Do you know how to get in the casiest way and to best advantage what you want for dress and house-furnishing?

First, how: Write for a catalogue; see what you can learn from it about the things you want. If samples can be useful to you, ask for them and state your wants so plainly that exactly the right samples can be sent.

Second, where: The place where goods are kept in the greatest variety; where they are sold for what they really are in respect to quality; where prices are lowest; where most care is taken to serve customers acceptably; and where you have the right to return whatever is not satisfactory.

There-no matter where you are-if you make your wants known and avail yourself of your privileges, you will get the best things in the best way, promptly and without trouble or risk; sometimes by mail, sometimes by express, almost always at less cost for carriage than the money you save in the price.
