**LOCK HAVEN, JUNE 14.**—A terrible wind and rain storm passed over this city and county yesterday afternoon. **The Town council held their regular meeting** last week, Wednesday night. We are unable to print the proceedings of the clerk at this time, as he has not yet reported the meeting. So far as we can learn a building permit was granted to L. S. Kahn, and a number of bills ordered paid. Only four members, including the President, were present. We cannot understand why there are no minutes. The proceedings of every meeting of the council must be kept and reported by the Secretary, and the minutes are open for the inspection of the public. If there is no record of the meeting, there certainly should be, and if there are minutes, but not recorded, it is a weakness of the council. It is high time they were put on the minute book.

**THE REASON WHY** all manufacturers of throwing machinery are so anxious to make a separator of the "Vibrator" is, because it has been proved beyond a question that the principles upon which the "Vibrator" is built are the only correct ones. It may not be generally known, but it is a fact that the word "Vibrator" is not to be found in the dictionary, but was coined and copied by Nichols, Shepard & Co., of Battle Creek, Mich. for their throwing machinery. The success of this firm is almost phenomenal, and yet it illustrates the fact that true merit will always succeed. By discovering and applying the true principles of construction, and using only the best materials in manufacturing this firm have risen to the first position in their line, and the "Vibrator" separators and engines are now used all over the world. Any one intending to buy any throwing machinery does himself great injury if he does not first obtain full information from them and carefully examine the merits of their goods.

**PROCEEDINGS OF SCHOOL BOARD.**  
The members of the School Board, B. F. Zarr, O. T. Wills and J. C. Brown and members held a meeting on Saturday evening the 12th, to effect an organization for the ensuing year. A temporary organization was made by electing B. F. Zarr chairman and J. C. Brown, Secretary. On motion B. F. Zarr was elected President for the ensuing year. The salary of the Secretary was fixed at \$150, the same as last year and on motion J. C. Brown was elected Secretary. The Treasurer's commission was fixed at 2 per cent. The same as last year and on motion J. C. Brown was elected Treasurer. The collector's commission was fixed at 2 per cent. as last year and M. C. Woodward was elected collector. The bonds of the Treasurer and collector were approved. The Secretary was directed to draw orders for the payment of the Auditors for one dollar each and twenty-five dollars each in favor of the Commissioners of the State, for the publishing annual statement. On motion adjourned until Friday evening the 18th.

**The Law of Partnership.**  
The following may be of interest to many of our readers, as it is probably not generally known what the law concerning visitors to bar rooms and drinking saloons really is: A case was decided at Philadelphia lately by which one of the party of four persons, who had spent the evening at a public house, his companions having neglected to "pay up" by their proportion of the expense. The case is reported in the Bulletin. The defendant held, that as he had not drank the whole, nor ate the whole that was ordered, but only a fourth part thereof, he was not responsible for payment only in that ratio.

**The Young Men's Christian Association** have purchased Exeter Hall, London, for \$25,000. They intend to spend another \$15,000 in doing up the building. The Roman Catholics were anxious to purchase it for a church, but, although they offered as much as the sum paid for it, the actual purchasers got the preference. The United Kingdom Alliance also put in a bid for the famous residence. This is a sign that the liquor law agitation is likely to rank among the permanent institutions of the country.

**New York pays more for tobacco than** for bread. Dealers say that there are smokers in that city who average 100 cigars a week, and men whose cigar bills run up to thousands of dollars per annum.

**It should be the aim of every owner of** Horses, Cows, &c., to make them as handsome and useful as possible. The German Horse and Cow Powder helps to develop all the powers of the animal. It improves its beauty and increases its usefulness. It makes milk, muscle and fat. By using it a horse will do more work and a cow give more milk and be in better condition with less feed. Sold only by weight at 15 cents a pound by C. A. Klein, Bloomsburg.

**THE EPISCOPAL CONVENTION.**  
The convention of the Diocese of Central Pennsylvania met in the City of Harrisburg on Tuesday the 8th inst. It was largely attended than usual, very few parishes were unrepresented, owing to the general interest felt in the proposed division of the Diocese. This question was discussed on Wednesday afternoon by being referred to a committee to be appointed by the Bishop, to consist of three clergymen and three laymen, said committee to report to the next convention. This action, opposed by the advocates of division, makes the formation of a new Diocese impossible within the next three years, as the consent of the General Convention (which meets triennially) must be had before a new Diocese can be organized. The next General Convention meets in the coming month of October and it was intended by the supporters of division to divide the Diocese of Central Pennsylvania divided time to be ratified by that body.
