THE COLUMBIAN-AND DEMOCRAT, BLOOMSBURG, COLUMBIA COUNTY, PA.

Efr Colambian. BROCKWAY & ELWELL, Editors BLOOMSBURG, PA. Friday, FEB. 14, 179. "ORPHAN SCHOOLS."

The following communication from Col John G. Freeze to the Patriot, hits the null or the head. The argument is unanswerable and we trust a law will be formulated and passed at the present session to carry Col. Freeze's suggestion into effect :

"The report of the superintendent of sol diers' orphan schools for the year 1878 is before us. Inasmuch as the war ended in April. 1865, the legislation admitting children of soldiers sick and otherwise disabled, born since January, 1866, seems to be pushing things to an extremity. It seems, too, that this change in the law admits children not orphans, and has increased the number of children in the schools largely. They now number 2,526 and we are told that, at least three fourths of the of communication and transportation were children now in school could not have been ad d.fficult, and it cost more to transport a piece mitted under the original system. That statement is sufficient to show that there is some where in the present management a consider-able quantity of "sugar" dealt out to some body. Under the old system two schools would now suffice for all the soldiers' orphans. But under the present one we have thirteen schools see. And for the year 1879 there as will be seen from the fact that we capnre required \$350,000.00 for the general expeases, and \$10,000,00 for expenses of the decannon, 2360 merchantmen mounting 8000 artment, Now a large amount of this money guns, besides driving ashore or shipwrecking can be saved, not only without detriment to 29 vessels of war carrying 800 guns, and the children, but with a positive advantage to capturing over 30,000 seamen. In contrast,

we lost 25 vessels of war mounting 350 guns, In addition to the above \$300,000.00 then 1407 merchantmen and 21,000 seamen. It has been appropriated for years annually the will thus be seen that this was quite a war, sum of \$7,000 to enable the girls from the orand the cost of it fell upon the years of 1812phan schools who show an aptitude for teach-ing to enter a Normal school and there com-13-14. There are, we believe, now, ten norn schools in operation. They need the assist ance of the state and have been receiving it The suggestion is, to abolish these soldier or phan schools entirely, and to distribute these 2,526 children among the ten normal schools; and then you get for them better education advantages, and at a greatly diminished cos to the state. war.

By this you get clear ot \$10,000 departme tal expenses-you get clear of the principals teachers, maids and matrons of twenty-five dis tinct institutions, with an expenditure of, say \$100,000, at the least-and other matters to which we need not call attention. This plan will benefit the state and the scholar, and our base of supplies. As a result, we extended the boundary line of Texas to the Rio ought to be adopted.
