Nearly all the competitors of the *Baltimore Eagle*, who struck because a couple of females were employed, are back at their posts working along side of the girls. It is right. While we are friendly to the small boy and like to see him plenty of sport and enjoy himself all he can, yet we must confess that sometimes, if indulged too far, he makes something of an annoyance of himself. But would it not be well when giving notice to the boys not to slide their sleds down the walks, making them slippery and dangerous, not to limit our commands. One small boy with his sled was making the pavement so slippery and soiled that it would be a good thing were his ghostship to give Bloomsburg a visit. Perhaps it would stop a great deal of talk not very creditable to the large number of girls that run our streets at night.

Most of our merchants have already purchased their stock of holiday goods and have made satisfactory displays of the same. Judging from the pleasant and smiling countenances of the dealers, they expect big sales, and there is no reason why their expectations should not be realized, as money is plenty. There certainly is no need for our citizens to go away to make their purchases, when they can get everything at home just as cheap and good.

Worth Knowing. There is a place in Philadelphia where a stranger may buy his clothes, and fare as well as if he knew the whole city by heart; and if he knows nothing about the value of cloths, or of clothes, he is as well off, as if he were a good judge of both.

The reason is that everything to be found there is made there—made and sold under a system which rarely allows mistakes to occur, and which corrects them, if they do occur.

OAK HALL is the place; and its practice may be summed up in a few words. If you get there what you don't want to keep at the price, you return it, and get your money back.

This means a great deal more than appears on the surface. It means that you are not going to get what you are not going to keep at the price, if the merchant can help it. It means that the clothes you get there will be of honest cloths, honestly made; and that they will cost you less than as good clothes can be got for elsewhere. It means that they will be every way better worth your money than you can get elsewhere for the same money.

If it means anything less than these things—if it means poor cloths, trimmings, cutting, sewing, or in any way dishonest or illiberal dealing; the return of his goods will plague the merchant, injure his credit, and dissipate his trade.

If it means these things—if it means liberal and honorable dealing, valuable and trusty clothing, ease and safety in getting it, OAK HALL is the place for you to go, to or send to; and it is worth your while to know how you can send, if it is inconvenient to go.

Write; say what your occupation is; say what sort of use you intend to make of the clothes you wear, whether for every-day wear or otherwise; what color you prefer, or what color to avoid; say about what you want to pay; say everything that you think may aid a stranger in choosing for you. You will get in reply samples of cloths and prices of whatever you want made from those cloths. You will get also the means of having your measure taken by an unskilful person.

There is only one difficulty left. Somebody has got to take the risks of the dealing; for there are risks. Send your money along with your order. That covers the risk as to your good faith. We risk every thing else; the fit, and your satisfaction every way.

Our trade by mail amounts to half a million dollars a year; there's no reason why it shouldn't amount to five millions.
