

the sacred right of an American freeman to deposit his ballot free from the intimidating presence of deputy marshals, free from the overawing array of troops at the polls is secured, or the Forty-sixth Congress expires by its constitutional limitation."-Hon, W. S. Blackburn in the House of Representatives, April 3, 1879.

The Louisville Courier Journal says : 'A Republican organ in Philadelphia recently complained because the Legislature of Pennsylvania left nearly all the charitable institutions of the State without a cent of money for the current year. The trouble is that under Republican management the Treasurer of Pennsylvania has been milked dry ; extravagance has marked every step of the Republican administration, and the taxpayers are bled most painfully. In New York two Democratic administrations have reduced the expenses of the State from \$15,000,000 a year under Republican rule. to \$7,686,103 the present year. The contrast between the two States is interest and instructive."

Here is the polite language the Lemars (Iowa) Sentinel addresses to the colored man. It is a Stalwart among Stalwarts, favoring Grant's re-election for an indefinite term and the wiping out of all State lines :

"What we need is encouragement, curses ; protection, not violence."

'We clip the above from the New Orleans Weekly Louisianian, edited, owned and printed by niggers, who sent us a copy asking an exchange with the Sentinel. We will grant the gentlemanly darkies the boon they crave, that they may study African ethnology from a Stalwart stand-point. 'What we need is encouragement, not curses ; protection, not That is nigger all over. Why, you great, wooly-headed boobies, what you need to learn is to 'curse' and practice 'violonce,' and all these other things will be added to you. If you have not sand enough to stand up and curse these lantern-jawed brigadiers and their white-livered retainers then the Republican party made a great mistake in giving you your freedom. If these unhung traitors dare molest you when you go to vote, shoot them as you would so many dogs. If you have not the courage to do so, get on the auction-block and let them sell you to the highest bidder. A six-shooter is what you need, Mr. Nig.'

The rate of discount for sixty days' to three months' bank bills is 1 (@ 1 per cent, and for trade bills in the open market is [ @1 per cent, which is 1] (a) 1 per cent below the Bank of England rate. We do not see that it makes much difference to the public whether Stewart's body is found or not, and we wish the telegraph companies would let up about it. They might as well quit also about Charlie Ross. One died and his body was stolen and the other was stolen alive. It has happened to other people before, and we presume will happen sgain.
