It is not often that thirty young men meet to spend a social evening without some indulgence. The occasion was thoroughly enjoyed by all. The report that the supper was paid for by company funds, is not true. Each person paid his own bill.

What a remarkable head Dr. Ananius Bumps must have. Once upon a time he had a chart nade of it by some itinerant phrenologist, and the result of the survey was so grat Ifying to the Dr. that he at once determined to apply himself to the study of the science, and so informed the professor who encouraged him and conequently sold him a book disclosing all the secrets of the profession. For six long years he assiduously devoted all his spare time to the stuly of that work, besides spending three months ander instruction, and if he is to be believed he is now thoroughly prepared to enter prac-tice. He hath manfully withstood the scotts method to discourage him in aspiring to a business for which he was specially adapted, and we sincerely hope that great as has been his labor, his reward will not be priceless. We had an audience with him on Monday evening and, we must admit, came away greatly edified and strongly convinced that the Dr. knew whereof he spike when he eloquently expatiated on the meri s of "bumpa." The Great Bargain Room at OAK HALL,

There never was any? where before, so far as we know, such a sale of clothing as is now going on at OAK HALL, taking up the whole ground floor. A hundred thousand dollars' worth of good clothing, nearly all of it new and fashionable, all of it well made and of good materials without exception (for we make no other) is being sold at prices which bring loss instead of gain.

Clearing sales occur at the close of every season; but they commonly are sales of broken assortments and odd garments, and of small quan-

Here toward the end of our most successful season we are clearing out whatever, for any cause, has shown signs of being slow. Thousands of whole suits and overcoats and odd gar ments as well.

Now the sole reason for selling this mass of valuable clothing, without even an attempt at profit, is that stated above, which may be put into different words, thus: To get our stock into the most attractive condition, without regard to immediate profit.

And so, while this sale is going on, the choicest, most approved, most successful, clothing we have is up stairs. The prices there are not reduced at all. This sale will hurt that while it lasts, because the clothing in the bargain room is extremely good. For this reason we want it short; and to make it short, the prices are low. Bring back promptly what

you don't want at the price. You can order by letter, or buy here, according to your own convenience. On receipt of a letter from you, will send the means of taking your own measure. Then you can tell us what you want, near enough so that we can take the risk of suiting you.

TO HOUSEKEEPERS.

We carry the largest stock of house furnishing goods in the county. We have never been known to make an assertion that was not true that we would confess to, and if you doubt the above look at what the others keep and then look over ours. Every year brings many new things useful in the kitchen and elsewhere throughout the house and we are constantly adding to our stock such articles as we think saleable. Unless you have looked over our stock from time to time you would be surprised to know how many little articles there are made for kitchen use, labor saving and just what you have so of ten wanted at a low price. We sell lots and lots of Tinware, our trade increases every year and we do not sell lower than the others either. Sometimes we want more and we get it and the reason is simply that our customers are finding out that for the money we give the best made and most durable Tinware in the county; you can hardly wear it out, and therefore it is cheap. We buy the best tin and have it made under our own eyes, and we know how its done. It is not long since a "Cheap John" located here with a 99 cent store and sold a whole cart load of tinware for 99 cents. You green housekeepers took the bait, but the old experienced ones didn't; they had been there before. Well, it lasted about as long as John stayed, which was a very short time. It is more healthy for such and double Heaters on hand, which traders to move often, and then you commenced to bring it in for we will sell to responsible parties new bottoms and tops, &c. If you want any more of it give us a few and give you time until June 1st days' notice and we will make you some but you will not find it on to pay for them.

We are opening this week a new lot of Marbleized Ware of all descriptions for table and cooking purposes. Of all the improvements in kitchen utensils, none has met with more favor than Marbleized Ware, its beauty and durability commending itself to every one and the demand is greater than the supply. A lady told us the other day whenever her friends spoke of buying table cutlery she always sent them to us as we kept such a large variety of patterns and they had more choice. Those of you who were in last week saw we had a large stock then, but it is all sold out. The manufacturers of Table Cutlery have a meeting in New York every once in a while and besides having a good time they decide as to whether to put their prices up, down, or leave them alone. This time they decided to put them down and we bought several very handsome new patterns which we can sell lower than ever. We keep Woodenware, Washboards, Tubs, Churns, Buckets, Bowls, Ladles, &c. Space will not permit us to go further and we will wind up by saying almost every thing useful for house keepers may be found among our stock except——(modesty forbids) but Cadman has them next door,
