SUICIDE IN SUNBURY .- On Thursday, about 12 o'clock, this community was shocked by the report that Robert Farnsworth, a resident of Market street, had committed spicide by hanging himself. Sheriff Hoffman is sending out notices to all parties indebted to him for costs, that an early ttlement must be made for the same. An Act of Assembly permits him to bring suit in this county against any one indebted for costs residing anywhere in the state. It is a good provision, and the Sheriff is wise in taking advantage of it before his term expires. He has several thousand dollars standing out in small amounts.

Miss Jane Coombs who will play at the Opera House this Friday evening is an actress of high reputation and excellence. The play, Camille," is a very popular one, and has had ong runs at the principal theatres. Miss Coombs has a fine stage presence, a rich, full voice, and great dramatic power. Her costumes are said to elegant and costly. Her empany is a strong one, and the pieces can pardly fail to please. This troupe is far above the average of those that perform outside of the large cities, and every one should avail themselves of this opportunity of seeing a first class play by a first class company. Reserved seats at Clark's Book Store.

### DEATH OF JOHN LAYCOCK.

The community was startled on Monday norning by the announcement that John Laycock, proprietor of the Central Hotel was dead He had been in his usual good health, and retired the night before as usual and rested well until about four o'clock in the morning when he arose to make the fires and do other chores about the house. He went into the back yard and while there was first attacked. Calling for assistance he was helped into the house and up stairs. Dr. Rutter was called in and did all that could be done under the circumstances, but I. W. McKelvy is making some repairs and Mr Laycock gradually grew worse until about nine o'clock when he expired. The cause of death was heart disease. He retained his senses

until a few moments before he died. He had been a resident of the town for many ears, and kept the Central Hotel, formerly American House, for a long time. He was a first-class landlord, and an excellent citizen He was 61 years old. The funeral took place at the house on Wednesday afternoon at two o'clock.

THE LADIES UNION BENEVOLENT SOCIETY

The question, often asked within the last year, "What is the Ladies' Society doing?" is thus answered: From October 1877, to may 1978, there were distributed by committees who reported their daings to the society muslin, flaonel, calico, bedding, fatockings and shoes, second hand clothing, groceries and provisions, to the value of \$193,43; besides roods by committees who did not report, to the value (estimated) of at least \$57.47; making a total of fully \$250.00 for the first fiscal year From May 1878, to May 1879, the society distributed goods and money to the amount of \$395.25; of which \$81.35 were contributed in eash by citizens of Bloomsburg, and \$100,00 in goods; \$213.90 were furn ished by a few of

It will be readily seen that the society has not been idle; its working-members may have been sometimes deceived into bestowing alm upon the unworthy; but they feel that some good has been accomplished, that their motives are pure and that their reward is sure. The Academy opened last week with a larger number in attendance than ever before at a winter term. FEEDING A SHERIFF WITH TAFFY.

If we may believe the Columbia county papers, of which there are six, they are all very glad that the Greenback candidate for sheriff has been elected. Since his election Mr. Ent has been liberally 6d with "taffy," and is just reaping the swee s of office to his fill. It looks very much as though the paper-were puckering their mouths for the sheriff patronage, in regard to which there is a de-lightful state of uncertainty. The only paper that gave him any kind of support is published in Catawissa, and Bloomsburg papers indulge the reasonable hope that the sheriff will keep all his patronage at the county seat. - Se

We have observed symptoms of "taffy" i only one paper published in this county. It takes an editor of a smart daily like the Scranton Republican to discern things that ordinary mortals overlook. But Capt. Eat is not the of teams from the country along the street, and kind of man to be influenced by sweet meats, and he will probably distribute his patronage

Fourth Officer F. G. Rowell, of the stea while on the Newfoundland banks, he saw a sea serpent which he estimates to have been fully as long as the steamship. According to Lloyd's Shipping Record, the Anchorus is feet long. Mr. Rowell was walking the bridge at four bells in the afternoon watch, when he noticed a disturbance in the water about a mile the commotion was caused by a whool o porpoises, but, on closer observation, he changed his mind. When he looked through a pair of strong glasses he saw the head and a portion of the body of the sea serpent rising above the water. Portions of the back of the creature could be seen rising out of the sea at intervalas it propelled itself along on the top of the water. Its motions were similar to those of lashed into foam by its tail. Its head was large and contained an enormous mouth, which opened frequently an i spat out large quantities of water. ### MISS COOMBS AS CAMILLE.

Miss Coombs last night as Domas' affecting Miss Coombs last night as Domas' affecting heroine made her way deep into the sympathies of her andience. Her acting of her role was an artistic and dramatic triomph. The mental agonies and the sufferings of disease she depicted with touching power, and her step, her eye, her voice, obeying her genuine dramatic instinct, moved to its unaffected and temperate power. There are no moven points in her performance, she pever loses her perfect command of every situation. She certainly creates a new atmosphere throughout the whole play, refining it from the coarse realities of Paris into the pure ethercalities of the fabled Arcadia.

BERWICK LETTER.

EDS. COLUMBIAN :

A series of meetings to be continued every will have their names enrolled in the Book of Life, if the members of the church fit them spirit of it. If the success of the meetings depends upon the pastor, Rev. Smyser, then will he hopes of the church be realized. He alone can not accomplish this. His charge mus help him. Last week, every evening was deroted to prayer and other religious exercise by the Y. M C. A. Their services were wel attended, and will be blessed by future evdence of their good influence on our young nen. This organization is still quite young here, but numbers many members. Nightly the reading room entertains young and even middle aged men. The best periodicals and daily newspapers grace the library, imparting knowledge to many eager readers, whose narrow circumstances could not give them this advantage ere their library was established. The public libraries of our country rank with the first of our most beneficial institutions. Milions through their agency are raised from the mire of illiteracy. The organization mention od above has an invaluable leader in the peson of C. H. Zehnder, an ardent worker for the salvation of young men. The Literary So ciety, week before last, discussed the question "Do the works of nature declare the immortality of the soul." Rev. Eddinger ably lead and used it according to directions. The relied and the affirmative and Rev. Cattell in a like I felt was almost "electric." I got better at Clark & Son's. manner, the negative. I thought the argumunts f the affirmative the weightier of the two but found it contrary to the decision of the judges who. I fancy, did not accept the affirmative' definition of soul which according to the Bible nay not mean what we have been taught to relieve. I do not mean to say that the affirmaive gave any other definition of this word

The appetites of the boarders in this direction, however were not gratified. he valiant deer slayer having returned empty handed. Overcome apparently by the imporunities of his hungry boarders, he resolved t ejoin his companion, Dr. Little, who is still on the North Mountain, they together having arrived here on Monday of last week. It is re ported that the Doctor had three shots at a leer and then failed to bring down the game. He will probably try to make us believe that by a mistake he had loaded bird shot instead f buck ; as he tried to do under similar cirumstances several years ago, but then unfor unately for his story one of his companion found a charge of buck-shot in a tree that stood between the Doctor and the spot where the feer had been when he fired.
