7th from three to seven p. m. Keep it in mind.

It is removed that a Greenback campaign paper is to be started in this town. If true it is only a republican scheme to injure the Democratic party. The Greenback issue in this county is dead. Reports from all sections are to the effect that those democrats who voted with that party have returned to their first love an I will vote the Democratic ticket this fall. A paper to lead Democrats astray again is the child of republican schemers, and will be backed by republican money. Democrats who support such an organ are merely making themselves the dupes of republican leaders.

"During the campaign which will be char neterized by much excitement our read re may rely upon all questions of fact that we publish editorially."

The above appears in this week's Repub Hean. Can it be possible that our centem porary contemplates closing up its office? Or are they going to diminish the size of their sheet during the campaign? It is on of these things, for the amount of truth that they will tell from now until the elec-tion can be printed in a very small space.

With Kemble and his crowd of corrupt solic itors out of the penitentiary; with Mouatt the ballot box stuffer let off by a disagree ing jury, 11 to 1; with a British free trade Cobden Club, and Hayes' army and navy, the opposition expect to intimidate the dem ocracy this fall.

A number of prominent Democrats and Readjusters have since taken hold of the critical exploiting of popular government matter, and by their energy and influence have inaugurated a movement, which from the fate of Republican institutions in the the number and prominence of those of both sides who have flocked to the standard. must necessarily result in the much desired

My confident impression is that I never beard of such a case before, mine, and I have the highest confidence in his imegrity."

This is clear and correct. Justice Swayne's epinion, that a contract for purely professional services is valid, but that such services are separated by a broad line from personal dicitation and from official influence, was given in the case of Barke versus Child, with which Mr Garffeld had nothing to d . When Chittender, who was a Washington labbyist, and McCiellan and DeGreyer, in Chicago, for his share of the profits of the enving contracts, the \$5,000 he had paid to priations committee, formed an element in ed to the recognition of this transaction, on the ground that it was an agreement for the as against public policy and good morals, ciding Justic Swayne's opinion in Burke versus Child in support of this view. The arrangements for the twenty-eventh annal exhibition of the Pennsylvania State Agricultural Society, which is to be held at the Permanent Exhibition Building, from 6th to the 18th of September, and be followed by an international exhibition of sheep, wool, woollen products and machinery, from the 10th to the 25th of the same touth, are daily being perfected, and by the dates named everything promises to be in readiness for a complete and satisfactory showing. Up to this time there has been one hundred and fitty personal appplications at the office, northwest corner of Tenth and Chestnut streets, for space for exhibits, and five hundred letters have been received asking for blank forms for application. The schedule of classifications comprise four general departments, viz. : live stock, farm and garden products and their manufactures, tools, implements and machinery, and home and social improvements, embracing thirtysix groups and ninety-seven sub-divisions :

A liberal premium list of \$40,000 has been arranged, or twice as much as that of the last year, and from present indications it is believed that the exhibits will not only be twice as large as last year, but better in character, quality and general appearance. Last year there were over a mile and a half of stalls, but this year this space is to be doubled, thus giving plenty of room to the and have been usde for conveying exhibitors and stock to the fair at reduced rates. the railroad companies having signified their intentions of offering unusual facilities. Joseph E. Poyre, attorney-ai-law, No. Attleboro, Mass. write: For more than 20 years a portion of my head has been as smooth and rise from hir as a billiant ball, but some eight weeks ago I was faducad to try your Carboline, and the effect has been simply wonderful. Where he hads has been seen for years there now appears a thick growth, and I am convinced that by continuing its one I shall have as good a head of hair as I ever had. It is growing now marrly as modely as hair does after it is cut.

heraided to the world, but the knowledge was prac-tically useless to the prematurely hald and gray, as no one in civilized society could tolerate the use of reduced petroleum as a dressing for the hair. But the skill of one of our chemists has oversome the diffi-culty, and by a process known only to himself, he has after very elaborate and costly experiments, suc-ceeded in decolorising reduced petroleum, which renders it assecutible of being handled as dutulity renders it easecutible of being handled as daintily as the famous case diveologue. The experiments with the decolorized fliquid on the human hair were at-tended with the most astoolshing results. A few applications, where the bair was thin and falling, gave remarkable tone and vigor to the scalp and hair. Every particle of dandruff disappears on the first or second diversing, and the liquid so search-ing in its nature, seems to penetrate to the roots at once, and set up a radical change from the start.
