The village of Paris, Clark county, Virginia, was completely snowed under December 20th. People got out of their houses by going on the roof and walking on the snow crust.

The Normal School is well filled with students this term. There are twelve from Shenandoah in attendance. If all other portions of the district would do as well as that town has done for several years past, the buildings would be too small.

There are many payments in town that are a dangerous condition. When it might easily have been done they were not properly cleaned, and the water that remained on them because no openings were made for it to run into the gutter, has frozen, making them very slippery. It is to be hoped that no one but the occupants of such premises will get a fall on these payments.

It is a great source of annoyance that no change has yet been made in the small routes through this county. If any one should arrange the routes with the view of inconveniencing the largest number of people he could not do more successfully. A large number of petitions have been signed but nothing has yet resulted from them. If our petitioning has any influence with the department at Washington every body would be greatly obliged to him if he can effect a change.

There were four sleighing parties went out on Friday night, last week, one to each of the following points, Benca, B. Wick, Davidstown & Alyska.

C. T. Fay, Hlyok, Mass., says: Almost all of the children's shoes we have at the A. S. T. Co. put on in fact we could not sell them without. In fact it has become a necessity to raise them.

We are thankful to our many subscribers who have paid for the paper for the past year. There are still a few who have not paid. Remember, if you are one of these you will confer a great favor on us, and feel much more comfortable about paying up. It is much easier to pay every year than to let it run several years and pay a large bill. At the rate of \$1.50 a year, you expect every one to pay promptly.

Something over fifty of the citizens of Danville, ladies and gentlemen, drove up here in sleighs on Thursday night, last week, and were entertained right royally at the Exchange Hotel. They brought musicians with them and dancing was indulged in for the morning. An elegant supper was prepared for them by Fuchs & Lamblich.
