AN OUTRAGEOUS CRIME.

Last Sunday morning, some unknown miscreants attempted to destroy the town of Shamokin by sprinkling coal oil on several buildings er and District Attorney, and has a lucra ive and then setting them on fire. So far as the destruction of the town is concerned, the attempt was a failure, but the losses aggregate many thousands of dollars, not estimating those caused by the interruption of business. Fortunately no lives were lost, though there were some narrow escapes. During the fire thieves were detected in robbing a store. It is difficult to nceive of a crime more frightful or more deserving of the most severe punishment. To wilfully and malicicusly place in jeopardy the lives of hundreds of sleeping human beings, is a deed so atrocious as to deserve universal exe ation. The destruction of Milton and the recent attempt at Shamokin would seem to call for a revision of the law regarding arson. The sunishment for such an offence should be the ame as for murder in the first degree. The an who deliberately takes the life of another anot so dingerous to the community as the astardly scoundrel who en langers the lives of scores of helpless men, women and children. The frequency of these attempts to burn whole towns has created a strong feeling that some-

thing should be done to protect the people. It is generally believed in Shamokin that the fire was the work of a gang of tramps who infest that neighborhood. While it may be affirmed that many offences are imputed to tramps of which they are guiltless, it is equally dower Iron Works" true that these reckless wanderers have been convicted of numerous outrages causing damage to property and occasionally loss of life What to do with these vagabonds is a question not easy of solution, but if they are caught in the act of starting a confligration, it may chance that the problem, so far as the perpetrators are concerned, will be speed by and summarily
