"CRYSTALIZATION." AN ATTEMPT TO CONSOLIDATE THE GREEN-BACK PARTY WITH THE REPUBLICANS, AND HOW IT WORKED,

The following letter was received lately by E. S. Watson, State Chairman of the Na-tional Greenback Labor party of Penn yl-dress was highly eulogistic of the farmer,

A word confidentially: As a veteran of who died since last meeting, R. S. Knowing that you hold the position of chairman of the Greenback Labor Party of Pennsylvania, naturally wielding an influence, we say to you strictly confidential, that while there is no chance of your success as a party, a field opens affording you brilliant opportunities. You have had experience enough in American polities to know that self-preservation is the first law of nature. Aid us in crystalliging all loyal elements into one great party, and your future prosperity is assured. Meeus at the Lochiel House at 9 a. m., Dec. 15.

Upon the receipt of this letter Mr. Watson was non-plussed to understand its true meaning, and in doubt about its genuineness, but upon learning that the citizens named had also been similarly favored, concluded to treat it as it deserved. He smilingly remarked: "If this is the advance of the money power, better that the miserable curs go back to their dens-to the revelry of their associated saloons." The Greenback party cannot be bought up for Grant with war plumes, and even the \$156,000,000 of surplus profits which the national banking association boasts it is in possession of to purchase voters like cattle, and control the poliend. The chairman further stated that he was a member of the Grand Army of the readings. Dr. Calder, of Centre, on the tics of the nation, will avail nothing in the Republic, but not a political member, and hoped that organization would never descend

The mean that we would never descend from its present exalted position to become the suppliant tool of politicians. He beorder to kick out the man who dered to subvert its principles, and brand the miscreant publicly as a traitor to the Grand Army of

the Republic.

As to the debt of gratitude the nation owes U. S. Grant : His soldier record no one will assail, but his political record is damning; he became the willing tool of Wall street, and in the face of oft repeated utterances to the contrary, favored legislation in the interest of the money power. All good citizens, "irrespective of party,' will not join in urging him for the Presidency. It is the desire of the money power to unwritten work was exemplified in the afterplace him in the White House, and for that reason state militia, grand army posts, city hundreds of miles, and free lunches, to aid in the attempt to set the people wild over The entire sessions were harmonious though the Grant boom, and the national banking association, and Republican politicians, foot there were differences of opinion. The

This letter, breathing of bribery, intimates that there is no chance of success for the Greenback party, and therefore they offer its chairman "brilliant opportunities." It s the chance of Greenback success that makes the "boomers" desperate, for they stand in no fear of the Democrats. The chairman upon being asked if he should meet the committee at the Lochiel House, replied, "not this year."
If Hon. Wm. H. Armstrong, famed as he

is in the State of Pennsylvania, for the sake of a foreign mission, or anything else, will go back to the arms of the money power, after declaring himself a Greenbacker, and boasting that he was one of the earliest in congress to urge Greenback measures, and after entering the arena for the gubernatorial nomination of the Greenback party in 1878, then let that distinguished gentleman take the plume which the committee have sent him, and let it be hereafter known that

The plume sent D. H. Foresman is unin the columns of the Farmer's Friend and papers of Bloomsburg, also :

"boomers,"
But seriously speaking, can it be possible that the Republican party contemplates a wholesale system of bribery, as practiced in Maine? Can it be possible that the people are to be humbugged by this free ride and free lunch scheme? Is there no other soldier worthy of grand receptions but Grant ! Are we to spe monarchy, and finally settle

down to a despotic form of government?

The above letter should startle the freedom-loving citizens of this Republic, as it indicates the policy these men intend to pursue. Then Voters, arouse ! or will you permit Republican government to die in 1880? Every Greenback paper should oppose this scheme of the political tricksters.

-National Standard. We reprint the above simply to show to what means the Republican party is resort-ing to continue its hold upon the reins of government. They are now endeavoring to buy up what there is left of the Greenback party, to assist them in securing the presi-dency next year. But the Greenbackers do not seem to be willing to sell themselves for great pleasure in hereby expressing our en-
