ATTEMPTED ASSASSINATION.

celebrated tragedian, Edwin Booth, at Me. killing of Joseph Raber is one of the most Victor's Theatre, Chicago, one night last notable in our criminal annals. It has atweek. The following particulars have been tracted so much attention that we give the

'Hang him,' 'Pitch him out of the window,' ever, speedily hustled off to the station and beked up. On his person was found the following incoherent letter, which clearly ludicates his premeditated purpose CHICAGO, April 22, 1879, - Dear Katle :

Forgive these brief but horrible lines, I I was with would not increase my salary so I made up my mind to return to Keokuk but being a lover of fine acting I came to Caicago to see Booth. But I was sadly mistaken. It would take Both one year of constant acting to compete with Lawrence R reat's Richelieu.

all Shakespeare's (sic) I find but one man to compare with Booth and that is Isgo. My judgment ought to foretell me that since I call Booth Iago he could no more play Richelieu than the devil could be an argel.

'MARK GRAY' Yours truly, Reading this note, the impression would remain that the writer was an incoherent luncoolly in prison and talked collectedly about well considered purpose.

His story is that ne belongs in Keokuk but and one half years ago, he determined to degree as to all six. avenge it. He has only met Booth once of St. Louis, and was not prepared.

He says he fired directly at the traged an and wonders greatly that he missed him. He regrets his failure even more than he iers at it. He says he has accomplices back of him, and that Booth will yet suffer. He came here for the express purpose of killing Booth.

went behind the scene to quiet his wife, who feared he had been injured.

The opinion generally expressed by the attaches of the theatre and by others who saw him is that Gray is crazy. He fired two shots, snapped his pistol again, and was cacking it for a fourth trial when he was

# HOW THE TIMBER IS USED UP.

We have about 90,000 miles of railroad; the annual consumption for ties or sleepers alone is 40,000,000, for thirty year's growth of 7,000 acres. To fence these roads would require at least 130,000 miles of fence. We have 75,000 miles of wire, which requires in its putting up 800,000 trees, while the an nual repairs must take 300,000 more. The insignificant lucifier match consumes annually in its manufacture 300,000 cubic feet of the finest pine. The bricks that are annually baked require 200,000 cords of wood, which would sweep the timber clean from 50,000 acres. Shoe-pegs are quite as important an article as matches or bricks, and to make the required annual supply consumes one hundred thousand cords of timber, while the manufacture of lasts and boot trees takes five hundred thousand cords of maple beech, and birch, and about the same is required for plane stock and the handles of tools. The packing boxes made in the United States in 1874 amounted to \$12,000,-000, while the timber manufactured into agricultural implements, wagons, etc., is more than \$100,00. The farm and rural and she gave him back the notes, where fences of the country comsume an immense amount of lumber and timber annually, but as we grow older as a nation this comsumption may, probably will be reduced by the more general use of live fences or hedges Our consumption of timber is not only daily on the increase, but our daily exportation of lumber is also increasing. Our staves go by the million to France annually, walnut, oak, maple and pine, to England, and spars and decking timber to China and Japan.-Lumberman's Gazette.

THE REGULAR FARE .- One pleasant day. Captain S. stood upon the deck of his steam er, tolling the last bell previous to her de parture, when he was accosted by a seriousooking individual, in the following terms 'Are you Captain S.?' 'I am, sir,' said the captain, with a turn of the head and a quizzical glance. 'What is the regular fare to Louisville?' 'Two dollars and a half.' Well, captain, I am a Methodist preacher. What will you charge me?' Apparently in a deep study for a moment, the captain seemed to take the measure of our clerical friend, and replied in his peculiar, decided tode, 'Well, I guess we sha'n't charge you a cent more than any body else !"

Women are still numerous among the pe destrians. In a St. Louis match Anna Berger walked 100 miles in twenty-four hours. One of the women in a Westfield (Mass.) contest seized her competitor by the bair, and the struggle became one of hands instead of feet. Mrs. Anderson's latest attempt is to walk a mile and a half every hour for twenty-two days in Cincinnati. Six day's walks by women are advertised in several Western cities. May Fanning fainted on the track in Milwaukee, and lay two days in a stupor. Two girls of 14 are taken from place to place in New England to exhibit their remarkable speed in ten-mile

Pittsburg four million steal bill having received a fatal backset, last week, Mr. Ni h ison, of Jefferson county, has introduced in the House a compromise measure as a substitute. Its leading features are that Galusba Mr. Booth said that he never heard of A. Grow, Daniel Agnew and Auditor Genthis man. He was not aware that he had eral Schell (Republican, Greenbacker and in fired at during the excitement, and Democrat), shall constitute a commission to ing the full amount of the same, shall carry the largest one before the supreme court in a test case. That no money shall be paid from that treasury under the act until a favorable decision shall be given by the supreme court. Two million five hundred and twenty thousand dollars is the sum named to be appropriated, of which two millions are to go to the lenn-ylvania railroad, \$500,000 to losers of goods in transit, and \$20,000 for the expenses of the conmission. The Allegheny people, in their desperation, it is said, will accept this bill and abandon their own .- Er.

## A LOOSING JOKE.

A prominent physician of Pittsburgh said jokingly to a lady patient who was complaining of her continued ill-health and of his inability to cure her, "try Hop Bitters!" The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient,

Mr. Gibson, proprietor of the Gibson House, Cincinnati, wooed Miss Burice, but his parents objected to the match, and he, although 45 years old, conformed to their wishes. Miss Bunce held him to his engagement, however, until he had bought her release for \$50,000 in notes of \$10,000 each. Afterward he renewed his courtship, upon he cut her acquaintance. This is the story as told by Miss Bunce in her suit for

# ADVERTISING CHEATS.

It has become so common to write the beginning of an elegant, interesting article and then run it into some advertisement that we avoid all such cheats and simply call attenion to the merits of Hop Bitters in as plain terms as possible, to induce people to give them one trial, as no one who knows their value will ever use anything else.
