After the adoption of a platform, the cor vention adjourned sine die. It was one o the ablest bodies of Democrats ever assembled in the State

THE PLATFORM.

The following is the platform adopted a the Harrisburg Convention:

RESOLVED, First, That the Democrati party of Pennsylvania in convention assembled renew our vows of fidelity to the funda mental principles proclaimed and practiced by the illustrious men who settled our free institutions and founded the Democratic party to preserve and protect them.

Second, That the just powers of the Federal Unise, the rights of the States and the liberties of the people are vital parts of one harmonious system, and to save each part in its whole constitutional vigor is to "save the life of the nation."

Third, That the Democratic party main tains, as it ever has maintained, toat the military are and ought to be in all things subordinate to the civil authorities. It denies as it ever has denied, the right of the Federal administration to keep on foot at the general expense a standing army to invade the States for political purposes, without regard to constitutional restrictions, to control the people at the polls, to protect and encourage fraudulent counts of the votes, or to inaugurate candidates rejected by the majority.

Fourth, That the right of a free ballot is the right preservative of all rights, the only means of peacefully redressing grievances and reforming abuses. The presence at the polis of a regular military force and of a host of hireling officials, claiming the power to arrest and imprison citizens without warrant or hearing, destroys all freedom of elecand upturus the very foundation of self-government. We call upon all good cit izens to aid us in preserving our institutions from destruction by these imperial methods of supervising the right of suffrage and co ercing the popular will by keeping the way to the bailot-box open and free, as it was to our fathers; in removing the army to a safe and in securing obedience to their will when legally expressed by their votes.

Fifth, That Rutherford B. Hayes having been placed in power against the well-known and legally-expressed will of the people, is the representative of a conspiracy only and his claim of the right to surround the bailot-boxes with troops add deputy marshals to intimidate and obstruct the elections, and his unprecedented use of the veto to maintain this, is an insult and a menace to the

Sixth, That the Democratic party, as of old, favors a constitutional currency of gold and silver and of paper convertible into

Seventh, That we are opposed to the system of subsidies by the General Government under which, during the period of Republican ascendancy, political rings and corporations profited at the people's expense, and to any appropriations of the public moneys or the public credit to any objects but the public service. The reforms and economies enforced by the Democratic party since its advent to power in Congress have saved to the people many millions of dollars and we United States. A bill for substantially the believe that a like result would follow its restoration to power in the State of Pennsylvania.

Eighth, That the Democratic party, being the natural friend of the workingman and having throughout its history stood between him and oppression, renew its expression of sympathy with labor and its promise of protection to its rights.

Ninth, That we look with alarm and apprehension upon the pretensions of the great transportation companies to be above the fundamental law of this Commonwesith which governs all else within our borders, and until they accept the constitution of 73 in good faith they should remain objects of Legislature and people.

Tenth, That the recent attempt, under the personal direction of ruling Republican lenders, to debauch the Legislature by wholesale bribery and corruption and to take from the Commonwealth four millions of dollars, for which its liability had never been ascertained, is a fresh and alarming evidence of the aggressiveness of the political ring, plan to allow the executive to veto parts of and should receive the signal condemnation

of the people at the polls. Elecenth, That the great fraud 1876-77, by which, upon a false count of the electoral twice as much wasted. votes of three States, the candidate defeated at the polls was seated in the Presidential chair, and, for the first time in American history, the will of the people was set aside under a threat of military force, was the most deadly blow ever aimed at our system of representative government. To preserve in firm and patriotic taith that the people would peacefully redress the great wrong and signally rebuke the dark crime when they should come to vote in 1880.

That issue precedes and dwarfs every othconsciences of a nation of freemen.

THE BRIBERS SENTENCED.

The Board of Pardons convened on last Friday, and after a short session recommended the pardon of Kemble and the other riot bill bribers from that nortion of the sentence which consigned them to the peaitentiary for one year. The Governor at once signed the pardons and the prisoners were released. They paid the fines of one thousand dollars each and costs. They are disqualified from ever holding any office of trust or profit under the commonwealth. The board under takes to excuse themselves on the ground that the court exceeded its authority in sentencing to labor in the penitentiary, but this is too attenuated. The board is composed of Republicans, and they were governed by partisan motives rather than by a desire to orrect a mistake of the court. How long will the people of this State keep in power a party whose officers make a farce of the

Ever since that date he has been engaged in active practice and has attained high rank as a lawyer,

Until 1874 he never held any office, except that he was a School Director, and member of the Town Council of Brookville. In that year he was nominated and elected to Conress as a Democrat from the Twenty-fifth district, composed of the counties of Armstrong, Clarion, Forest, Indiana and Jefferson. In this election he received 11,627 votes against 11,109 for General Harry White. Mr. Jenks, in a single term of Conmanding almost immediate recognition. When the Electoral Commission was formed he was chosen by his Democratic colleagues as one of the counsel to represent the Tilden case before that body and his argument was commended as a model of forensic cloquence, but even more notable for compresion of facts and deductions in small compass. He spoke without a note, but was almost the only one of the many lawyers who

addressd the commission to confine himself strictly to the small time allotted and vet present a complete argument. The Last of his Race.

Bruce, the Colored Senator from Missis pi, alinding to the time when he should re from the Senate pathetically said! elieve that I am the last of my race that will ever occupy a seat in this branch of the Federal Government."

No doubt, the words of the Senator will prove to be correct. The republican party, ever anxious for the negro vote, and always ready to make the most glowing promises, no more nominates them to important offices. The leaders of that party will not even as sociate with them, not even with Senator Bruce himself, an able, sensible and excel-ient man, wealthy and refined, and with a beautiful and cultivated wife. Never was a race of people so cruelly disappointed. Let them remember that in all respects they were to be the white man's social and powere to be the white man's social and po-litical equal. They were to be indges, mem-bers of congress, and senators. Has all this except in a few instances, been realized? Let the melancholy and prophetic words of Senator Bruce be the answer, and a mourn-tul commentary upon the broken promises of the republican party.—Genius of Liberty.
