Burdette on Insurance.

The Hawkeye man, in a lecture at Hartford, said: "This is Hartford. You can get insured here in any way for anything you wish—mutual, endowment, lifetime, accident, intentional, nonaccidental, differential, protoplasmic, Baptist, Old School Presbyterian, Congregational, Unitarian, Renaissance, Gothic, Byzantine, greenback, composite, Corinthian, Scotch, chevot, gassar, scamless, new Wheeler & Wilson, barbed wire, liver pad and hard finish. It is the central and distributing point for the entire insurance business of America. No fire insurance company is genuine unless 'Hartford' is blown upon the bottle."

Good Advice.

If you keep your stomach, liver and kidneys in perfect working order, you will prevent and cure by the greater part of the ills that afflict mankind in this or any section. There is no medicine known that will do this as quickly or surely as Parker's Ginger Tonic, which will secure a perfectly natural action of these important organs without interfering in the least with your daily duties. Keep Sheep.

At least a few sheep should be kept on every farm. A kind of stock more profitable. In starting a flock, a few superior animals should be chosen instead of double the number of inferior ones. The increased value of a flock raised from good sheep will greatly exceed the increased cost of a few good ones to start with over what inferior ones would have cost. Start with good sheep and keep them good or make them better, by generous keeping. If one intends to half starve his sheep he might as well begin with half starved ones, as they will be more likely to "hold their own" than those used to better keeping. Sheep keeping, however, is not profitable when the starving process is adopted, and we would not recommend it to farmers who practice any such methods. When good sheep are purchased to start with and are well kept, sheep-keeping is profitable, beneficial to the farm, and should be commended. —Lancaster Journal.
