

Advertisement for Bloomington, Pa., dated Friday, July 11, 1870.

The divorced wife of a Danbury (Conn.) man is the hired nurse of his second wife's baby.

It is well known that a relationship exists between piles, constipation, kidney disease and liver troubles. In Kidney-Wort we have a remedy that acts on the general system and restores health by gently aiding nature's internal processes.

A Mother at Thirteen Years. Dr. Dillard states that on last Saturday a girl living several miles from Belmont, and who was married last year before she was twelve years old, gave birth to a female infant.

Worcester, Mass., July 5.—At half past two p. m., yesterday the steamer Col. Isaac Davis, pleasure boat plying on Lake Quinsigamond, was upset while lying at her moorings, at Lincoln Park, and about a hundred persons were precipitated into the water.

It would seem to be settled by actual experiment that it is an extremely hazardous and a brutal piece of sport to explose freerackers under the feet of women.

The pardon bill at Harrisburg is running just as smoothly and quietly as though there never had been any new Constitution with its provision for public sessions of the Pardon Board.

John F. Seymour, brother-in-law of Bishop Seymour of the Episcopal church, was found dead with a bullet hole in his left breast in the grounds of the General Theological Seminary at New York, on Friday morning last.

A Teaching Story. Mary Holt's father was wealthier than any other farmer in Woodstock county, Kansas, and she received a more careful education than was usually bestowed upon the girls of that part of the country.

The following is the full text of a law of very general interest here: SECTION I. Be it enacted, That the aldermen, magistrates and justices of the peace in this commonwealth shall have concurrent jurisdiction with the courts of common pleas of all cases in which a party is compelled to appear and of all actions of trespass and of tort and conversion, wherein the sum demanded does not exceed three hundred dollars, except in cases of real estate where the title to lands or tenements may come in question, or action upon promise of marriage.

SECTION 2. In all actions brought before any justice of the peace, magistrate or alderman, on any contract for the payment of money, either expressed or implied, if the plaintiff shall file at any time before the issuing of the summons a copy, with an affidavit certifying that the amount he verily believes to be due from the defendant together with a copy of the book entries or instrument of writing upon which the action is brought, or where the claim is not evidenced by writing, if the plaintiff shall file as aforesaid an affidavit setting forth a full and detailed statement of the same, it shall be the duty of the justice, alderman or magistrate to make a copy of such affidavit, duly certified the same and deliver it to the constable to whom the summons is issued, which certified copy shall be served as if the summons in the original service was made of the summons in the case, and the justice, magistrate or alderman shall render judgment in favor of the plaintiff for the amount of his claim, unless the defendant at or before the time that the summons is made returnable shall have filed with the justice, magistrate or alderman an affidavit of defense setting forth fully the nature and character of the same; provided, that the affidavit required by this section may be made by the agent of the party where such agent is cognizant of the facts constituting the cause of action, and the justice, magistrate or alderman, and provided further, that nothing contained in this act shall be construed to alter, impair or abridge the right of any person to appeal from the judgment of the justice of the peace, magistrate, or alderman, or to carry on the proceedings to the court of common pleas of the proper county, as in other cases; and provided further, that nothing contained in this act shall apply to magistrates in the cities of this class; and provided further, that the fees allowed for constables, under this act, on all cases made by this act, shall be five per cent, for all sales amounting to less than one hundred dollars two per cent, for all sales above one hundred dollars one per cent.

SECTION 3. All acts or parts of acts heretofore enacted which relate to the same are hereby repealed. This became a law July 7th, and is the condition.

How to Swim. The editor of the London Truth, after observing that probably not one in twenty of the persons who venture into the water today know how to swim, proceeds to tell his readers how to acquire this accomplishment. "Nothing," he says, "is more easy. When the air in a body is over its own weight, when the air in the body is over its own weight, let any one slowly draw in his breath as he draws back his legs and pushes forward his arms, retain it while he is preparing for the stroke which is to propel him, and slowly allow it to go through his lips as his arms are passed back from before his head to his sides, and his legs are stretched out. The action of the stroke should be to give the body a forward motion, and when the body declines downward, the real reason why people take weeks to learn how to swim is because swimming professors either do not know or do not choose to teach the philosophy of breathing, so as to render the body buoyant. I would engage to make any one a tolerable swimmer in an hour, unless he be a congenital idiot."

Expensive Luxury. The Hartford Sunday Journal tells the following story, which local dentists will do well to profit by: He was a dentist and the daughter of wealthy parents, accomplished and irresistible from all that luxury, culture and travel in foreign lands coupled, he was treating a tender lip in two or three of her brilliant and partly teeth, and when he had her mouth filled with wax and her lovely arms pinioned fast in the chair lest she might struggle when the crucial act struck suddenly on a delicate nerve, she looked so sweet and tantalizing that a sudden temptation overcame him and he stopped suddenly and imprinted three kisses on her lovely lip. Then he completed his work and she went in to see her mother. The young lady, a philosopher as well as a beauty, was prepared to set on her work. She had a bill to render, which she duly accepted credit to the woman's bill. Here is his bill: To three kisses, \$150. To three kisses, \$150. To three kisses, \$150.

Mexican Mutineers. HAVANA, July 7.—An English steamer from Vera Cruz brings advices from the City of Mexico to June 30th: On June the 20th, part of the crew of the Mexican gun steamer Libertad in the harbor at Vera Cruz mutinied and seized the steamer while the commander was on shore. Simultaneously some of the officers of the Vera Cruz garrison attempted to raise a revolt at the instigation of the mutineers, but were repulsed. The Libertad went to sea. The steamer Libertad and other steamers had gone in pursuit and she will doubtless be overtaken. Accounts of the event in Vera Cruz are very conflicting. The government has apparently mastered the situation, but since the revolt of the garrison a reign of terror has prevailed there. All Vera Cruz merchants are hostile to the government in consequence of the passage of the law against contraband trade, and they have ever since been in a state of revolt. It is generally believed that such as the rebels who were killed were assassinated in the guard house where they were taken, and that they were killed on the pretext that they had attempted to escape.

Of Interest to Candidates. The following resolution was unanimously adopted at the last County Convention, and with the hearty approbation of the party. It was intended to have effect in overcoming the evil complained of, and it is brought to the attention of candidates and voters with the hope that its publication will have the effect desired: Resolved, That whereas traveling the country by candidates seeking the nominations of the Democratic party is a heavy burden, and one which it has become an evil and brings reproach upon the party, we, as representatives of the Democracy of Columbia county, do emphatically condemn and discontinue it, and urge upon the voters to pat their faces against it, and insist upon candidates simply announcing their names and leaving the decision of their respective constituents to the people expressed by personal solicitations.

President Eliot, of Harvard College, has put himself on record in the most unqualified manner in regard to the subject of education which is receiving so much attention at the present time. His words are words of wisdom. He says: "I may as well abruptly avow, as the result of my reading and observation in the matter of education, that I recognize but one means of acquiring an essential part of the education of a lady or gentleman, namely, an accurate and refined use of the mother tongue. Greek, Latin, French, German, mathematics, and other physical sciences, metaphysics, history and aesthetics are all profitable and delightful, but as training and as acquisition, to him who studies them for the sake of learning, and not one of them has the least claim to be called an acquisition essential to a liberal education or an essential part of a sound training. A man who has not a sufficient command of his own language cannot obtain it in college, and if he obtains it, he will be a very elementary knowledge of several of them obtained in school, makes a richer, stronger and more fruitful mind than the acquisition of each with all the aid of the fruit of liberal education is not learning, but the capacity and desire to learn; not knowledge but power."

What the citizens of Columbia county, Pennsylvania, have done for the cause of the Republican party is a matter of which the Democratic party should be justly proud. They have shown a spirit of noble and unflinching courage in their resistance to the measures of the late administration, and their conduct has been a constant reminder to the whole country of the true meaning of the word "courage."

THE CASE OF THE REV. W. H. SWARTZ, WHO WAS CURED OF SEVERE LUNACY. Rev. W. H. Swartz, of Beaver Falls, Pa., who graduated in the class of 1847, Allegheny College, recently, when he had been in the city for some time, he preached a sermon, but to give testimony, and he related a wonderful story of the efficacy of prayer in the case of a friend who had been afflicted with lunacy. After his graduation he received an appointment from the Erie Convention to preach at Ridgway, Pa. After a few months labor he was dismissed, and he returned to his home at Ridgway. He was afflicted with lunacy, and he was confined to an insane asylum, where he remained for several years, but he escaped from the asylum, and he returned to his home at Ridgway. He was afflicted with lunacy, and he was confined to an insane asylum, where he remained for several years, but he escaped from the asylum, and he returned to his home at Ridgway.

The Glove Bunch. On this subject the "N. Y. Star" says: "The glove bunch was on the north side of the river, and it was discovered by a fisherman named Jones. A ratty of dry bones was seen immediately, and every conceivable instrument was resorted to in order to impede and paralyze the assembly which he discovered. The following is the full text of the report: 'The glove bunch was on the north side of the river, and it was discovered by a fisherman named Jones.
