SUPERVISOR NOMINATIONS. DULL \* TIMES ON NEWSPAPER ROW. THE INDIAN AND THE CHINAMAN.

The Senate has not been in session sinlast Thursday, but it must not be suppose that our venerable and dignified upper house has been idle for three days. An ad journment from Thursday to Monday does not nocessarily mean rest and recreation to our legislative valoons. The toil of a Sen ator does not consist exclusively in making dull speeches to his listless and unlistening brothers. There is committee work to perform ; Knotty questions of law, of finance and of all the multifarious questions that come within the perview of national polity are discussed and partially digested before they are reported to the house of Congress in session assembled.

To-day it is understood that the Presiden will send in a long list of nominations of census supervisors and it is probable that much of time of the Senate during the present week will be occupied in the consideration of these nominations.

In matter of political intelligence of sonsational character, this is the dullest winter in the memory of the greyest haired denizen of newspaper row. Congress will not be agitated. The warfare of sections seems actually to be over. Whether this state of things has been brought about by an exhaustion of the question by the return of properity, or by the counter irritant in Maine,i is impossible to tell but peace in our large domestic heterogeneity, or something like it, has come at last,

The House Committee on education and labor discussed for four hours Saturday morning Representative Good's bill prohibiting Chinese immigration, and finally de ended to report favorably upon it, striking out the section which provides for the abrogation of articles five and six of the Burlingame treaty. The bill prohibits the landing within the jurisdiction of the United States, of taking on board at any point in China or any foreign port for the purpose of landing in the United States, a greater number than fifteen passengers upon any vessel, under penalty of \$100 fine, and imprisonment not exceeding six months for each Chinese passenger above the number of fifteen. It requires the masters of vessels to accompany their manifests of cargo with a sworn list of Chinese passengers. It, also provides that the penalties imposed for the ilade the provisions of the bill shall be liens on the vessels violating them. It excludes from the restrictions of the bill \$20,000. persons dilicially connected with the Chiness government or any embassy there of, or
