County Commissioners and Assessors.

Auditor General Shell some time since issued his instructions to county commissioners in regard to the assessment and colcapital in the hands of individual citizens ment of the same. The determination of the Auditor General is shown by the fol-

eys at interest, in many counties have been very carelessly and negligently made. Nearthat at least one half of the moneys at intaxing money capital is not to be taken into consideration. The law itself is imperon every dollar of the value "of all moneyed of the State." It makes it the duty of the commissioners of the several counties to re quire the (township) assessors to ascertain the amount, description and value, of the property taxable for State purposes. It makes it the duty of assessors to "require of every taxable in his district to furnish a statement in writing, or partly written and partly printed, showing the aggregate amount of money due and owing by solvent debtors to such taxable," etc.

It is hoped that commissioners will refus to accept any assessment which, upon exam amination, proves to be deficient, or not in accordance with the requirements of the law and that such defective assessment shall be returned to the assessor for correction. It is the determination of this de partment, that the laws relative to taxation for State purposes shall be enforced.

> WASHINGTON LETTER. Washington, D C. Feb. 3d 1880

Those North Carolnian colored people who are going over the hills to the poorhouses of Indiana will have no excuse for being deluded bereafter. That is, if any of them can read. Yesterday two of the Indiana radical agents of the exodus certified before the Senate special committee to the motives which induced them to enter into it. One ation to convert its property into cash, and of them was to sell limestone ridge land at lafter the payment of all its liabilities to difive and six dollars per acre to the negroes, vide its remaining assets among its stockand another was to colonize them in close Democratic counties. One of the men said he hoped in that way to get "everlastingly ocratic party in his section. He will hardly do that. Organizing and colonizing ignorance in order to defeat a party in a distant State is a new thing in ou

There is diversity of opinion as to the propriety of surrendering up the House of Representatives not the Hall but the House itself to outsiders, but so long as such a course is taken it will be well if no more use is made of it than on our last evening, when, the Speaker in his chair and the Repre-entatives in their seats, a clear statement was made by an Irish citizen of some of the troubles of Ireland. It is not likely that just the same difficulties will ever be experienced by this country as were portrayed by Mr. Parnell last evening and our interest in the affairs of Ireland, except in the matter of dollars and cents, we may send as in-The government can give no money relief.

But at least the information was happy in one respect. The House has done no business for two weeks except to pass resolutions concerning Senator Chandler, and there was an appearance of life last

In the Senate yesterday, as on every day for a month, numerous petitions were presented against an enormity in the way of proposed legislation known as the "sixty District Bill," It is a measure of commissioner of Pensions, Bently. That is, he is the person put forward as the father of it-The object is this, Congress has at various times from the foundation of the government passed extremely liberal pension laws. The expense now is very large and will probably be larger. The bill in question nullifies those laws. It does not do this openly, but by making it an impossibility for any one to prove up his pension claims. It compels every claimant to bring all his witnesses four or more are necessary in each wait the government. Some of the "Sixty Surgeons,, get ready to hear them. The Grant Mockery.

holders pro rata.

It is evident from our latest advices from Harrisburg last night that the Republican State Convention will to-day go through the mockery of formal instructions for General Grant for President. We say "mockery,"because such a deliverance must be made in utter contempt of the plainly-expressed and well-known wishes of the Republicans of the State. It is frankly admitted by the leaders who are under contract to deliver the Philadelphia delegation to Grant, that but one of the forty-six who are to speak Green and Win Green, Philadelphia telegation to Grant, that but one of the forty-six who are to speak for the eighty-thousand Republican voters of this city in the convention is in favor of Grants nomination. Forty-five of them sincerely believe that his candidacy would to Grant heartily agree in deprecating a declaration in his favor. But the mockery of a solid vote for Philadelphia in favor of Grant, nomination will be given to-day, Mr. Charles Thomson Jones is single and and alone as a Grant man in the delegation. McManes and Leeds have protested against the Grant instructions as perilous to the party and to Cameron. But when their protests were unavailing with Cameron they have delivered their flock to swell the triumph of the omnipotent Senator.

And what is true of Philadelphia is true of the whole State. There is not a single county or district in Pennsylvania that would declare for Grant's nomination if a fair expression of the Republicans could be had. Pliable committees nave made pliable delegates until Cameron possessed a clear majority of the convention, and then the Blaine men were notified that they must submit if they would not invoke the vengeance of the dominant power of Pennsylvania. It is not surprising that thus held in the lion's mouth they hesitate to assert themselves, and that Blaine's apparent strength may be cut down Blaine's apparent strength may be cut down court of Common Pleas of Columbia county and to to his seventy-five instructed delegates on me directed, will be exposed to public sale at the test vote to-day.
