento Bee, and they had assembled in a cigar store near Capital Hotel. The subject was in regard to horse racing. Said a hackdriver, who was present, 'Talk about your fast time! Why I've seen a horse trot a mile in 1.90.' 'Impossible !' said the cigarstore proprietor. 'It can't be done! The best time I ever heard of was 2.14].' Said the backman, 'I'll bet you five dollars I can prove what I say.' Taken by the cigar-man, soin put up and referee chosen. In a drawl ing voice the backman explained to the man of cigars. Don't you know, you idiot, that t1.90 is two minutes and thirty seconds. Turning to the stake holder, the tobacconist then said, Give him the money ; it's worth five dollars to know what a fool I am.,

"What news to day ?" said a merchant to his friend, lately. "What news!" respon-ded the other. 'Nothing, only things grow better-people are getting on their legs again." 'On their legs?' said the first. I don't see how you can make that out.' 'Why yes,' replied the other; 'folks that used to ride are obliged to walk now ; is not that getting on their legs sgain ?'

An excursionist on a Lake Champ-lain boat went to sleep on deck, and in the morning he couldn't find his shoes. "Where did you put them asked a sympathizing friend, 'I opened that little cupboard, and laid them ou the shelf,' he replied. The victim had opened the wheel-house and laid his shore on the paddle wheel.
