In many cases you would never know, if misrepresented to you, and the merchant's profits

thereby largely increased, which makes it a great temptation to dishonest dealers. Never in any instance, have we misrepresented an article in our store, nor do we knowingly allow any employee to do so, and we trust any article bought of us and not found as represented, will be promptly returned. When we find it necessary to use such means in order to make sales, we shall move our stock to some point where square dealing is better appreciated. We do not claim to carry

In selecting our goods, our first consideration is to buy only from reliable manufacturers of standard goods, and secondly to buy as low as we can, and this is all we ask of you, examine our goods, get our prices, and if neither suits you, don't buy. We cannot ask you to do what we refuse to do ourselves, nor do we allow the forcing system, i. c , trying to talk you into something you don't want. We presume you know what you want when you come to see us, and leave such matters to your judgment as you will be better suited in the end. Thanking the public for past favors, we trust, by strictly adhering to ur principle of Square Dealing, and giving dollar for dollar in value, to have a fair share of your patronage in the future.
