The promised statement from Treasurer Sweppenheiser does not appear this week for the reason that it has not been handed to us, but we are informed that he has been sick, and presume that is the cause of his not fulfilling his promise. Whatever his explanation may be when it comes, it is very certain that there is but one thing for him to do, and that is to pay back to the county the \$106 that he received for tax deeds to the Commissioners in excess of what the law allows, and also the five per cent commission that he received on the same, making t he amount to be refunded \$111.30.

When Hayes finished his administra tion by the act of crowning disgrace, the nomination of Stanley Matthews to the United States Supreme Bench, and which the Senate would not even consider, it was thought that Mr. President Garfield would spare the country the hu miliation of a renewal of the nomination. But no! The name has been sent in, and as the Senate with Mahone is republican, it remains to be seen if Matthews can be confirmed. Judging by the expressions of the newspapers, the purchase of Ma-hone and the confirmation of Matthews would give this administration a send off which would send it even below that of Hayes. We are sorry the President has thought fit to repeat the blunders of Haves. For this one there is no appa rent excuse, and most certainly no de fense.

The scenes in the Pennsylvania House of Representatives on Monday night beggar description. They were the most uproariously disgraceful of this session, which has been marked by many scenes unbefitting the dignity of a legis-lative body, and it is to be doubted if they have often been equaled in previous years. During the session from half past seven o'clock until ten, the House did no business at all except to pass three bills on first reading, on one which the yeas and nays were called. The House iably fair apportionment measure in the applauded one speake er, the speaker pounded with his gavel until his arm must have ached and still motions were hurled at the clerk's head The responsibility for the failure of the in rapid succession without regard to the order of business. The speaker at length completely lost his temper and evidently his head as he made some grossly unparliamentary rulings. The main cause of the row seemed to be that the Philadelphia members have made up their minds to have no business transacted by the house until their pet schemes are put through.
