BERWICK LETTER.

EDS. COLUMBIAN: In the conflict between winter and spring the ormer seems to have yielded to the warm embrace of the latter. Were the blue bird t carol on one of these fine mornings surely we would believe the conquest of the King of the North to be complete. It is only his honey noon and he is but temporarily lost in the bland ishments of the Southern Queen. Ere long he will assert his individuality and wield the scepter with weakened energy. The seasons, you see, have their honey-moons as well as the mor tals, but unlike that of morta s this happy period preceeds the marriage. Having approached the topic of marriage, it would not be inappropriate here to say that two of these interesting vents occurred in our town last week. Cupic Hymen's willing little slave, plays havor among us. Other hearts, 'tis said are sorely wounded and are soon to be healed by the magic bonds of matrimony. Messrs Zehnder and Sherwood were the ones who courted the healer last week, the former having united himself to Miss Hickniece of Col. Jackson's lady, and the latter to Miss McBride, daughter of our townsman McBride. The marriage of the latter was a private ceremony, that of the former was conducted with admirable color in the presence of a hun

dred or more guests at the home of Col. Jack son. The wedding march struck up promptly at 5, p. m., continuing until the couple, escorted by Messrs. Hicks and Zehnder, Jun., and Misses Etta and Jennie Jackson, stood at the head of the Parlor, the knot was tied by Rev Solvser, after congratulating the pair, the guests were served with innumerable varieties of dishes, cakes and fruits, at 7:30 the happy couple took their departure for a short toer through some of the eastern towns. The guests enjoyed

themselves with conversation and music until a

The temporary sence of the pastor and his wife being effected, the party quietly took possession be parsonage and awaited their return. At At once all within was quiet. Soon the door up before her and the surprise was overwhelm ng. After a general shaking of hands and a ner was announced and as many as could be accommodated were seated around the tables Mrs. H. was surprised at finding a very respectable sum of money under her plate. Abou ninety persons took dinner at the parsonage on that day. The pleasure of the occasion was also enhanced by the sweet tones of the organ and the inspiring strains of our band. Th affair was a complete success and evinced the good will of the participants and the skill of the projectors.

The solemn right of confirmation was adainistered last Sunday by the Reformed pastor to a bride and groom whom he had lately united in holy wedlock. This is the right way start out in married life.

The Erie mail train one morning last week from Harrisburg to Williamsport, had a narrow escape from being reduced to splinters as the Milton crossing of the Catawissa track. The mail arrived there about half-past six in the midst of a heavy fig. which hid everything from view. The engineer noticed that the signal was right for him to proceed, and he did not stop, as he had the right of way. As he was pulling over the crossing, however, he heard the rumbling wheels of another train, bu was unable to see it. Fearing a collision he stopped so that the Baltimore express car of his train would be on the track of the Catawisa road. In a moment a freight train dashed into him, cutting the express car out and tumbling it into the ditch, and ran straight through Fortunately no one was injured, but the passen' gers in the rear cars were terribly alar med a the crashing of word and iron, as the freight train ploughed through. The occumotive of the Catawissa train had her headlight knocked off, and sustained other damages, but was not seriously injured. The express car was not very badly damaged, but its contents were scattered pell mell in all directions. Had the freight train struck one of the passenger conches the oss of life might have been serious. Owing to the foresight of the engineer the passengerwere sa ed, because if he had not stopped when he did their car would have been in the way o the moving moving freight train and would
